

THE DAILY BEE.

Tuesday Morning, October 4. For the accommodation of our up-town patrons arrangements have been made with Edholm & Erickson, jewelers, opposite the post office, where advertisements and orders for the city delivery of The Bee will be received.

LOCAL BREVITIES.

- Patterson sells coal. -Doane, Reliable Hatter. -Frederick Leading Hatter. -Smoke Station & Storms, finest Cigar, at Kuhn's Drug Store only. -Soda Water, better than ever, at Saxe's. -The Lion continues to roar for Moore's Harnes and Saddlery. -For Fine Commercial Job Printing, all at The Bee Job rooms. -The Glee club meets this evening at Hooper's music store. -The state convention of the Christian church convenes in Lincoln this afternoon. -Who pays the highest price for Second Hand Furniture? Abrahams & Lewis 1121 Douglas street. sep19-2w

THE CATHOLIC MISSION.

A Very Successful Course of Lectures Last Week.

The Roman Catholic mission in Holy Family church virtually closed last evening with the papal benediction, the fulfillment of the jubilee, and the obtaining of a plenary indulgence by those who complied with the requirements of the mission. During the ten days of the mission, there were five services a day, at most of which instruction had been given by Rev. Dr. Damen or some of his colleagues. All the services were largely attended, and many conversions were made in the time. Rev. Fr. Shaffel, pastor of the church, is one of the most energetic, indefatigable workers, observed in a variety of situations.

Rev. Fr. Damen, now of Chicago, is a native of Belgium, and is about 70 years of age, and has been on the mission over 30 years, doing missionary work in all parts of North America. Father Damen has a rich, powerful, attuned voice, excellent enunciation and modulation, and is frequently quite dramatic in his descriptions and relation of anecdotes and incidents. The most marked lectures of his mission were, "Penance" on Tuesday evening, "The Catholic church the only church of Christ," on Friday evening, "Transubstantiation," of the Catholic doctrine of the real presence of Christ, in the sacrament of the altar, on Sunday evening, and "Purgatory," or the middle state for souls, on Monday morning; and the profession of faith, and renewal of baptismal vows, last evening. The evening lectures were so packed, that large congregations listened outside the open windows. Father Damen will lecture, this evening, in the rock church, Seventeenth and Izard streets, for the benefit of that edifice, which is considerably in debt. His subject is a living one: "The Popular Objections to the Roman Catholic Church." Objections are bandied on all hands, by Protestant and infidel; and the Rev. Father will endeavor to refute the principal ones. This is decidedly his raciest lecture, full of anecdotes, experiences and arguments. It will be highly entertaining and instructive. It will prove, we are told by those who heard it in Chicago, to be amusing, researchful and pleasing. There will not be a word said that the most fastidious non-Catholic can take umbrage at. All are cordially invited. Tickets can be had at Mrs. MacDonagh's, 1412 Douglas street, at fifty cents. The proceeds are to go to the church fund, to help pay its debt.

Caught in Shafting. Fred Shrinrock, the oldest employe at the Glencoe mills, 2212 Izard street, was caught in the shafting at that institution yesterday afternoon and whirled about considerably before he could be rescued. His right forearm was broken in two places and his skin of his right and left sides badly bruised. He is internally injured and will recover.

The Revers House Council Bluffs is the best second-class hotel in the west. aug17-1m

DISTRICT COURT. The opening of the October Term.

The October term of the district court opened yesterday with a very full calendar. Judge Savage is presiding. The only business of moment during the day was the swearing and instructing of the grand jury. This jury has several matters of importance before them besides numerous rumored Sloubum violations. They continued in session yesterday until 4 o'clock and then adjourned until this morning without making any report. The following are the grand jurors: A. R. Dufrene, W. R. Bartlett, Thomas J. Staley, Thos. McCormick, Elijah Allen, Samuel E. Rogers, P. C. S. Kragskow, Adolph Siefkin, Chas. Krugg, Geo. Thrall, David E. Hume, Carl Grandpre, Herman Geiseke, Lewis Thomas, J. S. Woods and James Stephenson. Geo. Thrall was selected as foreman. A number of interesting civil suits are to be tried. Several arguments were heard yesterday on motions, but no cases were opened.

Ministerial Association Matters. At a meeting of the Ministerial association, held at the First M. E. church October 3, the following was unanimously adopted. We, as a body, have been pained to see the Sabbath breaking and the non-enforcement of the laws of the state in this city by our city officials. We have, however, been pleased to see the perceptible change for the past five Sabbaths by the closing of many places of business on Sunday, and would ask that places of business of all kinds be closed hereafter on that day in accordance with the law of this state. We ask it for the moral effect upon the young and also upon the citizens of this city. Resolved, That we, as a body, thank the committee appointed by the temperance society for their efforts in securing the enforcement of the Sunday law, and also for their work in the temperance cause. Resolved, That we declare our protest against the liquor traffic and believe the law known as the Sloubum law should be strictly enforced by the city authorities. Resolved, That our secretary, Rev. J. W. Shank, be requested to have these resolutions published in each of the daily papers.

The Gods Help those who help themselves, and nature invariably helps those who take Warner's Safe Kidney and Liver Cure. 25-1w

Child's Death. A little daughter of Mr. and Mrs. J. J. Brown died yesterday afternoon, after a brief illness. The funeral occurs to-morrow from the parents' residence on Sherman avenue.

Hubermann for immense stock. Dozier, Weyl & Co.'s crackers always on hand at J. I. Nichols'. oct3-3t

PLANE'S "EXTRA" W. W. FLOUR, equal to Minnesota for ANY PURPOSE, and SUPERIOR for PASTRY. Wm. Fleming & Co. Ag'ts.

SERIOUS ACCIDENT.

Sunday morning while Stephen Meany, the five year old son of Michael Meany, was playing with a mule in a yard adjoining his father's residence on South Thirteenth street he met with a serious accident. It seems that as not generally expected of those of his kind he was a gentle fellow. There was not as much kick about him as usually falls to the lot of a defeated candidate in a nominating convention. So it was that little Stephen Meany played with him frequently and, in fact, oftentimes rode him around the yard. Yesterday he was acting the part of jockey, when the mule suddenly halted and the boy was violently thrown to the ground. He was picked up in time to receive medical aid summoned. Doctors Foster and Chadwick were soon in attendance, and on examination found that the boy's right collar bone and right arm were fractured. The broken bones were set, and the little sufferer made as comfortable as possible under the circumstances. At last accounts he was doing well.

Col. Chase's Trip to Howard and Sherman Counties.

One of THE BEE reporters interviewed Col. Chase yesterday in regard to the crops in Howard and Sherman counties, Nebraska, two hundred miles west from here, from which region he has just returned. The colonel says that the corn and potato crops are especially good in all that country. In Greeley and Valley counties, also, the crops are very good.

At St. Paul, Howard county, last Friday, one hundred and seventy-five wagon loads of wheat were sold in the streets at \$1.10 per bushel. On the same day eighteen wagon loads of potatoes, all brought into St. Paul, from Greeley county, were sold there to the agent of the Omaha firm at 86 cents per bushel. When it is known that two hundred bushels of potatoes can be raised on one acre, this is a good income when land sells at five dollars per acre, and the best land in the west at that.

The colonel says that St. Paul is growing finely, it being the county seat of Howard county and that it already has from 600 to 1,000 people. He also said that on Saturday he rode in a top buggy behind a pair of broncos from the lively stable of Fleming & Pans, St. Paul, to Loup City, Sherman county, thirty-five miles, and returned to St. Paul by midnight, bringing a round trip of seventy-two miles all without the least worry of the team, the driver said. The country between these two points, the colonel describes as "splendid." Settlers or timber claims are numerous, and the whole route shows rapid development and first-class farming enterprise. The roads are often lined with young trees.

Loup City, the county seat of Sherman county, is thriving, and for the reason that Sherman county is gladdened by plentiful crops. The colonel thinks Sherman county is bound to become wealthy soon.

New Hose Carriages. Chief Galligan left for St. Louis last evening. He contemplates purchasing three new hose carts, which will now become especially useful. Possibly, before another year, Omaha may have her glittering hose carriages for dress parade.

DON'T DIE IN THE HOUSE. Ask druggists for "Rough on Rats." It clears out rats, mice, bed-bugs, roaches, vermin, flies, ants, insects. The per box.

"BLACK-DRAUGHT" cures dyspepsia, indigestion and heartburn. At C. F. Goodman's.

On the Shoot. A difficulty arose yesterday among the Withnell house help which might have ended in a tragedy. A colored waiter named Samuel Matthews, annoyed one of the girls until she threw a cupful of dish-water at him. He became intensely enraged and pulled a revolver on her. One of the other waiters struck Matthews' arm down as he was cocking the pistol, when the latter dropped it and ran. He was pursued and captured near the U. P. bridge, after an exciting chase. He will be arraigned this morning.

St. Joseph's Hospital. This charitable institution continues crowded to the utmost extent. Applications for admission are necessarily refused every day. Three patients were turned away yesterday forenoon. A man died at the hospital yesterday of typhoid fever. The sisters of charity are worked day and night, and their force has been reduced by their sickness. One sister is quite dangerously ill with typhoid fever, and another one is prostrated by rheumatism. There are at present twenty-four patients, which makes 192 cared for since January 1.

TRUE TO HER TRUST. Too much cannot be said of the ever faithful wife and mother, constantly watching and caring for her dear ones, never neglecting a single duty in their behalf. When they are assailed by disease, and the system should have a thorough cleansing, the stomach and bowels regulated, blood purified, malarial poison exterminated, she must know that Electric Bitters are the only sure remedy. They are the best and purest medicine in the world, and only cost fifty cents. Sold by Ish & McMahon. (2)

Finger Smashed. C. Specht, the cornice man, had a 2,200 pound machine drop on his fingers yesterday. Amputation was not necessary.

BED-BUGS, ROACHES, Rats, mice, ants, flies, vermin, mosquitoes, insects, etc., cleared out by "Rough on Rats." 10c boxes at druggists. (5)

"PINK-EYE."

It is Thought to Be Only a Malarial Complaint.

THE BEE has received several letters regarding the prevailing disease among horses which is known as "pink-eye." Several horses in this city have been affected, and a few in Council Bluffs have died. The veterinarians ascribe it to the prolonged summer and lack of frost, which conditions are affecting humans as well as horses. Dr. Bond, of the Chicago veterinary hospital, told a Times reporter that out of the many cases which he had treated only two had proved fatal. In fact, he said there was no reason why any of them should prove fatal if the horses were given the needed rest during the bad weather, and attention was paid to their feeding. He had made many cures simply by changing the fodder judiciously when the animals showed that such a change was needed. The fatal cases were those where the animals had been kept at work for several days after the symptoms became aggravated. The doctor said that he had about fifty cases on hand at present, but that they were all going well. The disease was quite prevalent, and he thought slightly on the increase, but he had only heard of a few deaths, and these where the animals had been neglected. There was no cause for alarm in regard to "pink-eye," as it is called. This disease had not made its appearance in Chicago, and if it did it was as easily cured as the present complaint. The impression has gone out that this disease was "pink-eye," but this was a mistake. It was a very simple malarial complaint, and he only found blindness to accompany it in the cases of animals lodged in dark and unventilated underground stables. The fumes of ammonia arising from the manure and urine aggravated the inflammation of the eyes which accompanied the present disease, and for a short time the horses are deprived of their sight, which, however, is restored to them with their health. Several veterinary surgeons were also seen who attached more importance to the disease than Dr. Bond, and who seemed to impress upon horse-owners the importance of bringing their animals to a doctor immediately. Each had his own nostrum, the ingredients of which he jealously guarded from newspaper curiosity. They reported a number of deaths which the reporter was unable to prove and said that they were caused by the disease known as "pink-eye." They all seemed to decry the patent medicines used by their colleagues, and there was much about the whole matter which would lead one to attach some truth to the rumor that they are in collusion with the teamsters in the recent rise in the price of transportation. That the disease exists to a considerable extent there is no doubt, but that it generally proves fatal is misleading.

Attachment Suits Commenced Against Irwin & Ellis.

Two attachment suits were commenced yesterday by O'Brien and Bartlett in behalf of W. J. Broatch and Lawrence Duggan against Irwin & Ellis, the hardware dealers, whose assignment in behalf of preferred creditors was recently published. The suits are begun to break the assignment and compel the equitable division of the property of the firm among the creditors. The complaints are based upon the allegations that the assignment and the mortgages which preceded it were fraudulent and made for the purpose of cheating lawful creditors.

In the petition accompanying Duggan's complaint it is alleged that several mortgages were executed to various parties, among whom Jennie Dickinson, a confidential clerk, and the attorneys of Irwin & Ellis figure prominently, which aggregate in amount more than \$16,000. It is alleged that this amount more than covers all of the property of the mortgagors. Five minutes after the mortgages were filed, the clerk's assignment is alleged to have been filed, made to A. E. Cogshall. It is charged that this assignee is an itinerant traveling man, wholly irresponsible and worthless; that Cogshall's name is signed by one of Irwin & Ellis' attorneys, to whom no power of attorney had ever been given; that the said assignee, Cogshall, never gave a bond and cannot give one of the proper amount; and that the assignment was never executed by Irwin & Ellis and is consequently null and void. These allegations are likewise set forth in the other petition in the complaint by Broatch. Duggan's claim is something over \$300, which he alleges to be due him for cartage and payment of freight bills. One of the parties to whom a mortgage was given said last evening that the indebtedness was a just one and that it had been secured in part by both Irwin & Ellis' personal notes. A trial of the attachment suits is liable to introduce some very interesting court, and will attract considerable interest.

Worthy of Praise. As a rule we do not recommend patent medicines, but when we know of one that really is a public benefactor, and does positively cure, than we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure Biliousness, Fever and Ague, Stomach, Liver and Kidney complaints, even where all other remedies fail. We know of thousands who can and freely recommend to all. -Ish & McMahon. (4)

Balm in Gilead. There is a balm in Gilead to heal each gaping wound; In THOMAS' ELECTRIC OIL, the remedy is found. For internal and outward use, you may freely apply it; For all pain and inflammation, you should not fail to try it. It only costs a trifle, 'tis worth its weight in gold. And by every dealer in the land this remedy is sold.

THE WEATHER. Its Peculiarities During the Past Month.

The monthly report of L. M. Dey, the signal service officer at this point, indicates that the prevailing wind for September was from the south. The greatest velocity of the wind was on the 29th, when it was forty-two miles an hour and prevailed from the south. The average daily velocity was about 10 1/2 miles. The number of clear days during the month was twelve; the number of cloudy days nine. Rain fell on fourteen days. During the storm of the 28th and 29th about 5 1/2 inches of rain fell. The highest temperature indicated was on the 4th, when the thermometer showed nearly ninety degrees. The lowest temperature was on the 16th, when the mercury dropped to thirty-six. The mean temperature was about sixty-six degrees. This is the highest average with one exception since 1873. In that year it showed 60.6 degrees; in 1874, 63; in 1875, 62.9; in 1876, 60; in 1877, 66.6; in 1878, 64.3; in 1879, 62.9; in 1880, 63.6. The average rainfall has been much larger than in any September since 1873. Last month about 8.36 inches fell, while in the same month in 1874, 7.48 inches fell. In September of last year only 2.19 inches fell and in the same month of the previous year, 1.43.

California's New Senator. A special hotel car, with the letters P. P. curiously entwined on the outside, was attached to the Union Pacific train from the west yesterday. It proved to be Pullman's private car, which contained California's junior United States senator, Mr. Miller, and his family of six persons. The car was attached, on the other side of the river, to the eastbound C., B. & Q. train, in which it was safely conveyed to Chicago.

Undoubtedly the best shirt in the United States is manufactured at the Omaha Shirt Factory. The superiority of material and workmanship, combined with their great improvements—that is, reinforced fronts, reinforced backs and reinforced sleeves—make their shirts the most durable and best fitting garment of the kind ever manufactured at the moderate price of \$1.10. Every shirt of our make is guaranteed first class, and we will refund the money if found necessary. We make a specialty of all wool Shaker and Canton flannel, also chemis underwear, made up with a view to comfort, warmth and durability. To invalids and weak-lunged persons we offer special inducements in the manner these goods are made for their protection. Ph. GOTTHEIMER, 1207 Farham Street.

Arranging for their Reception.

At the Ministerial association meeting, held this morning, the appended program was arranged in anticipation of the arrival of Whittle and McGranahan, the revivalists: Saturday evening, union meeting at the Y. M. C. A., conducted by Rev. J. W. Shank; Sunday, 9 a. m., union meeting at Y. M. C. A.; Sunday, 4 p. m., instead of Gospel meeting at Y. M. C. A.; union meeting at Congregational church; Monday, 7:45, union meeting at First M. E. church, conducted by Rev. J. W. Shank; Tuesday, 7:45, union meeting, probably at First M. E. church; Wednesday evening, regular services; Thursday, 7:45, union meeting at Eighteenth street M. E. church, conducted by Rev. J. W. Shank. The devotional committee will doubtless arrange for daily morning or noon meetings to continue in a few days.

QUESTIONING THE RECORDS.

Attachment suits were commenced yesterday by O'Brien and Bartlett in behalf of W. J. Broatch and Lawrence Duggan against Irwin & Ellis, the hardware dealers, whose assignment in behalf of preferred creditors was recently published. The suits are begun to break the assignment and compel the equitable division of the property of the firm among the creditors. The complaints are based upon the allegations that the assignment and the mortgages which preceded it were fraudulent and made for the purpose of cheating lawful creditors.
