

NEWS FROM MEXICO.

Political Rumors - The New Stamp-Tax - The New Chief Justice.

Railroads add Wages - American Correspondents in Mexico.

City of Mexico Correspondence of the St. Louis Globe-Democrat.

Inasmuch as Mexico is a land in which a man in office never resigns (though he often dies), it is hard to understand why the press of this city should have entertained the rumor that Sr. Landero, the secretary of the treasury, was going to resign.

In fact, Mexico, in point of taxation, is about in the experimental stage, which we, in the United States, have just passed through.

"THE LAW OF AUGUST FOURTH," everything that was worth a dollar had to have a stamp on it. If you bought a suit of clothes for \$50 the bill was \$50.01. The railroad fare to Vera Cruz was \$16.01, and your baggage check at a 1-cent stamp on it.

The stamp system and the tax on business transactions of 1 per cent had gone about as far as any one could wish, but in the estimate for an increased revenue there had to be some new taxation, and the government very wisely extended its petty taxes.

It would be very foolish in him to do so. One of his laws is the only point on which his administration of the treasury has not been highly satisfactory.

Among the changes which are not rumors is the announcement that, on the completion of Vallarta's term of office as Vice President and Chief Justice of the Supreme Court, the position will be filled by

at present Senator from Tabasco, there is to be an election, but a nomination by the Government is equivalent to the nomination of a Democratic State Convention in Missouri.

has closed its subscription books with \$9,000,000 of capital subscribed. I am not informed as to the amount of credit which will be floated on the basis of cash, but understand that they propose to issue two dollars in paper for every dollar of its assets.

The other bank, the Mexican National, thinks about three dollars to one dollar is a safe thing in banking, and there is a grave discussion in the papers as to what is safe banking.

The whole business of banking in the hands of Mexicans is a pure experiment, and it is impossible to tell how it is going to pan out. If there is any such thing impending as wild-cat inflation, speculation and exaggerated values the banks are going to get bitten, just as they do in other countries in wildcat times.

and to circulate it in the ordinary transactions of trade.

In Sonora a bank has been started with a capital of \$100,000, with Mr. Robert R. Symon, of the Mexican Central road, at the head of it.

In spite of the rainy season the work of

RAILROAD CONSTRUCTION

is going on with great activity. The Mexican Central is pushing on its way to Queretaro, and work on the Pacific branch is going on at several points simultaneously.

At its last report the road had in its employ 15,000 men, and in any other country such a force would construct two or three miles a day. I should judge judge thought that the men were not as efficient as the Irishmen, from the circumstance that his pay is so much less.

Seasonable Hints.

It is now established beyond all question that a tree or shrub taken out of a poor soil will bear transplanting as one that has been well fed.

By the time I had expressed my grips across the bottom and up a steep flight of thirty-six high steps and then to town, I abandoned this idea, and after refreshing the inner man with a hot meal, (crackers and pepper sauce), I resolved that some day I would go to Italy.

There is less enjoyment in summer than in spring flowers. After the total absence of floral beauty during winter, the spring blossoms are doubly welcome, and then the season of it.

Attention should be given at this season to the flower beds by noting what has done well in your locality as a summer-blooming plant, as no time should be lost in procuring a stock for next year.

NEMAHA NEWS.

A Splendid Ride by Moonlight - Fine Scenery Along the "Big Muddy."

Nemaha a Good Fruit-Growing County - A Fruit Canning Factory Needed.

Correspondence of The Bee.

NEMAHA, Neb., October 10. - A Sabbath day's journey on the Burlington & Missouri brought us at the Missouri river's side near Nebraska City, moving south.

It was late in the day when we reached this place, and the moon was round and bright. The warm and gentle winds fanned the weary traveler, and filled my very soul with hope and joy at every respiration as I gazed into the river and saw the soft rays of light from the moon reflected, paving a gilded path across her placid bosom, which seemed as though it had been put out expressly for my benefit.

How many times we meet sights that are so glorious in themselves that we do not seem to describe them and yet we do not seem to see them.

The scenery along the "Big Muddy" is beautiful, if one can look at it without associating former knowledge of her treacherousness, and particularly so along the line of the B. & M.

By the time I had expressed my grips across the bottom and up a steep flight of thirty-six high steps and then to town, I abandoned this idea, and after refreshing the inner man with a hot meal, (crackers and pepper sauce), I resolved that some day I would go to Italy.

and Denver on the railroad, and the half way house for the Missouri river barge line, she would be quite likely to hold her big sisters level. She now has all a young city requires to make her grow, and that is enterprise and a prosperous country for miles around that continues to feed her.
