STILL CONVALESCING.

The President Passes Saturday Night and Yesterday in Good Refreshing Sleep.

The Critical Period of the First Eight Days Already Passed.

Dr. Bliss Expresses Himself Confident of a Speedy Recovery.

Guiteau Sullen and Morose—He is Not Allowed to Read the Newspapers.

Several Suspicious Characters Under Police Surveillance.

A GOOD SOUND SLEEP.

WASHINGTON, D. C., July 10.—The president's desire expressed last night that his wounds might be dressed so that he might go to sleep, seems to have been well founded...

strument in the hands of Providence to effect the removal. He declares that he had neither confidants nor abettors.

WATCHING SUSPICIOUS CHARACTERS. It is stated that a strict surveillance is now being kept on some of the fellows looking about the city.

VICE-PRESIDENT ARTHUR CALLS. Vice-President Arthur came alone to the White House. He asked for Mrs. Garfield but she had not returned from a drive and he seen only Private Secretary Brown and Dr. Bliss.

THE CRITICAL PERIOD OF EIGHT DAYS PASSED. Less puss had come from the wound which was also a favorable report. Dr. Bliss says that while there may be considerable more puss matter in the wound it must not be expected that its discharge will continue uniformly.

When the noon examination took place something was said about the condition of the president's wounds...

of the time. His secretary stated this evening that the vice-president would remain in the city several days, or at least until the president was declared out of danger.

C. W. FIELD CALLED IN COMPANY WITH POSTMASTER GENERAL JAMES. He saw no one but Private Secretary Brown and Dr. Bliss, and remained only a few minutes.

THE CABINET SPENDS THE EVENING AT THE WHITE HOUSE.

GUITEAU SULLEN. Guiteau has been sullen and quiet to-day. He is anxious to have the newspapers to read but is not allowed to see them.

SUNDAY BULLETINES. WASHINGTON, July 10.—The president had a calm refreshing sleep last night of about five hours.

July 10—1 p. m.—The symptoms continue favorable. Pulse, 102; temperature, 100; respiration, 22.

July 10—4 p. m.—The following dispatch has been sent by the surgeons in charge to the two consulting surgeons to-day: "Such slight changes as have taken place in the president's condition since our telegram of yesterday are of a favorable character."

July 10—8 p. m.—An official bulletin just issued gives the condition of the president at 7 p. m. as follows: The president's symptoms continue to make favorable progress.

No. 5 went through two boards and half through the third; No. 6 went through two boards and bedded in the third. In the case where a bullet bedded it badly it splintered the rear of the board. The average penetration from the foregoing is about three inches.

THE CHICAGO SOCIALISTS. They Meet and Pass Resolutions Denying all Connection with Guiteau.

National Associated Press. CHICAGO, July 10.—The following resolutions were adopted by the main section of the socialistic labor party of Chicago to-day:

Resolved, That in our opinion, the responsibility of this (Guiteau) act rests not on the eccentricity of the individual, or upon the social or political associations with which he connected himself, but is the natural result of the destructive social and political system upon which society is based.

Resolved, That we hope that this attempted assassination will call the people's attention to the dangerous power invested in the president of this republic and that it will lead to the speedy abolition of that office and also of the United States senate, which is but little less pernicious and dangerous and equally undemocratic and absurd.

The Death Record.

NEW YORK, July 9.—The death is announced today of John Williams Sterling, a distinguished physician and surgeon, of this state, aged 86.

Got His Just Deserts.

NEWMAN, Ga., July 9.—A man named Waldrop, who, three months ago, brutally murdered and outraged a young married woman named Mrs. Mitchell, in Randolph county, was taken out of jail by a large body of armed men last night, carried to a spot on the public highway where he committed the atrocious crime, tied to a stake and burned to death.

Experiments on Cases Similar to the President's.

NEW YORK, July 9.—Dr. Weisse, of the University Medical college, after making experiments on two dead bodies, their conditions being as far as possible the same as the president's case, gives it as his opinion that the ball in the president has not penetrated the liver, but lodged in the lower part of the body.

A New Invention by Electricians.

CLEVELAND, Ohio, July 9.—Prominent electricians of this city claim to have solved the problem of storing and retaining electricity in a more practical way than that of Faure. The inventor says that the electricity is stored in metallic plates which will hold it for an indefinite period, and can be transported from place to place in any manner and kept for use at pleasure.

Forty-Third Day of Fast.

CHICAGO, July 9.—The forty-third day of Griscom's fast began at noon. He still holds out and is apparently as fresh as two weeks ago. He now weighs 149 pounds—two pounds less than yesterday. This afternoon he took twenty miles of a ride on the lake and says it benefits him immensely.

Fred. Ames, Tyler Street, Rochester, writes: "Year Spring Blossom is wonderful! I never used anything that acted so well on the bowels, and at the same time was as free from the distressing properties of medicines usually sold for the purpose."

Last Day of the Monmouth Park Races.

LONG BRANSON, July 9.—The July meeting of the Monmouth park races closed to-day with a card of excellent sport. The first race, a handicap, sweepstake for all ages, at \$65 each, with \$700 added, mile and a half, was won by Gresham, with Ferida second. Time 2:34.

The Premier's Prison.

NEW YORK, July 9.—There was scarcely a ripple of excitement visible at Fifth Avenue Hotel last night. Conkling remained in his apartments about all day. Toward evening he came down stairs and mailed a number of letters. Conkling stated to a friend that he would not withdraw from the senatorial contest unless Dewey did likewise.

Handed in His Resignation.

CINCINNATI, July 9.—John King, Jr., first vice president of the Baltimore & Ohio railway, today forwarded his resignation to the directors, who meet on Wednesday next, in Baltimore. Vice president Keyser's resignation will be presented at the same time. Mr. King remains as receiver of the Ohio & Mississippi railroad.

Sentenced to Be Hung.

GENESEE, Ill., July 9.—Clem Gallien was today sentenced to be hanged at Cambridge, Ill., September 15th next, for the murder of Thomas Dillay and wife on the night of December 10th last. He received his sentence apparently unconcerned. This is the first time any man was ever sentenced to be hanged in Henry county, Illinois.

The Garfield Fund.

NEW YORK, July 9.—The Garfield fund has been increased to-day by subscriptions amounting to \$38,789, the total amount this afternoon, when the books were closed for the day.

The Balloting Saturday.

ALBANY, July 9.—The joint convention resumed its session at twelve o'clock to-day. The ballot for a successor to Conkling resulted: Conkling 31, Lapham 27, Wheeler 1, Potter 50, total 149. Necessary to a choice, 75.

The Secretary of Guiteau's Parties.

WASHINGTON, July 10.—Stinson Hutchins, editor of The Post, publishes to-morrow in his paper, over his own signature, the following: "As it has been quite impossible to obtain access to the assassin Guiteau for any purpose or any pretense up to the present hour, apart from his history, and one particular letter, which was given to the publisher, only so much became known of the motives which impelled him to attempt his crime as district attorney Conkling has permitted to filter through his own official self. I have, however, with a proper sense of my responsibility, availed myself of a method of communication which was justified in ascertaining Guiteau's protests against assassination."

Will Probably Elect Them Tuesday.

ALBANY, N. Y., July 10.—The half breed leaders who remained in the city over Sunday positively assert that they will elect Lapham and Miller on Tuesday to succeed Conkling and Platt. They refuse absolutely to give any reasons for their confidence, but there is evidently some hidden meaning behind their assertions. The stalwarts claim that their vote will remain solid and that there have been no defections. It is rumored that in case the joint convention does not elect to-morrow, Conkling will return here and that if the president's condition continues to improve Vice President Arthur will also come.

Prof. Cromwell, whose magnificent art illustrations are world-famed, says that he had some time ago suffered excruciating torments from rheumatism, and had tried all sorts of medicines and so-called cures without effect.

He heard, however, of St. Jacob's Oil and resolved to give it a trial, which he did, and its effect on him was almost magical. A complete cure was effected and since that time he has never suffered from rheumatism.

Blaine Calls on Arthur.

DURING THE EVENING Vice President Arthur sent his secretary to inquire as to the president's condition. Secretary Blaine called on Arthur to-day, and found him feeling in much better spirits and very hopeful of the president's recovery. Senator Jones is still unwell and the vice-president remains with him most

Blaine Calls on Arthur.

of the time. His secretary stated this evening that the vice-president would remain in the city several days, or at least until the president was declared out of danger. The vice-president sees but few callers but expressed to all who see him the hope of Garfield's recovery and refuses to talk on any other subject.
