REVIEWS.

—Peterson with coal. —Frederick, Leading Hatter. —Easter Cards at Kuhn's.

—Whipple, McMillan & Co., the jewellers, Creighton Block. —Finest assortment of tooth brushes at Saxe's.

—Novel Ten Cent cigars, five for a quarter, at Kuhn's Drug Store. —Mixed paints, Whitehouse's drug store, 16th and California streets.

—The sale of seats for Roland Reed and the Arabian Nights company opened yesterday morning. —If you want Bill-Heads, Letter-Heads Envelopes or any job work. Call at The Bee Job Rooms.

—The B. & M. bridge at Oronopolis was completed on Monday night, and the B. & M. train from Lincoln arrived on time yesterday. Trains will run to Oronopolis as before the flood.

—Physicians are already predicting that there will be many cases of malarial fever in Omaha this summer, as a result of the Missouri big rise, which has left pools of stagnant water in many parts of the city adjacent to the bottoms.

—The police judge is moving for a refund in the matter of locks. He finds not only that the court room is without a protection of this kind, but that the desk in which his most important documents are kept is in the same condition.

—Among the incidents of the flood in Council Bluffs is the fact that while the city was caring for the homeless sufferers in her court house and in Bloom & Dixon's opera house, a number of the dependents was increased by the addition of two healthy babies.

—Messrs. J. W. Murphy & Co. have opened a wholesale liquor store at the corner of Fourteenth and Douglas streets. They are agents for the Kentucky Distillery company, and, carrying the fine lines of goods they do, will undoubtedly build up a large trade.

—W. J. Hancock, superintendent of the American Express company, has purchased the house and grounds on the corner of Third Avenue and Eighth street, Council Bluffs, from S. H. Miner, for a residence. The Nonpareil says this is one of the finest locations in one of the most aristocratic portions of Council Bluffs.

—HERMAN'S MILLINERY HEADQUARTERS are complete in every department. Miss Josie Martell, Lillie Gray, Mlle Sarah, Nettie Stuart, Alice Markle, Emma Harris, Mabel Quinn, and a grand ballet at Turner Hall Saturday evening.

—APPLE PUCK at Buffet's. al3-4t. Jelly. Omelette. Puck's famous griddle of the earth in forty minutes was again distanced Wednesday, as far as the American continent is concerned. Up in the Western Union telegraph office, in this city, might have been seen a "repeater," which was one of six across the United States, and connected with a single wire from New York to San Francisco, over which a duplex circuit was working without a break.

—Go and see Treitschke's fine sample room. 12-3t. Dr. Charles Yeatley, one of the most successful healing mediums of the age, has located in our midst, and is prepared to treat all kinds of chronic diseases without medicines. He particularly desires cases despaired of by regular medicine, and guarantees a cure if pronounced curable by him.

—An entertainment entirely different from anything yet offered the citizens of Omaha is promised at Turner Hall Saturday night. From the names of the artists employed, we should judge the company as being superior in ability to the majority of traveling combinations. Front seats will no doubt be at a premium. Go early and reserve them.

AFTER THE BATTLE.

The U. P. Shops Running as Usual and the Smelting Works Cleaning Up.

A visit to the Union Pacific shops yesterday found them in full blast, working the usual complement of hands. The damage done by the recent inundation was comparatively slight. Less than a thousand feet of lumber was lost and the only serious trouble was caused by the delay and hindrance to work. All the tracks, however, are in a dilapidated condition. The earth is nearly all washed from under the ties, and many of these are loosened from the rails. Two of the sidings and a portion of the main track are out of place. Considerable time and dirt will be required to again ballast all of the tracks so that they can be used.

THE SMELTING WORKS are in a sad state of dilapidation. The carpenter shop, which was picked up bodily by the water, was smashed down on a small zinc shed, and completely demolished. The foundry is "paralyzed," so to speak, and will probably have to be entirely rebuilt. The water, after taking away the back fence, gutted the "roaster," a building in which the ore is melted—and cleaned out the entire structure. Wednesday about one-third of the usual day shift were employed in cleaning up and starting the fires in the ash pits. Work will probably be resumed in a few days.

AT THE DISTILLERY, where the water did but little irreparable damage, work is going on as usual. About five hundred cattle were Wednesday afternoon driven from the stock yards into the lower barn and tied up.

CRUICKSHANK'S OPENING, again to-night. 14-12t. The Mendelssohn Club. The oldest traveling musical organization in the country—the Mendelssohn Quartette club, of Boston—which for thirty years has delighted the lovers of music everywhere, appeared Wednesday at the Academy of Music to a house which could hardly be called a very small one, but was certainly not what the old organization deserved. Many of our leading citizens were present, however, and had the streets been in better condition there would probably have been a full house. The instrumental program included several selections in which the entire quartette appeared, and solo performances as follows: "Concerto for the Flute on 'La Sonnambula,'" by Wm. Schade; "Fantasia on Hungarian Airs," by violin, by Ernest, by Isidor Schutler; solo for Violoncello, "Le Desir," by Frederick Giese; and the "Romance for Clarinetone," composed and played by Thomas Ryan.

The programme was not of a character to appeal to the popular ear, but the marvelous execution of the music as a whole could not fail to charm the most uneducated ear. Such harmony is not often the lot of an Omaha audience to listen to, and it seemed to many as if the old organization had never played so well before, and nearly all the pieces were encored, with but few responses.

Superb as was the instrumental music, however, the impression of the evening was certainly made by the young vocalist, Miss Marie Nellini, who is the most accomplished vocalist who has ever appeared with the Mendelssohns, and is a singer of rare power. Her soprano is pure and clear, showing thorough training, and under the most perfect control. Added to this was the passion and force, the exquisite feeling—the instinct—of the true artist. It is to be questioned if any singer has appeared in Omaha during recent years who made a more profound impression than did this singer, and many who heard her Wednesday will confidently await the day when she shall take acknowledged rank with our greatest vocalists. Her first selection was "Bel Raggio," by Rossini, and to the enthusiastic and long continued encore she responded with "Robin Adair," sung with variations. Her second selection was Gutzwiller's "Oh, Loving Heart, Treat Me," and to the encore she gave "Darby and Joan."

STEAMING AGAINST FLOOD

Difficult Passage of the Steamer Peck Up the River.

The steamer C. K. Peck, a stern propeller, tied up in the Missouri, near the foot of Barnhart street, yesterday. The boat is on the way from Nebraska City to Yankton, having left the former place on the 6th inst. She has been in the ice gorges and braving the current of the Big Muddy ever since and, together with her crew, showed the hard usage of her trip. It was necessary to lower her smoke stacks at Plattsmouth and at this city, for the purpose of getting under the bridges. When the big gorge, which created such devastation at this point, went down the river, the boat was fortunately tied up at Canasua, and escaped the brunt of the attack. The boat had, to this point, neither freight nor passengers, the purpose of the trip being to take on supplies and men at Sioux City for the relief of the boats in trouble at Yankton. At Omaha the upper portion of the steamer was strengthened by timbers. The Boats' Chief, who has been in this city for several days, took passage from here for Rosebud agency, where they will join their people. The boat is officered by Joseph Fecto, captain; S. M. Lormie, clerk; Daniel Comford, pilot, and J. R. McLean, engineer. Last year the boat made the upward trip from St. Louis, pulling through low water, and this season she meets the unprecedented spring floods. The Steamer Benton is but a few miles down the river, and may be expected here in a day or two. She is bound for Fort Benton.

PERSONAL FARMERSHIP Maj. Chambers returned from the east yesterday. P. C. Himebaugh, Esq., left for Chicago yesterday. Gen. Thayer and his son Dana are in the city for a few days. Mr. M. C. Keith and Alex. Swan, the stock men, left for the east yesterday. Mr. M. A. Kurtz, the merchant, is confined to his residence with a dangerous illness.

Governor Nance made a friendly call at this office yesterday. The governor looks well, and the cares of office don't appear to wear him down much. Mr. R. C. Jordan, of Grand Island, father of Mrs. N. C. Shelton, and formerly a resident of this city, was in town yesterday. The friends of Mr. Nats Doolittle, formerly of the U. P. general offices, and more lately of the Council Bluffs freight office of that company, will be sorry to learn that he is lying very low at his home on Davenport street.

Mr. E. B. Yeshager, agent for John A. Stevens, is in town making arrangements for the appearance of that gentleman and his company here on next Tuesday and Wednesday evenings, in "Passion's Slave" and "Unknown."

RINGER'S OPENING TO-NIGHT. Sequels to the Fire Department Elections. Two members of the fire department were engaged in a little difficulty yesterday, growing out of a dispute concerning Wednesday's election. The facts as near as they can be learned are that one called the other a thief and in turn was called a liar, or words to that effect, which he resented with a blow, for which he afterwards paid a fine of \$3.08 in police court. A warrant is out for the arrest of the other fireman. The immediate cause of the difficulty seems to have been too much indulgence in the social customs which follow these events among the firemen. Probably the trouble will in due time be amicably arranged.

It having been rumored that Mayor Boyd had made the statement that if Mr. Galligan were elected chief by the department he would not appoint him, several of the firemen called upon him yesterday to learn if such were the fact. Mr. Boyd stated that he had so declared, on what he deemed sufficient reason, but as many citizens were anxious that Mr. Galligan should be chief, and as he was a very competent fireman, he would not allow his own wishes to stand in the way, but would appoint him.

Unity Lyceum. The floods having at last subsided we are pleased to announce that Prof. Mills will lecture to-night in the Unitarian church. Subject, "The Mission of Industrial Art in Society, or the Meaning of the Steam Pipe."

OUT OF WATER.

The Bluffs Lift Up Their Heads in Dryness.

The great inland sea which made the Bluffs across the river a sort of Iowan Venice, having subsided, the enterprising proprietors of rafts, who resped from Nebraska City to Yankton, have water bound travelers, and their Shylock brothers, who "stuck" or struck in mid-stream for a raise in pay, and floored the unfortunate, having all lost their vocations, the town has relaxed into its usual appearance, and everything is moving along smoothly as usual. The buildings on the bottom land which were flooded are rehabilitated. One of the four schools closed by the flood was resumed yesterday, and regular sessions in all will commence on Monday next. Business in the Transfer hotel is again lively and the day showed a large number of registers. All of the rail roads have been working constantly since the water subsided to ballast their tracks, which are now in pretty fair order. The incoming trains last night were nearly on time.

SPORTING SPARKS. The Turf and Diamond to be Well Taken Care of.

Owners of speedy horses and lovers of the national game will doubtless have many opportunities for gratification of their tastes during the coming season. There is already considerable talk among horse men in regard to making improvements in the Omaha driving park, and some local flyers, that have heretofore been kept in the background, are to be brought out and made to show their paces. Subjoined are a few turf notes which will be of interest to all lovers of the good turf and admirers of sports on the turf:

Mattie Hunter, the chestnut mare that paced the fastest heat ever paced on a half mile track, will be at the Omaha driving park, with this season being driven by John Splan. The adjourned meeting of the Board of Review of the National Trotting association, will be held at the Grand Pacific hotel in Chicago on Tuesday, May 31.

John W. Jacobs, of Lincoln, has won the Valley Race Circuit, having been prepared by representatives from Council Bluffs, St. Joseph, Lawrence, Kas., Sedalia, Mo., Kansas City and St. Louis. Jacobs, aggregating \$70,000 will be hung up. Why is it that Omaha has not joined this circuit? Brown Wilkes, who has been wintered in this city in the hands of W. W. Dick, was reported to have won the four-year old stakes to be trotted at Chicago, July 22d.

Mustapha, a three-year old, blood bay, with white feet, bred by Rattler, he by Almont; bred at Fairlawn's stock farm, in Kentucky, by Wm. F. Withers, arrived in this city yesterday, with white feet. Mrs. Davis is a sister of the Davis brothers, who are now serving out a term in the penitentiary.

The Union Elevator Company. The "Union Elevator Company" met Wednesday and completed the subscriptions to the \$100,000 stock. The Union Pacific railway takes \$100,000; Hilliard & Merriam \$35,000; Ezra Millard subscribers \$50,000. At the election of directors of the new company there was chosen a board consisting of Sidney Dillon, T. L. Kimball, E. P. Vining, P. C. Himebaugh and Nathan Merriam. This directory is to be increased by the addition of Ezra Millard and Lovitt Barnham.

The officers chosen are: President, Sidney Dillon; vice president, T. L. Kimball; secretary, Lovitt Barnham; treasurer, Nathan Merriam. A building committee was elected by the board to consist of P. C. Himebaugh, E. P. Vining and Lovitt Barnham.

Roland Reed, the famous comedian, will appear at the Academy of Music on Friday and Saturday evenings, and in Saturday matinee, presenting the comedies, "Snowball" and "My Mother-in-Law." His Reed is supported by Miss Hastings, the young comedienne, who will be remembered as having been with the company here before, and the other members of the Arabian Night company. The Chicago Tribune says: Mr. Roland Reed possesses, in an eminent degree, that quality which is the most essential to a great actor; that of so losing himself in the character which he may be for the moment assuming, that the actor is forgotten and the character is a reality. We do not hesitate to say, for naturalness of acting and expression, and for a self-control which prevents his ever exaggerating a comic character into a caricature, Roland Reed could scarcely be replaced by any other artist in the country.

BEE KEEPING.

Effect of the Disastrous Winter West of the Mississippi.

In conversation yesterday with T. L. Van Dorn, of this city, president of the State Bee Keeper's association, a Bee reporter learned that the past winter has been of great disaster to all bee keepers. Mr. Van Dorn expresses it as his opinion that 50 per cent of the bees west of the Mississippi were frozen during this winter. He has taken steps to collect as much information as possible on the subject for the benefit of the state association, and has prepared the following letter, which will be sent to each member of the association: OFFICE OF THE STATE BEE KEEPERS' ASSOCIATION, LINCOLN, Neb., April 14, 1881.

The bee-keepers of Nebraska are respectfully requested to forward (whether members of the State Association or not) to this office, on or about May 1st, a carefully prepared report, in accordance with the subjoined questions: 1st. Number of present colonies and how many are weak. 2d. Number of colonies Nov. 1st, 1880. 3d. Number of colonies bought or sold since then. 4th. What style of hive do you use, describing minutely? 5th. What did you put away for wintering, or did you winter on summer stands? 6th. What packing or special preparation did you give your bees for wintering? Please be full and minute in your answer, stating exactly what you did. 7th. How much honey did you have for winter stores? 8th. Have you been dired of starvation or from what cause? 9th. If out of doors, were there shades, wind breaks, or other shelter provided? 10th. If in cellar, what kind of cellar, where situated, whether dry or damp, and your management in cellar wintering? 11th. What kind of bees, Italians, blacks or hybrids? 12th. If Italians, of whom purchased? 13th. If full report will greatly oblige and benefit all.

T. L. VAN DORN, President. GEO. M. HAWLEY, Secretary.

CRUICKSHANK'S OPENING. CRUICKSHANK'S OPENING. CRUICKSHANK'S OPENING. Finest and Richest Stock ever shown. an Empty Stocking.

Mary Stundon and her daughter Katie, who reside on the river bottom, were arrested yesterday on complaint of Emma Davis, for petit larceny. Complaint alleged that these parties occupied her house; that she had the sum of \$5.00 secreted in a stocking and that on the morning of the 12th, while she was absent from the house, nobody being there during that time but defendants, the money was taken. The parties were released on their own recognizance, to appear for examination this morning at 9 o'clock.

Immediately following the arrest Mrs. Stundon, who owns the house where the offence occurred, turned her husband, into the street for alleged non-payment of rent. Mrs. Davis is a sister of the Davis brothers, who are now serving out a term in the penitentiary.

The national game is not to be at all neglected. The following preparations that are reported as being made by the employees of the Union Pacific and Burlington & Missouri Pacific, will give an idea of the scale of the game. A meeting of the Union Pacific nine was held last evening, but several members being interested in the Fire Department contest the meeting was adjourned until Friday evening. It is reported that the B. & M. nine is to be strengthened by several new players, and some sharp contests between these clubs may be looked for.
