WARRING ELEMENTS.

Wind and Water Play Some Fitting Freaks. Streets Washed Out and Cellars Flooded.

A Further Loss to the Driving Park Association. The city swam in a summer sea of glory yesterday. The torrent of rain that fell during the night swept dirt and debris with resistless force down to the business portions of the city.

Early in the morning the wind blew a hurricane and the only wonder is that more damage was not done throughout the city. The protecting hills stood Omaha to good purpose again Wednesday night.

According to the signal service report about four inches of rain fell altogether. About an inch fell in fifteen minutes last night. Rain grounds are the most badly used up institution in the city. The wind struck the buildings from the southwest and ran across them to the northeast.

Maxfield, better known as "Becher," who broke his leg by a fall at Slaven's hotel the other night, died from the combined effects of his fall and other difficulties.

Among the east-bound passengers yesterday afternoon were a number of Wallace's theatrical troupe, who have been in San Francisco.

Examining the Ruins.

A special car was attached to the Rock Island train which arrived yesterday. It contained the president of the road, Hugh Riddle, General Manager R. B. Cable, Division Superintendent Rois, General Solicitor Thomas T. Withrill, Assistant General Manager Kibb, and ex-Senator Wright, the counsel of the road. They came to Council Bluffs for the purpose of examining the ruins caused by the late explosion and determining the best steps to be taken toward rebuilding.

Other papers are requested from clergy and laity. The church people of Omaha are cordially invited and are expected to be present at these services and deliberations.
Rev. FRANK R. MILLSAUGH, Dean N. C., Rev. C. C. HARRIS, Dean S. C., Rev. JOHN WILLIAMS, Rev. J. A. GREENWOOD, Committee of Arrangements.

Among the other equine accidents which happened yesterday on account of washed-out ditches was one to the horse of Erlau, the baker, at the crossing of Tenth and Leavenworth streets. The animal went in up to its ears in the ditch, and the driver, who was driving a load of heavy machinery, was nearly suffocated.

A Good Play But Poorly Patronized. The "Child Stealer" was given on the third time last evening at the academy of music to a slightly increased attendance over that of either of the preceding nights. The Buckingham party have not met with financial success here, it is said. But they have left a pleasant impression upon those who did attend, and should they come again, may hope for better patronage.

DEADWOOD CONVICTS. A Squad of Criminals Bound for Detroit Penitentiary. On board the Union Pacific train from the west yesterday were a number of convicts from Deadwood, D. T., on their way to the Detroit penitentiary. They were in charge of Deputy Marshal Gray. All of the prisoners were sentenced to terms of five years or better. They were ironed and shackled in pairs.

Police Court Matters. Max Rege was held in the sum of \$300 by Judge Bencke to answer the charge of robbing John Wagoner. Two persons were arrested for violating School's little law, and one man was fined \$3 for disorderly conduct.

A Democratic Slate fixed up by the democrats for the county offices the following is mentioned: For county clerk, F. J. McShane; treasurer, Chris. Hartman; sheriff, Cyrus Morton; county commissioner, Van Smith; and county judge, John J. O'Connor.

Two Laughs

A duck-hunting party went out to Hardwood Lake on Wednesday. Among them were Harry Lucas and "Jim" Davis. These two hunted together during the day, and for the purpose of getting better shooting, they had proceeded about ten steps, when he was in turn started by a cry from his companion. Turning he saw Lucas' head and shoulders just above the water, and his arms wildly flopping about to catch something more tangible than water and mud.

CRUSHED BY CARS.

A Mangled Stranger Picked Up at the East Bridge Approach. Yesterday at the 6 o'clock train had passed over the east end of the U. P. bridge, on its way to the transfer, the engineer discovered the body of a man lying across the track immediately in front of the engine. The train was going at a slow rate of speed, and the lever being reversed, the train was almost instantaneously brought to a stand. An examination of the body by the train men and others failed in any identification of the man as an employe of the road or as a person living either in the Bluffs or in this city.
