ELECTION TUESDAY, NOVEMBER 8TH.

For Sheriff, DAVID N. MILLER.

For Treasurer, JOHN RUSH.

For Clerk, JOHN BAUMER.

For Comptroller, B. P. KNIGHT.

For Surveyor, A. M. CHADWICK.

For Superintendent of Instruction, J. J. POINTS.

For Coroner, JOHN G. JACOBS.

For the accommodation of our up-town patrons arrangements have been made with Edholm & Erickson, jewelers, opposite the post office, where advertisements and orders for the city delivery of THE BEE will be received.

LOCAL BREVITIES.

- Patterson sells coal. -Doane, Reliable Hatter. -Frederick Leading Hatter. -Owl Cigars at Kuhn's Drug Store. -Quina Bandoline Powder at Kuhn's. -The new furniture is being placed in the Cass street school this week. -Smoke Starlin & Storms, finest Cigar, at Kuhn's Drug Store only. -The Lion continues to roar for Moore's Hames and Saddlery. -For FINE Commercial Job Printing, all at THE BEE Job rooms. -Who pays the highest price for Second Hand Furniture? Finder will please leave them at the delivery window at the postoffice and receive reward. -Amelia Sexton, daughter of Henry Sexton, died last Monday at the residence of Henry Donahoe, 1119 Nineteenth street. She was 22 months and 12 days old. -Fred Schroeder and his assistant, Herman Schitterer, were arrested yesterday on a warrant sworn out by Col. Watson H. Smith for keeping open and working in a barber shop on Sundays. -Chas. S. Pease, the assistant U. S. engineer, who has charge of the Missouri river work, is looking about in this city for a suitable location for his office. He is now located in Council Bluffs, but the headquarters are to be removed to Omaha. -The jury in the case of Marsh vs. Burley, which is being tried in the district court, went out yesterday and the case of Millard vs. Burley was at once called. This case involves almost precisely the same issues. -Five or six loaded box cars on the S. C. & P. R. R. were derailed on Sunday and a brakeman severely hurt, owing to a broken rail. A temporary track was laid around the wreck and no delays of trains have occurred. -One hundred and fifty-nine beautiful residence lots, located on Hamilton street, half way between the turn table of the red street car line and the waterworks reservoir and addition, and just west of the convent of the Sisters Poor Claire in Shinn's addition. Prices range from \$75 to \$100 each, and will be sold on easy terms to those who will improve. Bemis' real estate agency, Fifteenth and Douglas streets.

PERSONAL.

- Mrs. E. E. Balch went east yesterday. F. A. Nash and wife arrived home yesterday from the west. G. H. Jewett left for Cheyenne on the west bound train yesterday. T. Fulton Grant, of Deadwood, son of the lamented Judge Grant, is in the city. Hon. M. D. Boneck, of San Francisco, came in on the overland train yesterday. Mrs. Peter Her returned home yesterday from a visit upon friends in Colorado. J. F. Coats, who gets the contract for building the new court house, leaves Detroit for this city to-day. At the Metropolitan Mrs. Wilson Reynolds, of Fremont; John Winter, of Wahoo; A. O. Blackstad, of Wahoo. Henry Burgo, of Wisner; Thomas L. Faves, of Lincoln; Dan Farmington, of Benton, Mo., are staying at the Creighton house. Gen. Robert Williams and family finally departed yesterday for their new home in Chicago. Their many friends part with them with regret. Among the guests at the Withnell are: J. W. Dewese, of Lincoln; M. Reed and wife, of Nebraska City; Miss Minnie Quick, of Helena, Montana. E. S. Lambert and wife and W. R. Fulton, of Lincoln; F. Van Winkle, of Bell Creek; E. S. Perry, of Aurora; F. A. Murphy, of Plattsmouth; J. Shero, of Rock Bluffs, are registered at the Cassfield house. Chas. Dresser, one of the Chicago and Northwestern dining car conductors, assumes the position on the western division of that road made vacant by the transfer of Mr. Davis, the former conductor, to the eastern division. Charles Davis, dining car conductor on the Chicago & Northwestern road, has been transferred to the eastern division of the road, and yesterday left with his family for Chicago, where he will make his home. Mr. Davis made a reputation as a splendid caterer, and also numerous friends by his invariable courtesy since his run on the western division which will regret his departure. He will now be found on the run from Cedar Rapids to Chicago, and it is needless to say that any of his Omaha and Council Bluffs friends will be regaled with "the fat of the land" should they be fortunate enough to sit down to the bountiful spread tables of his car. -WINE OF CARDUI makes rosy cheeks and clear complexions.

ABLY HANDLED.

A Subject Treated By Father Damen Last Night.

Some of the Popular Objections to the Catholic Church.

The church of the Holy Family was crowded Tuesday evening when Father Damen, the veteran Jesuit, was announced to lecture on the subject of "The Popular Objections to the Catholic Religion." As might be expected from Father Damen the subject was ably treated. Father Damen read from Matt. v. in reference to the church being subject to persecution, and calumny, even as her divine founder was. He then went over the bitter persecutions of the church by the pagan Romans, and the high priests of the synagogue for the first three hundred years of the current era, when the Christians had to worship in caves, catacombs and old quarry excavations. He said it is estimated that at least 20,000,000 of Christians suffered martyrdom for the faith in those 300 years, until the Lord converted Constantine the Great, and the Christian church enjoyed a breathing spell of peace and could worship God and Christ the Savior in the full light of day.

He said, for 1,800 years the church has been persecuted, and without going into intermediary history, she is bitterly persecuted to-day in Russia, Germany, France, Italy and all over Europe. Even in the United States, where religious liberty is the watchword and where man is allowed to worship as he lists, the Catholic church is calumniated, reviled and to a great extent held up to scorn.

He said, Catholics are condemned for believing and practicing what they never did, and never intended to believe or practice. The charges made against the church originated in the imaginative brain of her prejudiced enemies, and are scattered abroad as her errors.

Charge 1. "The Catholics are not allowed to read the bible." This he branded as a malicious slander, that can be refuted by reference to the approbation of Pope Pius VI, on the fly-leaf of every bible, and the fact that a full and complete bible, not an emaciated one like the revised version, can be had for \$1.25. That the Catholic church has always been the friend and custodian of the bible; and that monks and nuns for several centuries multiplied copies of the bible before the art of printing was invented and perfected; that had it not been for the Catholic church Protestants to-day would have no bible to cavil over; that were the church opposed to or afraid of the bible she could have destroyed it centuries before Luther commenced his reformation. The bible, said he, is the bulwark and foundation of the Catholic church. By it she proves all her doctrines and practices and refutes all heresies.

Charge 2. "The Roman Catholic church is opposed to education." This he replied to by referring to the colleges, universities and schools of Europe; to Oxford, the pride of England, stolen from the Catholic founders, and to the numerous colleges, universities, seminaries, academies and parochial schools scattered over the United States.

Charge 3. "The Inquisition" was not an ecclesiastical but a governmental tribunal and torture, instituted by Ferdinand and Isabella, of Spain, against the rebellious Moors and Jews who disaffected the country. Several popes remonstrated with Spain on the cruelty of the inquisition, and one Pope threatened to excommunicate her if she didn't relax the rigor of the tribunal. All the priests had to do with it was to decide questions of orthodoxy or heresy.

Charge 4. "Catholics worship graven images." This he scouted on the idea that we all prize the pictures and statues of our friends on earth, and more so should we those in heaven. He averred that Catholics worship none but God the Savior; but they honor the saints; and in an especial manner the queen of all saints, the Mother of Jesus, whom heaven honored, and to whom a divine ambassador saluted as "full of grace" and "most highly favored of God."

Charge 5. "Catholics are superstitious." The Catholic church looks on the indulgence in superstitious practices as a grievous sin. He here explained the symbolism of the lights, and the ornamentation of the Catholic church, deemed superstitious by non-Catholics.

Charge 6. "That none can be saved outside the Catholic church." He answered this at some length, quoting the words of Christ, "He that will not hear the church, let him be to thee as the heathen and the pagan," and "He that believeth not shall be condemned."

Charge 7. "There are so many bad people among Roman Catholics." He said there were too many, truly; and the church was laboring to make them good; and that the church should not be held responsible for bad members any more than Christ should be held accountable for the defection of Judas.

Charge 8. "The Catholic church is composed of Dutch, Irish, and other foreigners." He said all were foreigners or descendants of foreigners here, and the church was not established for any particular nationality, but for "all nations."

Charge 9. "The refusing to eat meat on fast days and Fridays." He said much of the trouble of the world arises from eating. But God through His church commands people to fast and abstain, and they are bound to obey or suffer the consequence of disobedience of divine law as they are amenable to human law.

At this point the clergyman was obliged to desist owing to want of time. Land League Meeting. The Land League held a regular meeting last evening in Clark's hall. The attendance was quite meagre, but some of the proceedings of the meeting were interesting. Subscriptions are still coming in encouragingly.

Good Advice.

Marshal Angell yesterday received a letter from one of Allan Pinkerton's detectives, who accompanies Barnum's circus in its tour. The following is the substance of the note: "I would respectfully suggest that you notify your banks, jewelry stores and other places where valuables are deposited, that they be especially on the lookout for sneak thieves at the time when the procession may be passing their places of business, as there is a class of professional thieves who ply their trade and take advantage of the attention of the employees being attracted to the parade, and make it an occasion to commit robberies on banks and stores at the time."

THE MEDICAL COLLEGE.

It Will be Opened Next Monday Night.

Omaha medical college, corner of South Eleventh and Mason streets, is rapidly approaching completion and will be ready for the formal opening next Monday night. Upon that occasion Gen. John C. Cowin will deliver the address to the faculty and students. The college will be thrown open for public inspection and the citizens generally are invited to be present. Probably no better location for an institution of this character could have been chosen. It is both convenient to the depot and, by the street car line, to other portions of the city.

The college will open on Tuesday morning for regular work. Over forty students from this and surrounding states are already registered, which indicates a large patronage after the first term. Dr. John Carter, of Ottumwa, Ia., a well known medical authority, will be the resident professor, and occupy the chair of chemistry. The rest of the faculty will be: R. H. Livingston, M. D., of Plattsmouth, president, and professor of principle and practice of surgery; G. B. Ayers, M. D., of Omaha, secretary, and professor of anatomy; V. H. Coffman, M. D., of Omaha, professor of principle and practice of medicine; S. D. Mercer, M. D., of Omaha, professor of operative and clinical surgery; S. P. Leisinger, M. D., of Omaha, professor of obstetrics and diseases of women; J. B. Hulse, M. D., of Omaha, professor of physiology and clinical lecturer on the eye and ear; R. C. Moore, M. D., of Omaha, professor of materia medica and therapeutics; A. S. V. Mansfield, M. D., of Ashland, professor of general pathology; D. A. Joy, E. M. D. of Ann Arbor, Mich., professor of chemistry; G. H. Peebles, M. D., of David City, professor of diseases of children and diseases of women; J. B. Hulse, M. D., of Omaha, professor of medical jurisprudence; H. P. Matthews, M. D., professor of diseases of the mind; W. S. Gibbs, M. D., of Omaha, demonstrator of anatomy.

As will be seen, the faculty is both large and able. The college is, doubtless, destined to become one of Omaha's most valued institutions, and its opening is an event of no small moment.

Standard Club Hop.

The Standard club held a very pleasant hop in their hall last evening. The arrangement of dances was both novel and enjoyable. A very fine collection accordingly divided the program. A number of ladies and gentlemen from out of town were present. Stainhauser's orchestra furnished excellent music. The unpleasant weather deterred many from attending, but there was, nevertheless, a merry party, who whiled away the hours until after one o'clock. Another reception will be given soon. Julius Meyer, C. B. Horton, M. Goldsmith, Robt. Harrison and A. Heller were the committee on arrangements.

Pushing the Work.

The work on the water company's settling reservoirs on Cumins street is now being pushed forward with as much rapidity as is possible. Considerable difficulty is met in securing a sufficient number of workmen. The company has run up a boarding shanty near the work and could give plenty of employment to fifty more men if they had them. A premium of twenty-five cents a day over the regular wages paid is securing a number of workmen now.

Citizens' Meeting.

A mass meeting of the citizens of South Omaha will be held on Friday evening in the Haskell school house. The object of the meeting is to devise means to secure from the city government proper protection from fire and necessary police surveillance. The board of education will also be urged to provide proper facilities. The citizens of South Omaha claim that they have been almost entirely overlooked in these matters, and think that some relief were granted.

Bradstreet's Report of Failures.

The failures throughout the United States and Canada reported to the "Bradstreet's" during the past week were 133, an increase of 13 over the record of the preceding week. The number of important failures was also considerably increased. The total number of failures reported last summer and fall, this had consequence of the injury by drought in the cotton belt, and also that an increasing volume of business naturally gives a greater number of failures. The total number of failures reported during the third quarter of 1881 were 1,131, with actual assets of \$4,142,398, and liabilities of \$9,120,539, showing a percentage of assets to liabilities of 61.

A Worthy Object.

The Omaha Maenchor will give a concert next Monday evening at Turner Hall, the proceeds of which will be devoted to the sufferers by the Stanton cyclone. The committee of arrangements for the concert consists of Wm. Mack, Wm. Weckbach and Wm. Aust.

RUMBLES FROM THE RAIL.

Tremendous Traffic Over All the Roads.

The usual heavy business for the railroads at this season of the year, in 1881 has become almost a burden. When trains are reported late, and travelers miss desired connections, the usual tendency is to grumble at the roads, as if they were in the fault entirely. In fact, the fault lies with the traveling public. There are too many of them. Where do all the people come from and go to? It is the involuntary inquiry in the mind of any one who, day after day, watches the crowds who swarm in and out of the oftentimes already filled cars. Whenever they come from and disappear, it is certain that they are "on the go" and the usual adequate facilities of all the railroads leading east and west are just now taxed to the utmost.

The overload train from Ogden to this city yesterday pulled in with three day coaches and five Pullman cars—crowded full. The east-bound trains that leave the Union Pacific transfer depot in the morning and afternoon, usually take out three day coaches and a Pullman. Nearly every day for the past three weeks two more coaches have been added, and it is no unusual thing for each of these trains to pull into Chicago with twelve and sixteen coaches—all filled with people.

The "cut" rates east of Chicago may have something to do with this rush of travel, it now being possible for a through passenger to ride from Chicago to Boston for five dollars, by purchasing a rebate ticket, and to return for seven dollars. Many of the overload passengers, however, are bound for, or are in from San Francisco. Probably more people have crossed the continent this year than even in any year of the gold migration era.

The passenger traffic is only half of it. Freight shipments are heavier than ever before. With the single exception of grain, the freight bills of all the roads show a remarkable increase. Especially is this the case in the line of cattle shipments. During September the three directly eastern roads to Chicago loading from Council Bluffs shipped two thousand three hundred car loads of cattle. Of these the Chicago & Northwestern and Rock Island roads carried nearly an equal number, while the C., B. & Q. line did a slightly heavier business than either. This crowds these roads to their utmost capacity. Yesterday the stock yards at Council Bluffs were full of cattle, for which only seventy cars could be mustered from all the lines. Most of the cattle are from Wyoming territory. This business will probably continue during the present month.

Among other extensions of roads leading to this city is that of the Sioux City and Pacific. By the last of this week the track to Long Pine will be completed, which will give this road an additional seventy-five miles west of O'Neill City.

Bogus Certificates.

It is no vile drugged stuff, pretending to be made of wonderful foreign roots, barks, &c., and puffed up by long bogus certificates of pretended miraculous cures, but a simple, pure, effective medicine, made of well known valuable remedies, that furnishes its own certificates by its cures. It is called Hop Bitters, the purest and best of medicines.—Republican, oct-15

Confidence Game.

Geo. Coombs and John Brown were arrested yesterday afternoon on complaint of two parties, who claimed to have been swindled out of \$10. The story was that Coombs got the "chumps" in tow, found out that they wanted work, and took them to Brown, who told them he could secure them work in Plattsmouth on the condition that the strangers pay \$5 apiece they did so, but afterward discovered that the guaranty for jobs was good for nothing and then informed the others.

TRUE TO HER TRUST.

Too much cannot be said of the ever faithful wife and mother, constantly watching and caring for her dear ones, never neglecting a single duty in their behalf. When they are assailed by disease, and the system should have a thorough cleansing, the stomach and bowels regulated, blood purified, malarial poison exterminated, she must know that Electric Bitters are the only sure remedy. They are the best and purest medicine in the world, and only cost fifty cents. Sold by Ish & McManis. (2)

Not Allen Farde's Huggins.

LAS VEGAS, N. M., September 30.—My attention has been called several times to associated press dispatches that appeared about a month ago giving the information that A. P. Huggins had been corralled at Las Cruces, Wis., by Chief of Police Hatch, for passing counterfeit money. An acquaintance of mine at this place sent to Hatch for a photograph of A. P. Huggins, and, after a careful study of his features as represented in the photograph, I think that Dr. Miller, of The Herald, might recognize the A. P. Huggins as the man "writing up" last summer and fall. This had name-sake of mine—for it is certain now that he is bad, as he pleaded guilty to the charge on the 21st instant.—I hope in the future will give his full given name, which is not as is your subscriber's.

ALLEN PARKER HUGGINS.

W. L. Williams' Death. After a long illness of consumption William L. Williams, age 33 years, died yesterday at half-past 10 o'clock. The funeral will take place from his residence, No. 204 Tenth street, between Capitol avenue and Davenport streets, to-morrow at 3 o'clock. The deceased had been an employe of the U. P. shops for nearly thirteen years. The friends of the family are invited to attend the funeral.

A Fine Plan.

McElfratrick & Son, the St. Louis architects, have prepared the drawings for a model hotel, to be erected at the corner of Tenth and Farnham streets. According to these plans, to erect and furnish the hotel would cost at least \$180,000. The arrangements and details of the hotel are certainly very fine. The plans have not been accepted, and it is doubtful whether the gentleman who is to erect it is willing to spend quite so much money upon the hotel.

RAPIDLY PUSHED.

The Opera House Interior Looming up Grandly.

Notwithstanding the damp weather which has a tendency to prevent the drying of plaster, work is being pushed rapidly forward in the opera house. Work on the gallery is now completed with the exception of placing in the seats. All the fresco work on the ceiling is complete with the exception of one small medallion. The balcony is in the same condition and requires merely to be cleared up and the chairs inserted. The large stage which has hitherto been merely an open space is now being rapidly filled with the complicated system of woodwork which is necessary for the manipulation of the scenery. Mr. Toomey of Noxon, Halley & Toomey, of St. Louis, who have the scene painting in charge, is hard at work now with a force of assistants. The heavy staging which had to be erected on account of the frescoing, and other work will be removed by Saturday. Mr. Shaw, one of the contractors says: "These boards and planks once removed a clear view to the ceiling can be obtained. The wood work is being rushed along rapidly, and one can already form a good idea of how really beautiful it will be. The opera house will be opened on the 17th inst."

The Right Sort of General.

Joseph Smith, Clinton street, Buffalo says he has used Spring Blossom in his family as a general medicine for cases of indigestion, biliousness, bowel and kidney complaints and disorders arising from impurities of the blood. He speaks highly of its efficacy. Price 50 cents, trial bottles 10 cents. cod1w

Struck With a Chair.

Last night George McDonald and a friend were standing in a saloon at Thirteenth and Harney streets. They had a couple of drinks on the bar before them and were discussing the political prospects. While so engaged Ed. Culver without any provocation grabbed a chair and dealt McDonald a severe blow on the head. Culver was arrested to-day and the case postponed until the 15th inst.

A Juror Arrested.

A man named Schill, who is serving on a jury in the district court, was arrested at noon yesterday as he stepped outside the court room. He at first resisted the officer, thinking that the fact that he was a juror granted him immunity from arrest, but he finally consented to go with the policeman. He was taken before a justice of the peace on a warrant in a civil case, and on being identified as a juror by Deputy Clerk Hathaway, was released.
