the End,

Glimpses of the Field, Before and After.

Editorial Correspondence of The Bee LINCOLN, Neb., January 24.-The smoke of battle has cleared away The dead are buried, the wounder have been carried off the field by the U. P. ambulance corps and the vanquished have gone home on parole. From all sections of the country con gratulations are pouring in upon Serator Van Wyck by telegraph and mail, while his home people of Otoe are going wild with joy, and making preparations for a grand reception on his return to Nebreska City.

To the Spartan band that supported General Van Wyck and to the men a legislature who, in the face of tempta tions and threats stood up firmly and unflinchingly against arrogant monopoly dictators, the people of Nebraska ewe a debt of gratitude, and I take the pleasure in placing their names upon the roll o bonor. There were fourteen members who voted for General Van Wyck from first to last

They were Senators Cady, Taylor and Tefft and Representatives Bailey, Bick, Case, Howe, Laughlin, Moore, of Otoe, Overton, Parry, Ransom, Root and Sprick. Senator Graham, still kept busy in pushing snow plows of Seward, a democrat, elected by anti-monopoly republicans, voted steadily for General Van Wyck after

No man in the legislature deserves greater credit for his service to General Van Wyck, than Mr. Holman, of Dakota, who at the most critical period of the senatorial contest checked the stampede to Paddock by changing his vote from Dundy to Van Wyck. Hon. Stephen Herman, who was elected on the anti-monopoly ticket, representative of Saline county, stood up manfully against the corrupt intrigue of political jobbers and the machinations of monopoly bosses.

Herman cast his ballot for General VanWyck in the caucus and recorded is vote for him in the legislature. The following named members re corded their votes for General Van Wyck on the final ballot.

Senators Ballentine, Burns of York, Cady, Daily, Dinsmore, Ervin, Graham, Perkins, Pierce, Powers, Taylor, Tefft, Turk and Wherry. Representatives Abbott, Babcock, Balley, Bartlett, Bick, Broatch, Case, Carman, Cook, Cole, Correll, Dalley. Dew, Dowty, Grahsm, Gray, Hall, Heacock, Herman, Hollman, Hostetter, Howe, Jackson of Pawnee, Jen ton, Palmer, Parry, Ransom, Reed, Roberts, Root, Reyman, Sears, Slocumb, Sprick, Walling, Watts, Wells, Whedon, Wilsey, Wiedham, Zeigler and Speaker Shedd—68.

Thirty-six members died with their poots on for Paddock, viz : Senators Baker, Evans, Gere, Harrington, Morse, Myers, Smith, Turner, Wells, White, Zehrung; Representatives Ayer, Baldwin, Bolln, Brown, Filley, France, Frederick, Helms, Jackson of Douglas, Kempton, King, Kyner, Lamb, Lehman, McClure, McDougell, McKinnon, Mickey, Mullen, Peter-son, Putney, Schick, Scott, Silver and Wyatt.

Two republicans, Senator Burns, of Dodge, and Representative Cantlin, of the same county, voted from first to

last for the "boy governor." Four democrats voted on the last ballot for Judge Kinney, viz.: Senator Howe and Representatives Gates Sirpy, and Paxton and McShane of Douglas.

An editor is not infallible, and while I have made fewer miscalcula | Union says: tions and mistakes in my reports from the senatorial battle-ground than any of my contemporaries, I confess to veyed the field the prevalling impreswas a mere blind, intended as a decoy listrict in the interest of Gov. Nance. I always believe that an ounce of prevention is worth a pound of cure, and I promptly struck a blow to the Nance boom by exposing his treachery to Paddock, and incidentally

nounced Judge Post's candidacy as a mere side show for Nance. The outcome has convinced me that Judge Post was in dead earnest and the reports concerning his alleged col-lusion with Nance unfounded. The course pursued by Senator Dinsmore and Representatives Roberts and Jen sen exonorates them from all suspicion of collusion with Paddock and Nance, pressions concerning them should be

and it is but just that false im corrected. On the other hand all I have written and published about Senator White and Representative Scott. of Saunders county, has been fully confirmed by their acts. They have deliberately betrayed their constituents and ought to be forever barred from all places of honor or trust. Mr. White took exceptions to

my strictures and the inference drawn from the \$5000 surveying contract awarded to his brother-in-law. The night before the first-ballot was taken he denounced the allegations in my correspondence concerning him-sel and Scott as utterly baseless, and said I would see my mistake when he voted. The record shows that White and Scott voted 18 times for Paddock, and White was the most rampant partizan of Paddock in every caucus of Paddock's supporters. Another traitor to his constituency is Representative Putney, of Antelope county. He came down to Lincoln an avowed

Alvin Saunders and wife to Sarah lope county and no argument or appear could move him. He voted for Paddock to the end, and City, and upon the arrival of the trimmond of the cus. I feel in duly bound to record tendered a speech of welcome, to which House with four or five rooms, fur- an incident that shows what a flock of mished or unfurnished, suitable for vultures gathered around the capital he responded. during the late contest. When I reached Lincoln at the opening of the

THE ROLE OF HONOR, Crawford, of Elkhorn, in Douglas ounty was in possession of certain letters from Paddock to Moudy, which Moudy thought would defeat Paddock for re-election and he requested me to procure copies of them from Crawford, Icalled on Crawford and he said he preferred to hold on to the letters a day or two. Meantime he desired me to state through THE BEE. that letters were down at Lincoln in the hands of a certain party, which when made publi would explode the Paddock boom the History of Senatoria! suspected that Crawford was simply

trying to blackmail Paddock and I oncluded not to be a party to such a disreputable game. Last Friday I received another let ter from Moudy containing a per-emptory order to Crawford to deliver his letters to me. Crawford emphatically declined to give them up, saying that he proposed to use them himself. Vhether he succeeded in bleedin Paddock I know not, but from hi crest-fallen countenance I judge hi cunning scheme has failed.

In conclusion I must congratulate the democratic members from Dougas upon their fidelity to the pledge they made to their party. Had they oined the U. P. gang and gone over to Paddock, Gen. Van Wyck would not be senator. Perhaps it may not dso be out of place to remark that my spublican friends who denounced my ourse last fall, in refusing to support the U. P. legislative ticket, have discovered that the so-called bolt has given the friends of General Van

Wyck the victory.

NO INFRINGEMENT.

The Opinion of the Consulting Engineer on the Holly Claim.

No Similarity Except in the Mutual Use of Pumps and Water Pipes.

OMAHA, January 22.

Mr. Samuel E. Johnson, President of the City Waterworks company: DEAR SIR -Conformably to your re uest I have examined the complaint filed by the Holly manufacturing company relative to the infringement of their patents, which seems to be regarded and asserted as prospectively certain to result from the construction

of your works as now designed. Knowing of no similarity either in the general design or minutest characteristic between the system adopted for Omaha and what is sometimes termed the "Holly system," excepting that both require pumps and water pipes, I am free to express astonishment that any such proceedings should have been instituted or even seriously

thought of. As I understand it, no one now ims anything like novelty or originow y for the operation of pumping water into pipes of any length or diameter, nor does the fact of employing a composite system for supplying water to communities, such as the alternate or intermittent use of a reservoir and direct pumping involve any principle which is new, novel or patentable, a practice which has been more or less in vogue in this and other countries since the earliest dawn of hydraulic science as applied to pumping devices. The modern process of direct pumping, termed by its principal votaries the "Holly system," admits of neither reservoir no standpipe, but is designed to furnish the requisite supply by the incessant working of pumping machinery, and in order to relieve the machinery, as also the street mains and service pipes, from the deleterious and ofter

dangerous effects of fluctua-tions and concussions incident to the every variable demands of public and private supply, Mr. Holly invented, constructed and patented a device ermed an automatic regulator which is actuated by the water pressure a as to increase or diminish the supply of steam inversely as the water pres sure. While I have no desire to unkindly criticise or deny to this device bride and groom from Elkhorn City, stop-I have never thought of using it or any similar arrangement in connec-Senator Taylor and Representative tion with your works, nor does Bailey, of Washington county; Senator | four contract or city ordinance re domestic supply or fire service are so

the B. & M. railroad in Nebraska, has of consideration. And even in such been appointed local freight agent at contingency, with a direct pumping Atchison, Kas., and he went south to that place Sunday evening.

machinery such as yours, I should replace Sunday evening. value or protection. Supposing for instance that you were compelled to pump in subduing a conflagration at some point beyond and above the effective altitude of your reservoir-the sudden closing of one or more hydrants would cause this regulator t reduce the inflow of steam, and proportionately reduce the speed of your pumping machinery, at the same time the concussion or force necessary to actuate the regulator must first be transmitted to it through the pipe distribution from the hydrants or points at which the concussion is produced, thus subjecting your pipes and service connections to about the full force of the blow, and afterwards

giving them relief. The same reacof pressure from the hy drants to the pumps, transmitted i the same way, would generally stop a direct acting engine such as yours without the regulator, for the reason that the plunger which is forcing the water would meet with a greater resistance than the force extended by the steam which propels it. In other words, if the regulator could always be at or near the point at which the concussion occurs to neutralize its force and save the pipe distribution from sudden strain, instead of being stationary in the engine house, and practically powerless for good until

after such strains have permeated the entire distribution, its real utility would seem to be much less question In view of the farther fact that your hydrants are so constructed as to require fifteen or more turns of the wrench to close them, it is difficult to close them so suddenly as to procure greeted with a splendid house at serious concussion, and as firemen Harper's Theatre last evening, and should be instructed and required to

George H. Coes, with the intro- If found necessary in future pracductory instrumental medley and the tice, a small stand-p'pe near your funny finale, "Scenes at the reservoir of sufficient altitude to give Hippodrome," was particularly good. | you the requisite increase of fire pres-The "Pestimes of Old Kaintuck," by sure, would prove a more unerring safe-guard against excessive pressure, and equally or more efficacious in neutralizing sudden and dangerous fluctuations. With such a device your engine would always work against the elasticity of the atmosphere, a greater and safer reliance than any mechanism that human ingenuity can invent. I wish to reiterate, in conclusion, hat this letter is not intended to voluntarily criticise a device which possesses many ingenious characteristics, further than to plainly set forth the reasons by which I have been governed in designing your works. I have contemplated using nothing which is not similar or identical in design and construction with first-class standard water works throughout the country, yesterday, for arson, being charged and hence my astonishment to learn that the question of infringement has ever been thought of in connection
