AN EYE TO BUSINESS

Missouri Pacific Men Indignant at the Contractors for Discounting Time-Checks.

Some of the boys who have been working for the Missouri Pacific contractors are very much disgusted with the head contractor, A. P. Wood, of ironically of his and his superiors'

friendship for the working man. They claim that Wood and his clerk are in the habit of giving men time checks, and then buying them in at a discount, when they have the money to pay their face value, and charge up the full amount each time to the sub contractors, so that they make a very

nice little margin on the paper.

A cuse in point is that of William Tuesday from the sc ne of operat ons, about five miles below Louisville. Weiss drew his time check for \$11.35 and on presenting it for payment was offered by Wood \$10 for it. Not thrown open and two bands of music on liking to lose so large a percentage Weiss went to a widow woman who keeps a store in Louisville, and she stormy month for February. It to be gave him \$11 for it, in cash. On hoped the storms will all be like those of returning Wood asked him how much he got for his check, and on being told refused to believe it until he was

shown the money. Several men who have worked for 1,027 miles of road on main line and the same contractors assert that this branches. Of this 441 miles are laid with is a common practice, and they have 60-pound steel rails, and the remaining 586 frequently seen the clerk discount not been outside of the hotel himtime checks. In view of the fact that the men make a bare living, anyway, they feel highly indignant at this method of doing business.
