A warrant was issued by Judge Hawes Saturday for the arrest of John Doe, other name inknown, who is charged with obtaining money under false pretenses. De has been in the city for some time past, four months at least, and during that time he has swindled a number of parties, so that it is high time the public is warnen against him. Ie is a rather short man, weighing lot over 125 pounds, a smooth talker, out has a habit of hanging his head dwn in a peculiar way when talking toanyone. He plys his vocation generally in the quieter portion of the city, on unfrequented streets or out if the suburbs. He tells various stories of which we have room for but two. He has a large amount of solid () silverware. which is brass lightly wahed, and although he tells his customers that they may test it for memselves in vinegar, he takes care to get a few blocks away before the do so. He seldom makes more that one, or a most two, sales on a bloct, and as his profits are large he has a large field even thus restricted.

His first story, which has come to light, was that he was en route to Denver as agent of a large firm dealing in eilverware, and that on arriving in Omaha he had to pay some heavy express charges to get his trunks through. As he was short of funds he was obliged to open his trunks and dispose of a portion of his stock at a "ruinous figure." The min is gener ally on the customer who takes the bait. He made several sales on this old story, and always estaped detec-

Friday he called at the house of Mrs. C. Waller, who resides on Cass street, near Eleventh, and producing a quantity of silver knives, forks and spoons, told the lady a plausible tale, to the effect that he was on his way to Denver to visit a married sister. That he had brought with him from the east, as a present for his sister, some solid allverware. That on his arrival here he had run out of money and was forced to sell the articles to C. T. Taylor, general agent of the New enable him to get through. He, of course, fe't terrible about it and was turned from a trip through the South considerably humiliated by being reduced to such an extremity, but he would have to sell them at what he could get, and would take \$7 for the lot. The goods were dear at 7 cents. Mrs. Waller after considerable hesitation concluded to take the articles, and of course was too much of a lady to hurt his feelings by making the test by vinegar in his presence. When he had gone however, she tried it, and the thin covering came off at once, revealing the base metal beneath.

Saturday she came to the police court and aled a complaint to prevent others being similarly imposed upon, in which she is to be commended. It is hardly possible that she will recover her money from the scoundrel. Look out for him.

HE WILL BE FIRED. A man named J. E. Herndon was Friday arrested, charged with threatening to kill one of the inmates of Jennie Dickinson's house, and also been visiting in Omaha for a few days, re- E. J. The judge told him that the best thing he could do would be to place the Missoari rivmediately, but as he requested per mission to remain in the city until yesterday to transact some business he had in hands, the Judge told him that in order to do so he might be remanded to jail as he would not be accountable for his actions, and he could then straighten up his affairs upon payment of cost could get out of town as soon as he liked. He was, therefore, remanded to jail. He is the same man who raised such a row in the Grand Central billiard hall a few mornings ago, and it has trans pired that he was bounced cut of St. Jo: within the past two months on two hours' notice He is a hard citizen, and the authorities say he shall not remain in the city under any circum-
