I thught of going to New York city-where I expect to meet E. A. Buck, editor of the Spirit of the Times, and arrange for extending our present lines to Leadville, some of the boys said, 'You'll freeze down in the states if you travel, and you'd better get a coat. So I thought I would take their advice and get one. About this time I was in a good deal of trouble over one of my telegraphic offices. I had tried half dozen operators there, but all had lost their grip in some way or another, get to gambling or in a row, and be obliged to skip out. Finally the idea struck me that it would be capital idea to put a woman there if I could find one to take the position. Accordingly I thought over the lady operators I had known in the east, and at last hit upon one working in Chicago as being the very person for the office referred to. So I wrote to the headquarters in Chicago, inquiring about her, and soon received a reply to the effect that she was anxious to get a position where she could make a good salary, and would giadly graphed her \$125, of which \$100 was an answer the next day that she would start that afternoon. There is no probability that there will be any permanent important in Mrs. Lincoln s condition by the center for supplies to all of this region. Last June there were but 1,500 people in this town, and now there are 3,000. They are coming in all of the time, and the progress of the place is of the substantial rather than the mining camp order, than the mining camp order, than the mining camp order, Some Philacelphia capitalists have recently added several hundred thousand dollars to the wealth of the town by building good blocks and two hotels. One hotel which is now going up will cost from \$75,000 to \$100,000 when it is finished. There is a pleasant society in the place despite its many rough features, and some very elegant ladies are to be found at the head of social affairs.

THE OTHER TOWNS are all thriving, and Ashcroft especially so. This place, in my opinion. will be a second Leadville in rapid growth, and I should not be surprised at seeing 5,000 people there by next May. The mines around Asheroft are of wonderful richness. Two huge smelters have been erected recently, each of which is larger than any others in the mining country. Capital is being put in and a great influx of people is pretty sure to follow.
