### Muzzle and Tag.

Now that the hot weather is coming on some steps should be taken by the authorities to protect citizens from the ravages of rabid dogs. It has been the custom to order all dogs either chained up or muzzled during the summer months. Several people have already been bitten by ferocious canines, and a dog bite, however slight a wound may be caused by it, is very dangerous at this season of the year. There is a city ordinance which orders all dogs to be "tagged," and those not having the prescribed tag attached to the collar to be shot. The ordinance states that the owner of every dog shall pay a license or tax for keeping the same of one dollar per year, and the enforcement of this ordinance by the authorities would be a measure of protection for the public, do away with a large number of ownerless and vicious curs, and besides increase the revenue of the city.

### Disastrous Runaway.

A very exiting runaway occurred in the northern part of the city yesterday. The team driven by a plasterer became frightened and started at a terrible rate of speed down Grace street, in Smith's addition. The driver, a man named Neilson, was thrown violently to the ground, alighting on all fours, but the momentum being very great he was forced forward, striking the ground with his face, and tearing his under lip almost off, besides skinning his nose and otherwise disfiguring him. He was carried to a new building in the vicinity, and a surgeon sent for to sew up his wounds. The only wonder is that the man did not break his neck, so severe was the plunge.

The Monitor of Fashion, published by the largest millinery house in the world, under date of May 12th says: "Our next supplement will illustrate ten new summer shapes, one of which —the Mumm— will be trimmed. The Mumm is a jaunty, stylish misses' hat, very new." For sale at Hickman's headquarters for millinery.

See the great bargains in bankrupt stock of Straw Hats at Frederick's. HATS AT ABOUT HALF THEIR VALUE. Great sacrifice for thirty days. Look at them.

A Cruickshank & Co., are showing by far the largest stock of Gent's furnishing Goods in the city, and at very moderate prices. The half hose at 25 cents, are beautiful goods and have not been sold before for 40 cents. They are also showing a splendid lot of neckties at 50 cents, former price $1.00 to $1.25. This is certainly the cheapest and handsomest lot ever shown here. They are also selling an immense quantity of their $1.25 custom shirt at 75 cents. This is a great bargain, and cannot be repeated when this lot is out, the price will be again $1.25 as they cannot be made for less. The manufacturer had got loaded with stock and was glad to clean this lot for cash, but will take no further order at that price, A. Cruickshank & Co., guarantee these goods to be the very best quality that can be made.

### Bulletins From the Bluffs.

The city presents quite a lively appearance, and considerable preparations are being made for the tournament, which will commence on Monday next. The grounds, grand stand and seats are completed, and everything is in good shape for a successful meeting of the firemen.

A large arch has been constructed at the junction of Broadway and Main street, and presents an imposing appearance.

The citizens of Council Bluffs, together with the various railroads centering there, have had a survey made for a levee upon the river bottoms to guard against the encroachment of the water in the future. The levee will be built of dirt, with a uniform width of thirty feet and a height of eight feet, and will extend along the river bottoms from the round house of the C. & N. W. railway to the approaches of the U. P. bridge. The people are in earnest in the matter, and say that if the railroads fail they will build it alone, and will commence it immediately.

### The Dry Goods Trade.

NEW YORK, June 3.—The market in dry goods has presented the same features as reported of late, except that there has been some abatement in the demand for staple cotton goods by the package. Buyers, many of whom have been supplied, for immediate wants and anticipated future the requirements to some extent. There was, however, a steady movement in cotton goods, ginghams, knit underwear, etc., in execution of book orders, and there was more inquiry for fancy hosiery by western buyers, who are making shipments by canal. The jobbing trade was irregular, and upon the whole rather quiet, the cool weather having checked the demand for some kinds of seasonable goods.
