DR. STELLING.

He is Elected Pastor of the Lutheran Church.

Last evening the congregation of the Emanuel Lutheran church held a meeting to elect their new pastor and to decide where they would worship while their new church is being built. Dr. Leisenring presided. Some interesting addresses were delivered by Messrs. Redman, Drexler, Jardine, Walters and Anderson. Dr. Stelling was unanimously elected.

The chairman congratulated the doctor on his election in fitting language.

Dr. Stelling said in reply that he had anticipated the result of the ballot from certain observations members had made to him. He felt very grateful to them for the confidence they had evinced in him. He could not positively accept the offer, as he felt it due to his family and others to consult them before deciding, but for his own part he was willing to accept the pastorate at once. The salary was placed at \$2,500 a year. It was resolved to leave the selection of a temporary place of worship to the committee appointed for that purpose.

A Petty Theft.

Yesterday morning, between 4 and 5 o'clock, Charles Hankey broke into Fred Huth's saloon, on Thirteenth street, to the rear of Caldwell, Hamilton & Co.'s bank. Hankey managed to abstract some bottles of spirits and boxes of cigars and a check for \$1.25, the whole amounting to about \$20 worth. In the afternoon Officer McEune found Hankey in a saloon in a state of intoxication. He at once arrested him. He is to be tried this morning at 9 o'clock.

COL. BOUDINOT.

He Speaks of Affairs in the Indian Territory.

Col. E. C. Boudinot from the Indian Territory, arrived in the city yesterday on his way to Pioche, Nevada, where he goes to look after a suit which he has pending against the government for damages sustained to his trade.

In a conversation as to the affairs of the different Indian nations in the territory, the colonel gave some important facts. His home is in Vinita in the Indian Territory and he has lived there for many years. He said that the existing state of affairs with relation to the United States government were unsatisfactory to the more intelligent class of the Cherokee nation to which he belongs. The nation are now virtually wards of the United States and no laws made in the nation can have effect where a statute of the United States comes in contravention. This has an injurious effect upon the local laws made in the nation. They have a counsel judiciary and executive as in other states and territories which are made up of Indians. In relation to railroads he said that treaties and acts of congress had given rights to the M. K. & T. railroad and the A. & P. The former road had already built 300 miles of road within the limits of the territory, and the A. & P. had only forty miles within their borders, the present terminus being Vinita. The company had contracted for their road from Vinita to Albuquerque, in New Mexico, and it would be commenced the present season. The A. T. & St. F. had petitioned congress and also the chiefs of the different nations for right-of-way from Arkansas City, in New Mexico, to Fort Smith in the territory, and would probably be granted the same. The colonel stated that the population of the territory was now about 140,000, whites and Indians. He will go west to-morrow and return in about ten days.

Peculiar Bug.

A very curious bug is preserved in alcohol at Schroter & Becht's pharmacy. It was caught in front of the store. The bug has a head shaped something after the feline style, with a pair of fin-like wings springing out just back of the eyes. No one who has seen it up to the present has been able to decide its species.

Military Notes.

Lieutenant Geo. K. Hunter, 3rd cavalry, has been granted an extension of his leave of absence. Col. Albert G. Brackett 3rd cavalry, is appointed special inspector of a cargo of corn at Fort D. A. Russell. The unexecuted portion of the sentence of Private Christopher Ayres, of company E, 3rd cavalry, is remitted.

VICTIMIZED.

How a Scandinavian Lost All His Money. A Scandinavian named James Nelson arrived in the city Saturday night with the intention of obtaining work here. While lingering about the depot he got into conversation with a man who promised to employ him. They took a walk south of the depot and were soon joined by another man. He had a bill of \$10 to collect and the first individual said he didn't have the ready cash. He asked his Scandinavian friend if he could loan him the money for a short time. Nelson pulled out a roll of money, all he had in the world, and as he did so one of the fellows grabbed it, and both had disappeared before Nelson could recover from his astonishment. He has no hopes of ever seeing the men again. He loses about \$300.

THE BLUFFS.

Things of Interest Which Occurred There Yesterday.

Colored Woman's Narrow Escape From Death.

A young man who had not been used to city life and the ways of the wicked city across the Big Muddy came to Council Bluffs, declaring that since the water works had started over in Omaha, they thinned the beer so that it was no good. In order to have what he termed a heel-lifter, he took the late dummy coming east. Arriving on this side he commenced to fire up at the first saloon, so that by the time he reached a certain building on lower Broadway, he was steaming away at a fast rate. He entered the house and seeing quite a good looking "angel of the alley" said he had come all the way from Omaha to have a good time and if she would help him he would see it through. She was willing and wanted to know what he would have if they took porter and the champagne and then porter and he began to dance the "Omaha raquet" as he termed it. He danced and danced while she stepped to the piano and began to play. The Omaha got on to a chair and continued the raquet. She played and he danced. He then stepped on to the table and continued to dance and from there he jumped on to the piano and danced and she played, until between the two they smashed the instrument all to smithereens. They had a nice time but it will cost them something.

THE RACQUET. A YOUNG MAN AND A CYPRIAN HAVE A LIVELY TIME. OUTSIDE CAPITALISTS.

A FEW SENSIBLE REMARKS ABOUT THEM.

It does not take a very extended range of vision for the people to tell where a single individual or a combination of capital comes here to do something to advance the growth and prosperity of the Bluffs. Some come all excited and foaming at the mouth and say if the citizens of Council Bluffs will give them a lot of land to erect a fine manufactory upon and then do the erecting, they will run the business, provided it is exempted from its share of the municipal expenses for a term of years. Not long since a man named H. A. Turner, in a letter to Mayor Vaughan, stated that inasmuch as he could not get the people to subscribe a sufficient amount he withdrew his proposition to erect a windmill factory in this city, and we think it may be well for the city, after all, that he departed. THE BEE believes that every manufacturing enterprise that is projected here should be encouraged, and when people from abroad come here with such intentions they should be aided in every way possible. But when a man like Turner comes along and says to the people, "You must build my windmill for me and then run the business," depend upon it the city will get more wind than mill. As a contrast we will call attention to another enterprise that will soon be adding to the wealth and prosperity of the city very materially. We refer to "The Keystone manufacturing company." They have located here in earnest. They did not come with a flourish of trumpets; neither did they ask the citizens to help them. They came here and have laid their foundations broad and deep. They have come to stay. They had an eye to business. The agent, Mr. Patterson, informs us that they did not make up their minds to locate here until they had looked the country over from Chicago to San Francisco and that the location of Council Bluffs was the best for their rapidly increasing business. Mr. Patterson says that our railroad facilities are unsurpassed by any point west of Chicago and that all the great farming regions can be more easily reached from here than from any other point that has come under his observation. They have several large buildings in the west but the one that they are now erecting on South Main street will be the most extensive establishment they have ever built upon a single foundation.

THE BLUFFS IN BRIEF.

Eben Newell, of the polish company, called at THE BEE office. He says the talk that Council Bluffs dealers do not patronize home industries is all nonsense, and that the polish company since they located here has been very liberally patronized. Mrs. E. S. Platner, of Harden township, will spend the winter in the city, occupying her handsome residence on Broadway. Judge C. F. Loofbof not arriving yesterday, the circuit court will not convene until this morning. Mr. Page, of Boomer township, called at THE BEE office. He says they have a good postoffice at Harrison, the result of Col. Sapp's congressional work. Mr. Page reports the crops very much below the average. J. J. Goode has opened a barber shop on Pearl street opposite the postoffice. Thomas Green, of the pork packing house of Green & Sons, located in the south part of city, was on our streets on business yesterday. Lyman Danbaum has purchased the property on the corner of Washington avenue and Seventh street and is making extensive repairs. Prof. S. N. Fellows, of Iowa City, was in the "big" city over Sunday. E. E. Aylesworth and daughter returned from an extended trip through New York and the east. Mr. Aylesworth is looking very much improved. He says it is well enough to make a visit once in a while east but for a permanent residence give him Council Bluffs.

A WATCHMAN.

Great Need for One at a Newspaper Office Last Night.

Some employe of The Watchman newspaper left the office, in Creighton block, yesterday evening without extinguishing a lamp that stood in the room. The lamp was turned low, however, as the person expected to return. Some time afterward a little boy came rushing breathlessly to Ben Stunz, who has charge of the building, and said that a big fire was in progress in The Watchman office. Stunz at once ran to the spot and tried to force the door but failed. He then ran down stairs for assistance, and Col. Smythe and a party of gentlemen rushed up there. They succeeded in bursting open the door and found that the lamp had exploded, scattering burning fluid over some exchanges. Quite a blaze was the result but with the aid of some water rapidly secured, this was soon extinguished. The damage done was merely nominal, although the fire created great excitement throughout the building.

Short Branch.

O. Bortle, Manchester, N. Y., was troubled with asthma for eleven years. Had been obliged to sit up sometimes ten or twelve nights in succession. Found immediate relief from THOMAS' ELECTRIC OIL, and is now entirely cured. 60011

Worthy of Praise.

As a rule we do not recommend patent medicines, but when we know of one that really is a public benefactor, and does positively cure, than we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure Biliousness, Fever and Ague, Stomach, Liver and Kidney complaints, even where all other remedies fail. We know whereof we speak, and can freely recommend to all.—[Ex. Sold at 50 cents a bottle I. S. & M. McMahon.] (4)
