SAVED FROM THE SHARKS knew it, and tried to shake it off, b Five Days and Nights of Agonyon a

Spar in Mid-Ocean. indepsed from The Savennah News. James H. Harris, the shipercelose ship. I imagined that I was close to plain placed in St. Joseph's Julivacay a few by, and cried aloud for help. Then I hays ago, has recovered from his doi: would listen to hear some one answerfium, and by request he has prepared it thought. I had some one with medior in the plant of the place of the plant o James H. Harris, the ship-wrecked ship. I imagined that I was close sariner from Philadelphia who was aced in St. Joseph's Infirmary a few by, and cried aloud for help. Then

My dog was clinging to the piece of imber with me. When the vessel went over he was in the cabin; how ie managed to get out I do not know. Sometimes the seas would strike us how They Are Made A Visit to a knockieg us away from the piece and Factory in Verment-From hearly drowning us. When it would Trees to Toys. pass away we would swim back again.
The poor dog was nearly drowned, and his master not much better. He would swim up to me and put his visit the picturesque little town of head on me and whine so piteously. Arlington, Vt., which at the time boasted a population of 2,500, three him, and to end his sufferings I killed thurches, five stores, two hotels, and him and pushed him away from me extensive car works, sash and blind, And then (God forgive me) I tried to and chair factory; also a "peg factory," which, by the courtesy of the knew I could not live much longer that way nohow, so I let go and sunk, with eyes and mouth open, I drank and received valuable information.

do not know. I was on that piece of timber about six hours. Sometime the sea would wash me off and throw it some disa long time, or just before night I discovered a larger piece of timber floating ahead of me. After trying yery hard I finally reached it and crawlyd upon it. I found it to be a piece of cabin about four feet wide and twelve feet long, with three small windows along one side about twelve by eighteen inches. I never had any hope of being saved until I got on this piece. I began to have some hope then of being saved if I did not starve to death. I wished then for my poor dog I had killed. I was laying at full length on my raft, clinging on each side with my hands, when I happened to look over the side, and, oh, heavens and earth! there I was followed by a pack of hungry sharks swimming all around me. You can just imagine how I felt and how I clung to that raft. Why it was they never interfered with me while I was because I kept in motion all the time.

THIRSTY ENOUGH TO DRINK BLOOD.

Sometimes the sea would break atubs, or boxes, leaving those which is unleading there into each cylinder. They are then passed in large wooden casks, or cylingers, which revolving rapidly polish through wire sieves or screen openings, after which they are again passed into a sifter, which separates all the single pegs and drops them into the single pegs and drops them into the single pegs and drops them into a sifter, which separates all the single pegs and drops them into the single pegs and drops them into a sifter, which separates all the single pegs and drops them into the single pegs and drops them into a sifter, which separates all the single pegs and drops them into t

THIRSTY ENOUGH TO DRINK BLOOD. Sometimes the sea would break tubs, or boxes, leaving those which Sometimes the sea would break stubs, or boxes, leaving those which over my raft and capsize it. Then Is have not been separated in the may would crawl up on top of it again as chine. They are then put in barrels quickly as possible, thinking all the gready for market. The factory rund while of the sharks around me and ming on full time turns out 150 expecting every moment to be seized bushels or fifty barrels per day, by them. It was now very near dark, The sizes go from eight up to and the wind was moderating in a sixteen to an inch. The lengths measure and the sea was going down go by eighths, two and one-half somewhat. It was still squally and to twelve. Twenty-six hands are encontinued so all night, with rain sployed, half of them being women Naked, and the rain beating down the products of this mill are mostly upon me, I felt as though some one shipped to Germany and France, and pon me, I felt as though some one shipped to Germany and France, and ere pelting me with gravel. I was center largely into the manufacture o cold, too shaking all over, and my toys and fancy goods as well as into eeth kept knocking togetherall night, the shoe manufactory. Thus the How I prayed for morning. It was "genii of mechanism" converts, as by the longest night I ever spent in my magic, the trees from the Vermon life. Finally day came and the squalls mountains into articles of use, which blew harder, but I did not think the floating off through the channels of as were so high, which was a good gn. I was now beginning to feel hirsty and hungry, and when it would rain I would hold my head up, open become important factors. ny mouth and try to eatch some rain water, but the salt spray would fly in my mouth. The sharks still kept watch about my raft. Throughout the day I kept a lookout for vessels though I knew if one should sight me it could not rescue me in that gale. The day (Thursday) passed away and darkness settled down again upon the face of the deep. The wind moderated considerably during the night and the sea grew quite smooth. It was calm nearly all day Friday. I had not seen a single sail, and was so thirsty I could have drank my own blood. The sharks were still about.

sharks were still about. Friday and Saturday passed with nothing to mark HORRIBLE THOUGHTS OF WATER. My mouth and throat were parched. I was exposed to the sun long enough on Saturday to burn my body. Sat-urday night I did not feel right in my head. I was growing delirious and

vessel about five or six miles off, the direction in which I was drifting and one off to the right. I soon sa that the one to the right was a ligh land, so close that I could see it plan

of treatment.

PEGS.

Trees to Toys.

With eyes and mouth open, I drank and received valuable information; salt water by the pint. I could stay The timber used is black and yellow under very well until I would go to birch, which is cut into pieces four draw in my breath; then the water feet in length, varying in diameter would rush up my nose, suffocating eight to fourteen inches. These logs me. Then I would have to are placed in a building in winter and come up again. I made two attempts to drown myself, and then gave it up and awaited until God saw fit to take me. I often sit and think how it was possible for met to be saved, and how I was saved I the circular saw department, and cut into slices or blanks of the thickness desired for the length of the pegs. These are sorted and the knots cut and are passed on to a long bench and are passed on to a long bench which contains six machines com posed of fluted rollers. The blanks are then run between rollers, which creases both sides. They are then tance from me; then I would swim mark out the exact sizes of of the pegs. back and get hold of it again. After Then they go to the spitting mark a long time, or just before night I chines, which are set with double discovered a larger piece of timber knives, and cut the blanks into pegs. DRY COODS STORE,

the single pegs and drops them into commerce to far away countries, anor return to sparkle the eyes of happy children in toys in which these per
