No. 74, Large house of 10 rooms, well, cistern, barn, etc., on Cass street, near 21st, \$2,000. No. 75, Large house, 10 or 12 rooms, on Webster.

A MICHIGAN MOB

Lynch Two Brothers for Murder and Then Burns Their Bodies.

Two Texas Cowboys Create a Panic in Deming, N. M., by Firing Pistols.

Scoville, Guiteau's Brother-in-law, Consents to Act as His Counsel.

Smallpox Becoming Epidemic in Pittsburg—Several Fatal Cases Reported.

Unconditional Surrender of Fifty-six Apaches in Arizona.

Miscellaneous Telegraphic News.

Owing to the rain and high wind prevailing yesterday the telegraph wires were prostrated in all directions and it was almost impossible to get any press dispatches at all. We have endeavored, however, to present as readable a page as possible and hope our readers will excuse us this time.

CRIME.

THE TERRIBLE WORK OF A MOB.

CHICAGO, September 29.—A special from Menomonee, Mich., says that two brothers, Frank and John McDonald, were lynched at that place on Tuesday night, by the friends of a man they had murdered. One of the prisoners is said to have placed the rope about his own neck, confessed to the crime and exonerated his brother, while the other showed fight. They were quickly overpowered, knocked down and maltreated in a horrible manner, one being killed while in the jail, and both declared dead before the court yard was reached. What followed was horrible. The crazy, yelling mob dragged their victims along the road about half a mile, when the bodies were pulled up over the sign at a railroad crossing. After hanging a while they were lowered and dragged a short distance to the house of prostitution where the original trouble began. Here they were hoisted over a tree limb and fastened. The house was fired and with the flames flaring their light upon the bruised and bleeding carcasses, the mob found the measure of their satisfaction full and dispersed.

FIRST DEATH SENTENCE IN THREE YEARS.

CHICAGO, September 29.—John Keenan has been sentenced to be hanged here November 18th, for murder. This is the first death sentence passed in the criminal court of this city for three years.

MURDEROUS COWBOYS.

SAN FRANCISCO, September 29.—Two Texas cowboys rode through the crowd at the depot at Deming, on the Southern Pacific railroad, firing pistols and doing a good deal of damage. A leading merchant was shot. A deputy sheriff killed the cowboys while resisting arrest.

Guiteau's Brother-in-Law to Act as His Counsel.

CHICAGO, September 29.—Mr. Geo. Scoville, brother-in-law of Charles Guiteau, arrived in the city late last night. He says he has received a telegram from District Attorney Corbett regarding the defense of Guiteau, and that he has decided to reply by telegraph to day, saying that he will act as Guiteau's counsel. Scoville would prefer to leave the matter with the United States government to appoint counsel, but as his wife is Guiteau's nearest relative, and about his only friend on earth, he will take the case more on her account than Guiteau's. Scoville says he will be in Washington in time to plead. He does not anticipate a speedy trial. He says the defense will be insanity.

A New Kansas Railroad.

TOPEKA, Kan., September 29.—The Kansas Southern & Texas railroad company has filed its charter with the secretary of state. The road is to run from McPherson, Kan., through Rice and Clark counties to the Cimarron river at the state line, with a branch from Pratt county to Medicine Lodge in Barber county. The length of the main line and branches is 225 miles; capital stock, \$2,250,000; directors, S. R. Peter, of Newton; S. B. Shoemaker, of Philadelphia; S. G. Clark, of Chicago; J. W. Giles, of Topeka; J. H. Richards, of Jola, and local directors at prominent points along the line.

FIRE.

AKRON, O., September 29.—Last night a fire broke out in the extensive planing mill of the Weary, Snyder & Wilcox manufacturing company, on Main street, greatly damaging the building, machinery and contents to the amount of \$10,000; insured. The fire originated from the engine room.

FOREIGN AFFAIRS.

DUBLIN, September 29.—Several ambulance wagons, which left Athlone barracks with police and soldiers for Shannon Bridge, county Westmeath,

to protect a process server, were obliged to return on account of the roads being broken up and obstructions placed upon them.

SONOMA VINEYARDS.

Large and Valuable Fruit Crops.

Auspicious Opening of the Wine-Making Season.

The Condition of the Phylloxera-Apachy of Many Vineyards—The Profits in Grapes.

Correspondence of The San Francisco Chronicle.

SANTA ROSA, September 22.—The wine-making season in Sonoma county has fairly set in, and at the wineries there are daily received wagonloads of the product of the vineyards. The grapes most abundant so far are the Sinfandel variety, from which the principal red wine of California is produced. It is a smaller grape than most of the European varieties, and is not so well adapted for table use, but in the more generally profitable purpose of wine-making it is perhaps the best yet produced in the state. This season's growth is prolific, although hardly up to the uncommon yield of last year, but the difference in quantity is fully made up in the matter of excellence of quality, and more than compensated for by the advanced price, grapes now readily selling at from \$2 to \$5 per ton above the rate then paid. The total product of Sonoma will not exceed that of 1880, nor will the wine yield hardly equal that of last year, altogether there is now a larger aggregate acreage than ever before. But a considerable proportion of this increase is in new vineyards, which is not expected to yield until next year, or the year following, when the aggregate will be much in excess of any so far given from this branch of lucrative tillage. The added acreage of the present year in vines in Sonoma cannot yet be even approximately stated, notwithstanding the active efforts of Mr. De Turk, the member of the state viticultural board for this district, for the reason that his inquiries, in preparation of a letter form, have not received that prompt attention he had a right to expect, and because so many adopt the unwise policy of withholding, rather than of supplying, the information sought, through mistaken ideas of its effect upon themselves, and form a very erroneous opinion of the intention and utility of the viticultural board.

A FRIGHTFUL CYCLONE

Sweeps Over the Towns of Stanton and Madison, Nebraska.

Stanton Completely Destroyed—Several Persons Fatally Injured—Two Children Killed in Madison.

Special Dispatch to The Bee.

WISNER, September 29.—This morning at 1 o'clock Stanton, Neb., was totally wrecked by a cyclone. The business portion of the town is all gone, with the exception of one or two stores. The Central House was strewn over several acres. Your correspondent was in the latter building, but was only slightly injured. Two or three persons are expected to die, but the greatest wonder is expressed by every one that no one was killed outright. Among the traveling men at the hotel was Mr. Leiter, of Max Meyer & Bro., but he was only slightly injured. One building, the agricultural implement store of Johnson & Everson, was carried entirely away so that not a board can be found Mrs. Wm. Nye is now dying. Over twenty buildings, exclusive of stores, are gone. The scene cannot be described. It was appalling beyond belief. Naked women, children and men emerged from the ruins of their homes covered with cuts and bruises while some are so badly crushed as to require aid to be carried to some place of shelter. The charity of the public is needed and contributions for the homeless sufferers would be gratefully received. The Stanton county officials will act in this behalf.

TRUE TO HER TRUST.

Too much cannot be said of the ever faithful wife and mother, constantly watching and caring for her dear ones, never neglecting a single duty in their behalf. When they are assailed by disease, and the system should have a thorough cleansing, the stomach and bowels regulated, blood purified, malarial poison exterminated, she must know that Electric Bitters are the only sure remedy. They are the best and purest medicine in the world, and its only cost city cents. Sold by Ish & McMahon. (2)

A WONDERFUL DISCOVERY.

For the speedy cure of Consumption and all diseases that lead to it, such as scrophulous cough, neglected Colds, Bronchitis, Hay Fever, Asthma, pain in the side and chest, dry hacking cough, tickling in the throat, Hoarseness, Sore Throat, and all chronic or lingering diseases of the throat and lungs, Dr. King New Discovery has no equal and has established or itself a world-wide reputation. Many leading physicians recommend and use it in their practice. The formula from which it is prepared is highly recommended by all medical journals. The clergy and the press have complimented it in the most glowing terms. Go to your druggist and get a trial bottle free of cost, or a regular bottle for \$1.00. For Sale by d'G. Ish & McMahon, Omaha.

ma to beyond Cloverdale, at the head of the valley. At this winery and the other winery at his own vineyard, six miles from town, near Bennett Valley, Mr. De Turk has made all the wine from the vineyards in this whole region. But this year, to accommodate the vineyardists in the upper portion of the valley, he has in connection with a resident of Cloverdale, put up a winery in that town, and to this will be taken the crop of the surrounding country. The Santa Rosa winery of Mr. De Turk and the smaller similar establishment on his farm will work upon the crop of this broad section, and the new winery at Cloverdale will accommodate the growers in the upper valley. The aggregate may not much exceed the total of last year for this portion of the district, but the wine will be of good and fine qualities and the money value probably larger than that of last year's crop.

THE OLD FAVORITE MISSION GRAPES.

The late favorable weather has materially benefited the entire harvest in grapes, but in no variety more than the old Mission, which is now mainly used for brandy and heavy wines. It continues the favorite table grape, but as there are other varieties which are adapted almost exclusively for table use—the Flamo Tokay, for instance—while it is better utilized in the wineries, the bulk of the crop will be put into brandy. The Wells brothers maintain the leading place among vineyardists in this portion of Sonoma county, and their extensive farm in Russian valley is one of the finest in the state. The Harney vineyard and that of Mr. Gwin, a retired mining stock operator in Alexander valley, alike promise to become conspicuous in two or three years, but for that matter, there are several others who are abandoning the less lucrative practice of wheat farming to put their lands in vines, and a larger number, possessed of smaller tracts, will pursue grape culture and fruit-growing entirely.

ABANDONING WHEAT-RAISING.

The fact that the farmers of Sonoma county generally are becoming convinced that their lands are better adapted to grapes and orchards than for wheat and other cereals, and this is the case especially in the hilly districts and rolling land region, and it is apparent, too, that the soil has become more or less weakened in the production of these exhausting crops, as the diminution of the gluten in the flour made from the wheat, as well as the reduced product per acre, very plainly demonstrate. But this falling off in the cereals will be more than made up in the value of the grape and fruit crops, in which there are neither the market fluctuations, the uncertainty nor dependency of price upon the markets of the east or of Europe. Wine is always a commodity of ready sale, and besides the ready home market for fruit, the rapidly growing demand from Arizona and other arid and favored regions of the coast, or contiguous thereto, will keep abreast of the utmost that the cultivators can supply. In this traffic Sonoma county must continue to hold a favorable place on account of the excellence and quantity of her products, and because of her good transportation facilities by rail and water. In another year or two these facilities will be further augmented, stilling the connection with the coal trunk line of railway, and probably also with speedier communication with San Francisco.

NOT DECIDED.

The Chalk Club Have a Stormy Session.

The Chalk club met last evening at the call of the president, to consider the question of turning out as a body in uniform, and officially receiving King Kalakau when he arrives here. President Hanlon occupied the chair, and remarked as he assumed that dignified position, that he was feeling as well as usual and was glad to see what thriving progress the club was making in numbers. A count of noses indicated that there were twenty-five or thirty of the war of '64 with the Pawnees and other memorable campaigns were present. Upon the bean bag being passed around, it nearly reached the end of the line before the lucky man who was to set up the beer got the black bean. Upon investigation he found only twenty cents in his pockets, and as he had an instinctive delicacy about him, he turned the club over to the club, and the club concluded to go on with business as well as the wet night without and dry one within would allow. This was done at the suggestion of Secretary, Tehon. Some of the members thought this unfair on the part of the Secretary, as he never participated, and therefore lost nothing. The little incident spread an unrestful feeling throughout the meeting and doubtless precipitated the hot discussion which followed.

RICH DISTRICTS FOR VINEYARDS.

In this more northern portion of the county the phylloxera is rarely encountered, and the vineyards have enjoyed exemption from its destructiveness. Hence it has become the favorite district of grape planting, and the best of the land is rapidly being taken up with vineyards. The grapes here are fresh and in season, which will come into market in a year or two. The topographical advantages of this region unite with the superior adaptability of the soil and the favorable climate in attracting owners to the culture of the grape. From the early vine-growers of ancient Rome, who brought wine-making to the perfection which extends from Honored to the present day, the grapes of these vineyards are not only in season, but the best of the kind, and the most abundant.
