SANTA CLAUS FOUND. Greatest Discovery of the Age. Wongerful discoveries in the world have been mad Among other things where Santa Claus stayed Children oft ask if he makes goods or not, If really he lives in a mountain of snow It ready he fives in a mountain of show.

Last year an excursion sailed clear to the Pole

And suddenly dropped into what seemed like ahol

Where wonder of wonders they found a new land

While fairy-like beings appeared on each hand.

There were mountains like ours, with more beautiful green,
And far brighter skies than ever were seen,
Birds with the hues of a rainbow were found,
While flowers of exquisite fragrance were grow ing around.

Not long were they left to wonder in doub. A being soon came the; had heard much about Twas Santa Claus' self and this they all say, le looked like the picture v esee every day. He drove up a team that looked very queer,
Twas a team of grasshoppers instead of reindeer,
He rode in a shell instead of a sleigh,
But he took them on board and drove them

away.

He showed them all over his wonderful realm,
And factories making goods for women and men
Furriers were working on hats great and small,
To Bunoe's they said they were sending them all
aris Kingle, the Glove Maker, told them at once,
All our Gloves we are smalling to Bunoe. All our Gloves we are sending to Bunce, Santa showed them suspenders and many things

more. Saying I also took these to friend Bunce's store. Saying I alse took these to friend Bunce's store.
Santa Claus then whispered a secret he'd tell.
As in Omaha every one knew Bunce well,
He therefore should send his goods to his care,
Knowing his friends will get their full share.
Now remember ye dwellers in Omaha town,
All who want presents to Bunce's go round,
For shirts, collars, or gloves great and small,
we describe the result all. Send your sister or aunt one and all.

Bunce, Champion Hatter of the West, Douglas

LORD TOWNLEY'S FAMILY BIBLE 6 when the ship was about to round KEY TO A ROMANCE, AND ALSO TO A FORTUNE ESTIMATED AT \$100,000,

forwich (Cone ) Sp clal to The N. Y. Sun, \$500 REWARD.

\$500 reward will be paid for the recovery of the Bible of Mary Stepens of Canterbury, Ct. Mary Stephens lived for many years in Canterbury, Ct., and died in East Thompson, December 7, 1804. A short time before her death she stated that she was Mary Townley of Lancashire, and that when she left her home in England she brought her mother's family Bible with her. The last known of this Bible it was carried

away by Robert Stevens (husband to Mary Stevens) when he deserted her about the year 1780. Robert Stevens died at Abington, Four Corners, in Pomfret, Co n., December 3, 1791. It is thought he left his Bible among his effects. The Bible was printed some time between 1600 and 1700, and could be easily identified by the family record of the Townley family inscribed in it. Any communication regarding this should be directed to P. O. Box 2,019.

F. A. HILL, New York. The advertisement is the key to a romance, which may be briefly told. The Mary Stevens referred to was a over the decks. The booby hatch was beautiful and accomplished daughter stove in, the water casks, which had of Lord John Townley of Lancashire, England. She was born in 1727, and while yet a young maiden, she eleped from the decks. The bark rolled with a man named Williams. Little heavily, but did not leak badly. The is known of his history, but it is prob- schooner E. M. Cook, which arrived cial standing than the Townleys, inaslatter to the marriage of Mary and About 1500, reet of lumber, which had her lover led to the elopement been secured on deck, was Washed vens. Mrs. Stevens took her mother' family Bible with her, which conditions at a complete family reconstants settled in Windham cond. They settled in Windham c anty, in this

The Boarl of Courty of Douglas in the Standing six in a.

The Boarl of Courty Commissioners of said This slackened the standing rigging so that the upper works were severely strained, and the ship began to leak badly. The work of securing the drifting spars was very dangerous.

When the ship was steady apough the least should have at leas

a loss. The first question to detera loss. The first question to determine is, what will be the market the coming spring? Of course no one can tell, but we may study the situation of the trade and compare it with previous years, thus arriving at an approximate. This is getting harder to do everyyear as the cittle interest of our country mow extends from ocean to cean.

In a loss, The first question to determine the money of bouglas, in the State of Nebraska, Country of Douglas, in the State of Nebraska, Country of Douglas, in the State of Nebraska, Country of Douglas, in the State of Nebraska, Country of Bouglas, in the State of Nebraska, Country of Douglas, in the State of Nebraska, Country of State of Nebraska, Country now extends from ocean to ocean. [ inarix (6) per cent, per annum, payable semi-The Indians have been practically driven back into mountain fastnesses and there is not a "range" in the west shall be levied and collected a tax annually a and there is not a "range" in the west that can not be occupied by cattle men if they so elect. Thousands of cattle are now being held on the Little Missouri river in Dakota, and Oregon and Washington territory are sending increased numbers to market each year. Then there are Wyoming, Nebraska, Colorado, New Mexico, and Texas, all large cattle countries and the homes of fast increasing nerds. This only relate to the trans-Missouri courty. Of the older states there are Kansas, Iows, Missouri, Illinois, Indiana and Ohio, all of which are able that his family was of lower sofrom Brunswick, Ga., on Sourday Indiana and Ohio, all of which are cattle growing states. On the other hand it may be claimed that our for-

eign trade in cattle and fresh beef is growing, and the consumptive demand is on the increase. Admitting this, in the increase in demand equal to the growing supply? These are questions to be pondered. Notwithstanding the drouth in western Kansas, Colorado and New Mexico, the consequent cutting short of the supply of cattle from that quarter, the receipts here and at other western centers this season have been fully up to and even ahead of last year. Yet, owing to more active foreign demand for American cattle, the greater home consumption resulting from the better employment of the masses, values ruled much the same as in 1879. There is every indication of a very large cattle crop in the west next year, and even should the demand next season increase in the same ratio that it has this ther against the cold and wet. His weight | will be a liberal supply of western cattle. Hence, feeders should avoid all excitement in making their purchases
