He Says He Feels Better Than Since the Shooting.

What Caused the Crisis He Struggled Through.

caused a very decided fluctuation in respiration remained normal. The physicians say that the whole trouble is with the gland, and a high pulse is an accompaniment. Each incision when made, although affording relief to the gland, causes amount and a superior with the satisfied with the way the stompoint of the vation will be immediately appointed by the Prussian government. This, it is said, will be followed by the appointment of a papel nuncio to Bertin the gland causes are superior with the satisfied with the way the stompoint made by the doctor is that no marked gain is apparent. to the gland, causes some irritation to the patient. The wound seems to be doing no harm, and the physicians insist that no other unfavorable symp-

toms have been seen. must be expected and need cause no alarm. The day is very hot and the cooling apparatus was set to work. The processes of digestion and assimcooling apparatus was set to work.

This morning Drs. Agnew and Barnes paid a visit to the Washington asylum for the insane. The president has had chicken broth to-day in addition

The processes of digestion and assimilation had been pretty much arrested so that although he partook of a sufficient amount of nourishment he became greatly emaciated and exhausted. The president has been laboring up to the usual nourishment.

BLAINE'S CABLEGRAM.

The following was cabled this after-LOWELL, London: The president's condition has not materially changed since my last dispatch. Another incision was made this morning in the parotid gland with very satisfactory results. Pus flows freely and the swelling grows less. The pulse at this hour, 2 p. m., is lower than during the forenoon, as it was yesterday, but on both days it has been higher than the other good symptoms would seem to warrant. It is now 110; at noon it was 116.

BLAINE, Secretary. [Signed]

OPINIONS. During a row at a negro dance on caused no anxiety. The doctors as sorption of the septic matter, bring- land. caemia in the president's case he perience as High pulse caused considerable anxiety on the streets. At the White House all seem to think the case is proceeding satisfactorily. As the afternoon bulletin was issued Dr. Ag. new remarked: "He continues to do of the president had enabled him to ter to Vazzin and his friendly perwell." Dr. Bliss said that the high overcome all these dangers and compulse caused no alarm as long as other indications were favorable. Dr to the occurrence of blood poison; Reyburn said that the gland would that in his case septicaemia had unnot pass the troublesome point for dermihed the very foundation of life, several days, and such fluctuations producing a condition much resembling typhoid fever, attended with stu-

The president has been laboring under the influence of blood peison for some time and during the past week it became evident that unless a favorable change soon occured, his vital powers would give way.

On Friday evening a change for the better was noticeable, the first indication being an abatement of the stupor and delirium. This was followed by the appearance of other favorable symptoms, which indicated that the blood poisoning was being eliminated and that the system was making an effort to rally from the terrible depression caused by septicemia. If the blood poison continues to be
