Remedies hitherto introduced is that
they are simply expulsory. Hence they
are useless; for unless the causes of the
acrid secretions which are coughed up
are removed, and the ruptured, inflamed
or maturated surfaces healed and restored to their natural tone, a cure is
impossible. Fritsch's Prussian Cough

Bernhardt, while playing "Camille," went into hysterics, and the immense audience was disappointed, and it is said Manager Abbey is out some \$3000 in consequence. A very large audience had collected to witness the great actress' imperson-

It appears that the advance agent of the company had a misunderstanding with the Mobile theatre manager, which resulted in a fisticus, and that the agent hired Temperance hall, where an attempt was made to give the per-

Mr. Saunders believed the bond could be floated at 3 per cent, and favored a longer bond. Mr. McDenald concurred with the committee as to the limit the bond en out by the committee, requiring national banks to deposit 3 per cent bonds as security for circulation.

Mr. Eaton believed a 3 per cent 5-40 bond was the one that should be issued. He did not think 3 per cent 5-10 or 5-15 bonds could be floated, but a 5 40 bond would cell at premium, because every business man and financier believed the country could not pay in five or ten years. The visit revives the story that, after all, New York is to have the treasury portfolio, because friends of the senator declare that this cabinet officer he desires to name or none at all. The gossip is that Levi P. Morton will go to the treasury, and Senator Allison to the interior department, with a Pennsylvania man as postmaster-general, and an Indiana man as secretary of war.

PARNELL'S MANIFESTO. Special Dispatch to The Bee.

DUBLIN, February 17-1 a. m.-At a meeting of the land league yester-day, a manifesto from Mr. Parnell was read. It is a thoughtful and strong document. Parnell states that he has decided to remain in parliament, which is his poet of duty during the present crisis. The movement in America in fevor of the land league, Mr. Parnell says, is capable of immense development. But this will depend upon the stand made and maintained in Ireland. If there is flinching at home, disastrous results will be produced in America. If the friends of Ireland in America see her sons standing firm in their own country, undergoing imprisonment and death in her service, they will not fail to support them with money, men and moral influence. Parnell recommends vigorous agitation in behalf of Ireland in England Scotland. A junction of the English and Scotch democracy and Irish nationalists will prove irresistible, and help will continue to come from America. Mr. Parnell ends his address by asking tenant farmers to preserve their unity of action, insisting upon their rights, while refraining from acts of violence

and to be firm in the belief that victory will at last crown their efforts. Two dynamite canisters were disovered near Dublin barracks yesterday.
