

COUNCIL BLUFFS.

Incidents From Iowa's Western City.

Many Improvements in Private Residences Now Being Made.

Brief Items Containing All the News.

THE HERDIE.

The reporter of THE BEE was informed by Mayor Vaughan that a bill of lading has been received by him from the manufacturer at Philadelphia of another Herdie. Also a dispatch that the money had been received in payment for two more just completed and which will be forwarded to Council Bluffs to-day.

ATTEMPT TO KILL.

Perry Reed came very near losing some of his boarders yesterday. It seems that the chief of police was informed that a man was wandering around down near the U. P. transfer apparently insane. Mr. Field immediately dispatched Officer Bachy to look into the case. He found the man, Peter Kuhn, who was no doubt a fit subject for the insane asylum. He arrested him and took him to the county jail. About the same time Constable Rosecrantz appeared on the scene with a big dog he had arrested on account of his boardmen giving him up. While the officers were putting these men in the prisoners making a break for the door. After a fierce struggle they were overpowered by Rosecrantz, Constable Rosecrantz and others and the door was securely fastened again.

BEAUTIFUL RESIDENCE.

There are so many improvements going on in Council Bluffs that it is almost impossible to keep the run of them. If one wants to see what one of our leading architects, F. B. Hart, is doing in that line, walk up Willow avenue, and then call to mind the condition of the old Swickart property that disgraced that locality for so many years, all that used to be dirt and ashes. To-day it is one of the most attractive resident places in the city. The captain had stowed the scene that the alley and the two lots east of him had presented about as long as he could and he determined to own the entire block, including the Swickart mansion and the one just east of him on the corner. He purchased the lots and the two old houses. He then had the city abandon the alley between his homestead and the lots purchased and then went to work in improving the property. He tore down the old Swickart rookery and erected in its stead a splendid neat little cottage house with basement and modern conveniences throughout. In fact he went so far as to make it tempt him to occupy it himself. The old house on the corner will be renovated from cellar to roof and made a first class residence. The whole lot has been graded from the old alley (which he turned into a street), and sown to blue grass. Both houses have beautiful trees surrounding them, and when he gets the lawn just to suit him no prettier or more attractive place can be found in the city.

STILL IMPROVING.

A. H. Harris, who is preparing to erect three one-story buildings on the lot south of Mueller's music hall, stated yesterday to THE BEE reporter that the buildings would not remain there a great while; that notwithstanding he should put the three under one roof and surround the whole with a nine-inch brick wall, he should build them so that the walls can be removed, the wooden frame-work severed and each building be moved by itself; that in a very few years at most he shall erect a fine brick building, but don't want to do so until he can be warranted in making it four or five stories high.

ELECTION DAY.

To-day the people of Pottawattamie county will be called upon to cast their ballots for choice of officers. There is about 900 majority for the democratic party to overcome in order to succeed. The canvass on either side has thus far been carried on without any dirt being thrown by the several contestants which we are glad to note. The great cause in America on politics for the last twenty years has been unwarranted attacks upon the personal character of men nominated for office. This is a good year to put good men in office, and if this is done the people will have done their whole duty.

AN ARTIST AT WORK.

THE BEE reporter accepted an invitation early yesterday morning to take a drive, and first took in "Grand" view park. On one of the high places of that beautiful resort we had the pleasure of meeting Miss Marion Hall and little Miss Alice Tracy. The former is an artist, and was engaged at that time sketching "Big Lake and its surrounding scenery. She says she has visited all the celebrated watering places, including Newport, Long Branch and Coney Island, but from the seat which she occupied, commanding a full view of the Missouri, the Bluffs, and Omaha, the scenery that she could rest upon is unsurpassed. Miss Hall came to Council Bluffs direct from Boston, where she has been studying. Prior thereto she had taken a course in Philadelphia, also one in a studio in New York. Miss Hall and her little companion are visiting the family of J. W. Bushnell.

THE RIGHT OF WAY.

There was quite a breeze on board the old craft last Friday night when our city attorney reported that he and Mr. Judson could not proceed to procure the right of way until the Union Pacific folks furnished specification. That all they had to guide them was the profile. Mr. Judson did not know where the center line was. One line might be intended for the center line and it might not. Mr. Dawson moved that the city attorney and engineer

adopt the red line as the center line regardless of specifications and proceed to acquire the right of way. Mr. Holmes explained how absurd such a proposition would be and it was finally voted that the Chicago committee procure the specifications sent over here from the U. P. office to the board of trade before they went to Chicago if possible, and that no action be taken towards procuring the right of way until the specifications were procured. In regard to the specification for the levee Mayor Vaughan telegraphed to the chief engineer of the U. P. road and received the following in reply: "We were requested to have a survey made and plot and profile furnished the board of trade of Council Bluffs, which was done. As we were not required at the time to make plans and specifications there were none prepared. J. BLOCKENBERGER, chief engineer U. P. railroad." So it would seem that Messrs. Holmes and Judson were correct when they stated there had been none furnished.

COUNT MR. HOLMES OUT.

Mr. Holmes says that the resolution to not canvass the vote was presented without consulting him. He has never given an official opinion on the question at all. He believes that the election was strictly in accordance with the law. All he has said in regard to it was that Mayor Vaughan, instead of taking his advice, consulted outside attorneys and was in error in ordering the polls kept open until 6 o'clock. It had a tendency to delay a large number of voters going to the polls. Some who were in favor of the proposition were deprived of voting as well as a large number who were opposed to it. He thought under the circumstances that it would only be justice to let all the voters have a chance in the premises. He wants to be considered entirely out of the fight between the people and city council.

THE BLUFFS IN BRIEF.

Mart Harden has a large crew of men putting Madison street in shape before cold weather sets in.

A. T. Ewell, has made the Old Test place keep pace with the general improvement going on in Iowa's Metropolis and has remodelled the house, extended his grounds and put a new fence around the whole.

Miss Kate James, Iowa's celebrated vocalist, attended the sacred concert Sunday evening and when Remynd drew the bow across his violin behind the scene Miss James remarked that "it was a familiar sound upon her ears."

Wyoff and Boselmen were both put under bonds to keep the peace. These were the parties engaged in the recent shooting affair at the paper mill.

A team ran away down Broadway. At Main street it made a turn, running into Roger's stable. No damage was done to the horse, but the buggy was considerably smashed up. The team belonged to a colored man and he was so frightened that he couldn't tell what his name was, consequently we could not ascertain this important part of the affair.

Mrs. L. O. Smith, London, Ohio, daughter of P. T. Mayne, is visiting her parents in this city.

The receipts at the union stock yards yesterday were as follows: Six cars from E. Nagle, Laramie; four from E. Swan & Frank; one from E. Prange, thirteen cars from National Cattle company. Twenty cars went east over the Rock Island and fourteen cars over the C. & O. P.

The business of James and O. P. Wickham has increased so rapidly that they are obliged to have more yard room, so they have purchased the Roger's brick yard on the road leading to Mynater's springs, and already have a kiln nearly completed ready for the fire.

L. H. Moosler has purchased the property on the corner of Story and Bank streets and has raised the house up, repaired it thoroughly inside and out, making an other improvement in the looks of our city.

The entire city government with the exception of the mayor, city attorney and engineer have recently purchased new suits of clothes.

W. Raymond, of the firm of Raymond & Campbell is preparing to change the appearance of his home on Willow avenue, opposite the Clinton property, very materially. He has purchased from Judge Clinton the lot east of him and proposes to remove the high bank in the rear and move his house out to the lot, then take the bank away where his house now stands, put the whole course into blue grass. Mr. R. says when his wife's ideas of a home are fully carried out, as they will be, next season, the people will hardly recognize the old place.

W. T. Patton, Nick Schultz, Geo. A. Holmes, Justice J. J. Frayne preached the democratic gospel to this sinners out at Neola last night.

Dr. W. L. Patton's horses are down with the pink-eye.

Mrs. Dr. W. L. Patton is improving very rapidly under Doctor Montgomery's treatment.

Miss Ella Smith, daughter of Mr. Smith, of the Union market, is improving rapidly and will soon be out again.

Hon. B. F. Clayton was in the Bluffs yesterday to secure good harvesters for his Macedonia farm.

A Bad Year for Circusmen. New York has had a bad year for the employes of circuses. Rarely has there been a time when more of them have come to grief. In May, Elizabeth Davene, a trapeze performer, died in this city from the effects of a fall received in one of her performances. There have been several railroad accidents to circus trains in which performers were killed and maimed. In Kentucky, last week, two men were killed in a collision, and Louisa Montague, better known as the "\$10,000 Beauty," was severely injured, her face being badly lacerated. On Monday, Rosina Richardson, Barnum's fat woman, died, and that same night, in Tennessee, Kin-kade, a famous tumbler, "missed his tips" in turning a somersault, broke his neck and was killed. These are but a few of the many recent mishaps. There has also been heavy loss to circus proprietors by the death of lions, tigers, elephants and other animals which have here and there fallen victims to the hardships incidental to a summer on the road.

The Hudson's Bay Route.

The Canadians are preparing a very project for turning our Northern Pacific road, Jay Cooke's "banana line," to their own advantage. They are building their Canada Pacific, running through the Dominion from east to west, and in addition to this, they have incorporated the Nelson Valley railway and transportation company, whose purpose is to build a road from Churchill harbor, at the lower end of Hudson's bay, to Lake Winnipeg on the line of the Canada Pacific, from where still another road is to be built to tap our Northern Pacific at a point near Bismarck. The object of this scheme is apparent. The distance from Churchill harbor to Liverpool is 114 miles nearer than that from New York to Liverpool, while the distance from Winnipeg to Churchill harbor is 1,300 miles shorter than that from Winnipeg to Montreal by way of Chicago. The great grain fields of the Northwest along the line of our Northern Pacific, and above that in British America, are the objective point of this system of improvements. This vast region is being rapidly settled, and is destined to yield a large proportion of the wheat that must go from America to Europe. The trade is worth striving for, and if the Canadians, with the encouragement and help of British capital, can secure it, the advantage will be a great gain to them and a great loss to our northern lines which are looking forward to it as a heritage they are entitled to. Heretofore, Hudson's bay has been regarded as in the Arctic region, and too far north to be capable of figuring in the trade movements. But the time was when the region along our Northern Pacific was regarded in the same light, and yet this region is now becoming the great grain district of our country. It is not impossible, therefore, that the harbor at the lower point of the Hudson's bay may in the near future become an important shipping point from which the whole trade of the Winnipeg and Saskatchewan will take water for Europe.

Belknap and Kirkwood.

Chicago Tribune. Ex-Secretary Belknap is interesting himself in politics again, his efforts just now being in the direction of defeating any aspirations which Secretary Kirkwood may have in regard to the Iowa senatorship. Mr. Belknap will be remembered as the gentleman who went over a fence rather suddenly about six years ago, because it was healthier on the other side; and the plan of his campaign against Mr. Kirkwood is as follows: Last summer a Washington telegrapher, a biographer entitled "Gerrit and His Cabinet," representing the gentleman as dressed in the very latest fashions, Secretary Kirkwood being especially stylish looking. Belknap has secured a large number of these pictures. "I'm laying out Kirkwood," says he. "I'm sending a copy to every prominent granger in the state of Iowa. They all knew him when he used to sit around in his shirt-sleeves on dry goods boxes at a corner store, with cowskin boots, an old straw hat with no ribbon but a shooting, a cob pipe in his mouth, and a generally 'He-de-do,' devil-may-care air about. When they look at that picture, they'll drop all of a heap. If that's the sort of a man it makes of Sam Kirkwood to live in Washington, they'll say, 'the quicker he comes back to Iowa the better.'" It is quite possible that the Iowa grangers will not thank Belknap for his action in this matter. One of the few things for which Iowa is sorry is that she ever fathered a person named Belknap.

Deplaid.

By the unliking, Burdock has been considered a sweet and amiable youth, pleasant smile, etc., has rendered it, to those "not knowing his virtues, a nuisance, and yet the rock has long been acknowledged by savants as most invaluable as a diuretic, aperient and blood purifier. Burdock Blood Bitters embody all its good qualities. Price \$1.00, trial size 10 cents.

Imported Galloways and Herfords.

The largest number of imported cattle ever brought to Missouri at one time, arrived here at the stock yards last week. There were 40 Galloway (Black-poll), 3 bulls and 37 heifers and 98 Herfords (30 cows and heifers, and 68 young bulls, the property of the Messrs. Guggell, of Pleasant Hill, Mo. This is the second importation these gentlemen have made within the past twelve months, and it can be said without fear of contradiction, that they have the largest number of imported cattle in the west of the Mississippi river. Their love heretofore, centered in the Herfords, of which they have a wonderfully fine herd, but Mr. James Guggell, the purchaser of the last importation, while in Europe, was so struck with the merits of the Galloways, that he determined to add them to his breeding. They are hardy, docile, compact built cattle, and lay on fat quickly and well. They are short in the legs, well ribbed, and glow highly for many years they have been favorites among English butchers, not only on account of their preferableness in the killing, but their beef is said to be a very fine, juicy and well marbled. [Kansas City Price Current.

TRUE TO HER TRUST.

Too much cannot be said of the ever faithful wife and mother, constantly watching and caring for her dear ones, never neglecting a single duty in their behalf. When they are assailed by disease, and the system should have a thorough cleansing, the stomach and bowels regulated, blood purified, malarial poison exterminated, she must know that Electric Bitters are the only sure remedy. They are the best and purest medicine in the world, and only cost fifty cents. Sold by Ish & McMahon.

John G. Jacobs,

(Formerly of Ish & Jacobs.) UNDERTAKER. No. 147 Farnham St., Old Stand of Jacob Gies. Orders by Telegraph Solicited. sep-11

DOANE & CAMPBELL,

Attorneys-at-Law, 8 W. COR. 15TH & DOUGLAS STS., OMAHA.

The leading Scientists of to-day agree that most diseases are caused by disordered kidney or liver. If, therefore, the kidneys and liver are kept in perfect order, perfect health will be the result. This truth has only been known a short time and for years people suffered great agony without being able to find relief. The discovery of Warner's safe Kidney and Liver Cure marks a new era in the treatment of these troubles. Made from a simple tropical leaf of rare value, it contains just the elements necessary to nourish and invigorate both of these great organs, and safely restore and keep them in order. It is a Positive Remedy for all the diseases that cause pains in the lower part of the body—for Torpid Liver—Headache—Jaundice—Dizziness—Gravel—Fever—Acid—Liver and Urinary Organs. It is an excellent and safe remedy for females during Pregnancy, and will control Menstruation and is in all cases for Leucorrhoea or Falling of the Womb. It is a Blood Purifier if it is unequalled, for it cures the organs that make the blood. This remedy, which has done such wonders, is put up in the celebrated BOTTLE OF WARNER'S KIDNEY & LIVER CURE. It is a POSITIVE REMEDY. H. W. WARNER & CO., ROCHESTER, N. Y. je16-th-st-11

Proposals for Sewer Bonds.

Sealed proposals will be received until October 20th, 1881, at 12 noon, by the City Clerk of Omaha, county of Douglas. Said bonds are dated September 1st, 1881, are in sums of \$100,000 each, bear interest from their date at the rate of six per centum per annum, payable at the office of Kuntze Bros., New York, semi-annually, upon coupons attached to said bonds, and issued under the Charter power of said city after election duly held authorizing their issue for the completion of Sewers partly constructed, and for the construction of additional Sewers. The \$300,000.00 now offered are the first sold of said Bonds. Bids will be addressed to the undersigned, and must state the full name and address of the bidder, the amount of said Bonds desired, and the price proposed to be paid. The right is reserved to reject any and all bids. J. J. L. C. JEWETT, City Clerk. oct4-30-

GRADING SIXTH STREET.

Sealed proposals will be received by the undersigned until Friday, October 21st, 1881, 12 o'clock, noon, for the grading of Sixth Street from Farnham to Howard streets, a profile of which can be seen at the office of the engineer. Bids shall specify the price per cubic yard for such grading and also state when such work shall be completed, and accompanied by the name of proposed superintendent under the usual conditions. Bids to be opened at the meeting of the council next succeeding after October 21, 1881, at 10 o'clock, a. m. The right is reserved to reject any and all bids. Proposals containing said proposals shall be marked, "Proposals for grading Sixth Street," and delivered to the undersigned not later than the time above specified. J. J. L. C. JEWETT, City Clerk. oct4-30-
