## Financial Review.

NEW YORK, Sept. 10. Events of the week in financial circles were of more than usual importance in some instances. The money market worked with four and five per cent as ruling rates for all loans. There were frequent exceptions three; foreign exchange hardened slightly and leading bankers advanced their rates one-half per cent for cash. Government bonds are strong and in good demand; they closed a fraction higher. In the stock market the great feature of the week was the Hannibal & St. Joo risthe week was the Hannibal & St. Joe ris-ing from 96½ to 225. This sharp advance created great fright among the bears and led to large purchases of almost the entiry list under where there was a sharp ad-vance in the general list. The advance-was led by the C. B. & Q., and the Den-ver & Rio Grande and Southwestern shares. Much of the activity took place towards the close, when prices were higher than those current for a long time past.

Stocks.

Stock market to-day was irregular with frequent changes from firmness to depression. In the early part of the day prices were generally higher, but toward two was at in and advance was o'clock weakness set in and advance was lost. Near the close, however, strong tone again prevailed and there was fractional recovery. Hannibal & St. Joe was the feature again to-day and in final dealings stock suddenly jumped up to 225 the highest price yet attained.

## Omaha Wholesale Market WEEKLY REVIEW.

OFFICE OF THE OMAHA BEE, } Saturday Evening, September 10. Country banks have begun to order cur rency, drawing on their balances moderately. The result has been a depletion of with a prospective scarcity here after during the crop shipping season. The fact that currency is now called for is evi 'ence that grain is beginning to move, either in shipments or by transfers of ownership. Thus far the discount demand for money is quiet, beyond the routine wants of customers, but a most active money market, from this time forward, is expected. Owing to the demand for currency, eastern exchange is in liberal supply, and weak. Counter business is well sustained at the banks, owing to the active trade enjoyed by the city merchants which in all departments shows no falling off. The report has been so often made, of the prosperity of the Omaha market, that its repetition now is not required. It is sufficient to say that, in all lines of merchandise, business in Omaha has shown a greater volume in sales than ever before in the season.

Wheat has shown an advance during the week of 1c. Corn firm, closing 2c higher, Oats firm and about 1c better than a week ago. Barley has devoloped strength during the week, closing higher. Rye nominal, te lower. Ground feed advanced materially, following corn. Cornmea higher. Bran quiet but higher, in sympathy with other markets. Nothing done in baled hay for want of receipts. The street markets have shown many

changes during the week. Butter has ruled firm for choice and ad

vanced 4@6c. .
Eggs very scarce and advanced &c dur ing the week.

Onions were lower at the close. Sweet Potatoes in good supply. Poultry showed increased receipts. Provisions were in good jobbing demand

all the week. Apples were in pretty fair supply: bu the bulk were not in very good order.

Melons abundant, from the wagons, Domestic grapes and peaches in light California fruits in fair supply, and sell-

ing at less than the previous week's prices. Oranges show good demand. Lemons rather scarce and advanced 1 00@1 50 per Commission houses are doing a fair bus-

The commercial editor of THE BEE, wishing to learn all he could about the fruit crop this year, interviewed one of the leading commission houses of the city, Fearon & Cole, and obtained the following information:

"The crop of fruit all over the country excepting California and Utah, run fifty per cent lower than for several years back. The quality, on account of the short crops, ought to average much better than on years when the crops were heavy, but owing to severe drought, almost every where, what fruit does come in is hardly up to the average of ordinary seasons. We have a good crop of homegrown Concord grapes, and the trade has been brisk. Apples from present indications will be fully fifty per cent higher than last year. Vegetables in this section, the fore part of the season promised an abundant crop, but between drought and insects, everything is now used up and all kinds of veg.

The dry goods trade has been very brisk the past week. In conversation with the commercial editor of The Bee, a representative of the wholesale house of Tootle, Maul & Co., of this city, said that trade has been much better than is usual at this time of the year. Prices are stiff, but no material advances have taken place. In fact we note this week numerous reductions, especially in brown cottons. Some bravals of blesched cottons, are lower.

A Knightly Pilgrimage in Commemoration of a Coming Event

The Triple Link Notes from Pythian Halls Jottings of Interest to Various Orders.

> THE FREE MASONS. A PROPOSED PILGRIMAGE.

There is a movement on foot among the Templars of Omaha looking towards the proper commemoration of the recovery of Brother James A. Garfield as soon as the fact of his convalescence shall be ascertained. It is known that throughout the various Masonic jurisdictions of the United States due recognition will be made of this long hoped for event, and the day. Last Thursday night proved Sir Knights of Omaha do not propose to exhibit less zeal than their brethren elsewhere. It is suggested that a pilcity to some secluded spot in the suburbs where appropriate 3rd, on which it has paid benefits to exercises will be held, stops being

made for refreshment at three stations on the route. The Knights composing the procession will be mounted, uniformed and equipped. It is proposed to invite the Commandery from Council Bluffs to take part with Mt. Calvary

the occasion.

At a meeting held pursuant to a public notice for the purpose of organizing a Masonic Lodge at Loup City. a goodly number of brothers in good cers subject to the approval of the Grand Master, viz.: J. E. Blackman, W. M.; W. A. Wilson, S. W.; M. A. Hartley, J. W.: Charles, Physical Research Springheld.

conferred on a prominent citizen of

Cincinnati. The ceremonies took place in the Cathedral of the Scottish Rite, and was in many respects one of the most brilliant occasions known to Templarism since its establishment in America. The twenty-sixth annual reunion of

will be held in Chicago, beginning October 5. The meeting is expected to extend over three days, during which time the several degrees, from the fourth to the thirty-second will be conferred, and the occasion will be enlivened by the usual banquet.

THE TRIPLE LINK.

THE DATE SETTLED.

The following interesting scrap of history, although of considerable length, is reprinted here because itsettles on authoritative basis the much-vexed question of the birth of "Most Worshipful Grand Master" Thomas Wildey. It is taken from the Odd Fellows Magazine, dated June, 1826, published by Brother Mark Wardle, at Manchester, England. It reads as fellows:

THOMAS WILDEY. to whom the order stands principally

indebted for its rise, now M. W. G. M. of the United States, of whom a portrait is given in the present number, was born in London in the year 1785, and in 1806 was initiated into the Independence Lodge, at the Rodney Arms, Bath, Summersetshire, England, and in which he was raised there several times to the N. G. s chair. In July, 1818, he embarked for America, and on the 2d of Sep-tember landed in Baltimore, where he immediately com-menced the business of coach-spring making which he had, previously to visiting Bath, learned with his father. On landing he was desirous of visiting a lodge, and was much astonished on being informed that there was none in the city, which, after having fallen in with Brother John Welsh, led to public notice, calling those of the order together who might chance be in Baltimore.

The lodges at Jacksonville, Ill., have each over \$5,000 in the treasury. The jurisdiction of New York reports a net gain of 535 members during the past twelve months. During the same time Illinois gained 2,076.

The grand lodge of New Hampshire

reports that appeal cases to that body have almost entirely disappeared during the past few years. It is an example worthy of imitation. The Sovereign Grand Lodge meets at Cincinnati, Ohio, on Tuesday, 20th inst. Lively times may be expected, as

Cincinnati has made great preparation's to receive the representatives of American Odd Fellowship. KNIGHTLY OF PYTHIANS.
