SANTA CLAUS FOUND. Greatest Discovery of the Age. Wonderful discoveries in the world have been made among other things where Santa Claus stayed Children oft ask if he makes goods or not, if really he lives in a mountain of snow.

Last year an excursion sailed clear to the Pole and suddenly dropped into what seemed like ahole Where wonder of wonders they found a new land, while fairy-like beings appeared on each hand. There were mountains like ours, with more beautiful green,
And far brighter skies than ever were seen,
Birds with the hues of a rainbow were found,
While flowers of exquisite fragrance were grow ing around.

Not long were they left to wonder in doub:
A being soon came they had heard much about,
Twas Santa Claus' self and this they all say,
is isoked like the picture v see every day.
He drove up a team that looked very queer,
Twas a team of grasshoppers instead of reindeer,
He rode in a shell instead of a sleigh,
But he took them on board and drove them

He showed them all over his wonderful realm,
And factories making goods for women and men
Furriers were working on hats great and small,
To Bunce's they said they were sending them all.
Kris Kingle, the Glove Maker, told them at once,
All our Gloves we are sending to Bunce,
Santa showed them suspenders and many things

Santa showed them suspenders and many things more.

Saying I also took these to friend Bunce's store.

Santa Claus then whispered a secret he'd tell.

As in Omaha every one knew Bunce well.

He therefore should send his goods to his care,

Knowing his friends will get their full share.

Now remember ye dwellers in Omaha town,

All who want presents to Bunce's go round,

For shirts, collars, or gloves great and small,

Send your sister or aunt one and all.
