

The Omaha Bee.

Published every morning, except Sunday. The only Monday morning daily. TERMS BY MAIL: One Year... \$10.00 Three Months... \$3.00

OMAHA PUBLISHING CO., Prop'rs. E. ROSEWATER, Editor. Edwin Davis, Manager of City Circulation.

John H. Pierce is in Charge of the Mail Circulation of THE DAILY BEE. A. H. Fitch, correspondent and solicitor.

Thanksgiving Proclamation by the President.

It has long been the pious custom of our people on the closing of the year, to look back upon the blessings brought to them in the changing course of seasons...

Wherefore I, Chester A. Arthur, President of the United States, do recommend that all people observe the 24th day of November...

By the President: CHESTER A. ARTHUR. JAS. G. BLAINE, Sec. of State.

THE anxious seat is deserted. MAHON is the cock of the walk in old Virginia.

POLITICS are mighty "omartin" things nowadays. FOR an off year this election was not so bad as it might have been after all.

DOUGLAS county will now have the finest and best court house in the west.

MAHON should now emigrate to Mississippi and attempt the readjustment of Gully.

ALBANY stalwarts voted blank republican tickets. This is fidelity to party with a vengeance.

THE Irish troops fought bravely and John Rush will fill the county trusteeship for the next two years.

THE Wisconsin war eagle didn't scream as loudly as usual on Tuesday, but it still retains a portion of its feathers.

EVEN Tom Murphy wasn't big enough to overcome 9,000 democratic majority in Fernando Wood's old New York district.

JIM WILSON'S organs insist that Senator Kirkwood doesn't want to go back to the senate. Just try the old war governor once by re-electing him to the place.

MR. W. A. ASTOR was defeated as a candidate for congress by the Murray Hill aristocracy of New York. The Astor house will not be removed to Washington this year.

JOHN C. NEW is mentioned as a possible minister to Russia. If Mr. New will transfer his paper to St. Petersburg and publish it in Russia it would have an equal amount of influence on Indiana voters.

JUDGE TOM BOWEN, of Colorado, has struck another bonanza for which he has been offered \$3,000,000 for a half interest. A few years ago Tom Bowen was tramping about trying to dispose of a grip-sack full of worthless Arkansas bonds.

ITS a very cold day when Jay Gould does not gobble a railroad. Yesterday there were signs of a snow storm along Manhattan Island and Gould was content with gobbling the elevated railroads of New York which are to be put through his improved process of stock watering.

THE RESULT IN DOUGLAS COUNTY.

A canvass of the returns indicates the election of the entire republican ticket of Douglas county from sheriff to county commissioner. Such a result is satisfactory as guaranteeing an able and efficient county government for the next two years...

In the death of Judge W. A. Carter which occurred on Monday at his home at Fort Bridger, Wyoming territory, loses one of its most active and useful citizens. For a quarter of a century Judge Carter has been prominently identified with the development of the trans Missouri country.

The democrats of Douglas county will probably learn after a time that it does not pay to oppose a good republican ticket with a weaker one; in other words, that it is risky to attempt a race with a mismatched team.

ARCHBISHOP McHALE.

Since the great liberator O'Connell closed his patriotic career in "Superb Genoa," on the Mediterranean in 1847, when poor Ireland was steeped in misery, no man has so endeared himself to the affections and esteem of the Irish people as the late Archbishop John McHale, whose death is flashed by cable across the Atlantic.

John McHale was born of rather poor but respectable parents, ninety years last March, which month proverbially "comes in like a lion" in Ireland, and "goes out like a lamb."

Archbishop McHale achieved renown not only in Great Britain but all over Europe by his literary labors. He did much to revive the use of the Irish language, translating in the original metres sixty of Moore's "Irish Melodies."

GENERAL SHERMAN desires an increase of the regular army. In his annual report he asks that the secretary of war recommend to congress the repeal of the clause of the existing law which limits the army to 25,000 men...

He built a cathedral at Ballina, built or rebuilt over one hundred churches and established numerous parish schools.

Every Irishman who reveres the memory of the great historical characters of the land of his birth will, we take it for granted, pay homage to the illustrious dead by some appropriate demonstration in recognition of his eminent services.

W. A. CARTER. In the death of Judge W. A. Carter which occurred on Monday at his home at Fort Bridger, Wyoming territory, loses one of its most active and useful citizens.

FRANK HATTON is to remain editor-in-chief of the Hawkeye, notwithstanding his recent transfer to the postoffice department at Washington.

LEATHER medals ought to be presented to the Medical Society of the District of Columbia. That distinguished body has begun to suspect that malaria really exists in the city...

TREASURER Gilfillan reports that there is a surplus revenue in the treasury this year of over \$100,000,000, of this amount over \$90,000,000 was used for the reduction of the public debt.

THE people of Denver have concluded a lively fight against railroad political rule which has resulted in the complete discomfiture of the railroad candidates and the triumph of the people.

THE defeat of Hurd, the republican candidate for treasurer of New York state, was due to the strong opposition of the independent voters.

CAPTAIN EADS presented his compliments to the eastern kickers against river improvement when he remarked that there is enough territory in the great valley of the Mississippi to make a hundred and fifty states like Massachusetts.

DOWN in Mississippi the negroes were trying to poll too many votes when several shot guns went off accidentally, as it were, and put a stop to the audacious proceeding.

STATE JOTTINGS. Five hundred tons of hay was consumed by a prairie fire near Fairbury.

THE Missouri Pacific construction train has arrived at the Nemaha. The bridge will be completed this week.

THE B. & M. promptly settled with the estate of Fillmore county whose property was destroyed by a prairie fire of September 17th.

men, and to enact that each company may have at least fifty privates, making sixty-two enlisted men and three officers to each of 450 companies, thus increasing the strength of the army to 26,600 enlisted men.

ONE of the most interesting features in the late elections was the strength of independent movements. Mr. Wolfe, who announced himself as an independent republican candidate for the state treasurership of Pennsylvania, and who started the campaign without a single vote pledged to him, has received 50,000 votes in the Keystone state on the sole ground of his opposition to ring rule.

ADAMS county anti-monopolists deserve hearty congratulations over the success of their alliance ticket. The anti-monopoly campaign was fought under very discouraging circumstances, in the face of a "regular" republican ticket and a solidly opposing press.

FRANK HATTON is to remain editor-in-chief of the Hawkeye, notwithstanding his recent transfer to the postoffice department at Washington.

LEATHER medals ought to be presented to the Medical Society of the District of Columbia. That distinguished body has begun to suspect that malaria really exists in the city...

THE B. & M. promptly settled with the estate of Fillmore county whose property was destroyed by a prairie fire of September 17th.

Water-Ways and Other Ways.

Speculating on what the valley of the Mississippi may eventually become, one of the speakers at the recent convention quoted Capt. Eads as follows: "The garden which is (Mississippi river) beautified and enriched contains 788,000 acres of the finest lands on the face of the globe."

ADAMS county anti-monopolists deserve hearty congratulations over the success of their alliance ticket. The anti-monopoly campaign was fought under very discouraging circumstances, in the face of a "regular" republican ticket and a solidly opposing press.

FRANK HATTON is to remain editor-in-chief of the Hawkeye, notwithstanding his recent transfer to the postoffice department at Washington.

then went on to tell something about the flour shipped to New England, ground from spring wheat. He said that the very fact of so much of it being unsound, it would be natural to suppose there would be created a demand for St. Louis flour, ground from good wheat.

INDIAN GIRL GRADUATES.

Crying Their Eyes Out When Sent Back Home. A correspondent of the New York Herald, writing from the Crow Creek agency, says: "While I was galloping back to the fort in the company of Dr. Berger, the post surgeon, we came upon a handsome Indian girl, who was sauntering along the roadside."

MIRACLES DIETS. "Your Spring blossom is a success. I certainly think its effects are wonderful; all the dyspeptic symptoms I complained of have vanished; my wife is also enthusiastic in praise of it; she was disgusted by blotches and pimples on her face, and had a continuous headache. She is all right now, and all slightly eruptive spots have gone. You may rest any doubting parties to me."

IT PARALYZED EVERYBODY. The readers of THE BEE will remember the sensation recently occasioned by the confession of Dan Garey, who committed a mail robbery at Sidney and was finally detected by Insp. Tom Furay.

THE St. Louis Millers. Owing to the present price of wheat and an unusually large stock of flour on hand at the various trade centers, some of the largest mills in the country have shut down temporarily, or at least until some of the supply of flour can be worked off.

WORTHY OF PRAISE. As a rule we do not recommend patent medicines, but when we know of one that really is a public benefactor, and does positively good, then we consider it our duty to impart that information to all.

FALL and Winter CLOTHING, At New York Prices at H. M. & M. Peavy's NEW YORK CLOTHING HOUSE 1309 Farnham St., OMAHA, NEB.

EXAMINATION OF TEACHERS. I will be present at my office on Crediton block on the first Saturday of each month to examine applicants for teaching certificates in the public schools in Douglas county.
