One can get some idea of the amount of scientific instruction given in England from the fact that while twelve years ago the number of schools examined under the act and art department was only 212, and the number of students only 10,000, there were, last year, over 1300 of these schools and nearly 60,000 pupils.

A postess in the Chicago Tribune says: "I am sick of the reason that come and go." Her case is hopeless. Not one of the four thousand patent nostrums advertised in the newspapers and on the board faces is warranted to cure a person who is sick of the reason that come and go.

The only remedy we can suggest is to employ all the almanac builders to tell some new seasons and drop the old ones, and have them made six months, or a year, in advance.

Justice Smith said, on opening his office in the morning: "I am sick of the reason that come and go." The magistrate said on the previous day: "I am sick of the reason that come and go." It was his father he was now addressing, and it continued: "The evidence is conclusive, and I am not sure but I ought to send me to the first prison, and I certainly had a good deal of ground to stand on. I will simply impose a fine of \$10."

I also used St. Jacobs Oil on a horse that was badly lamed; it removed the soreness and healed more rapidly than any preparation I ever saw.
