

THE DAILY BEE.

Saturday Morning, Feb. 11.

Weather Report
The following observations are taken at the same moment of time at all the stations named.

Table with columns: STATIONS, Barometer, Thermometer, Direction of wind, Force of wind, State of sky, State of weather.

LOCAL BRIVITIES

-Tank Kee's novel exhibition at the Academy to-night.
-Grand school matinee at the Academy to-morrow afternoon.
-Tank Kee's entertainment is great. Don't miss it.
-E. & W. Collins and Cuffs at L. B. Williams & Sons.

THE COURTS.

Charles Kesters Indicted for Murder in the Second Degree.

The Star Routers on Trial at Lincoln.

Supreme Court and Other Legal Proceedings.

The following business was transacted in the Douglas county district court Thursday, Judge Savage presiding:

Lucy A. McLean substituted for the Omaha Smelting and Refining Company vs. S. F. Josselyn et al; jury trial; verdict for defendant.

H. C. Barnett et al. vs. John Rosinski; jury trial; verdict for defendant. Wade Clayton vs. R. C. Neal; tried to court; verdict for defendant.

Andrew Rosewater vs. R. H. Eaton; tried to court; judgment in favor of plaintiff for \$250.

KOSTERS INDICTED. The grand jury, after a four day session, last night reported the following indictment in the Kesters case:

"That Charles M. Kesters on the 25th of December, 1881, on and upon one Oscar Hammer, then and there being feloniously, unlawfully, purposefully and maliciously, without deliberation and premeditation, did make an assault in a menacing manner, with intent to kill Oscar Hammer, purposely, and feloniously, and feloniously to kill and murder, and with a certain deadly and dangerous intent against the grand jurors unknown, which he said Charles M. Kesters, in his right hand then and there had and held, him the said Oscar Hammer, then and there, feloniously, purposefully, maliciously, but without deliberation and premeditation, did strike, beat, cut and wound the left side of the head of the said Oscar Hammer, and did then and there fracture the skull of the said Oscar Hammer, thereby purposefully, feloniously, and maliciously giving to him the said Oscar Hammer, on and upon the head of him the said Oscar Hammer one mortal wound, with the intent aforesaid, of which said mortal wound the said Oscar Hammer then and there died, and so the grand jurors aforesaid on their oaths aforesaid do say that the said Charles M. Kesters then and there him the said Oscar Hammer, in the manner and by the means aforesaid, feloniously, purposefully and maliciously, but without deliberation and premeditation, did kill and murder."

THE STAR ROUTERS. The trial of Iddings and Corbin for alleged fraud in the star route service, was delayed until Thursday afternoon by the non-arrival of Iddings, who reached the capital at 4 o'clock. Upon his arrival he was arraigned and pleaded not guilty to all the counts. The jury was then impaneled, after searching examination by both prosecution and defense. The trial was to begin at 10 o'clock yesterday. As there are two editors on the jury, one a Republican and one a Democrat, it may be confidently expected that justice will be done, though the azure vault take a tumble. Victor Vifquain, of the Lincoln Democrat, A. G. Higginson, formerly of the Lincoln Globe, are the bullwarks of liberty referred to. The jury is as follows: S. F. Rouse, Victor Vifquain, A. Humphrey, John P. Loder, John Ensign, J. McManigal, A. G. Higginson, W. Michlowitz, Richard George, Lew Franklin, W. J. Hyatt and Moran Schutt.

SUPREME COURT. The following decisions were rendered in the Supreme Court Thursday: Merithew vs. Attacheuler. Argument concluded. Ruth vs. Ruth. Argued and submitted. State ex rel Crawford vs. Eberly. Argued and submitted. Campbell vs. Herron. Alternative writ of mandamus allowed. Frank B. Taylor, from Gage county, was admitted to practice. Ransom & Co. vs. Schmela. Argued and submitted. McCormick vs. Stephenson. Argued and submitted. Doby vs. Sumner Brothers. Error from Butler county. Affirmed. Opinion by Lake, chief justice. As to parties before the court, and respecting a mat or within its jurisdiction, a judgment without a finding to support it is not void, but at most merely erroneous and subject to reversal by a suitable proceeding for that purpose in a tribunal having authority to review it.

BUCKNER'S AFRICAN BELIEF. The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all kinds of skin eruptions. This salve is guaranteed to give perfect satisfaction in every case or money refunded. Price, 25c per box. For sale by Ten & McMAHON, Omaha.

A DRIVER'S DEFENSE. He is Paid to "Leer" and Does So in a Professional Way Only.

OMAHA, February 10. To the Editor of The Bee: I noticed in Tuesday's issue of your paper that several ladies have requested The Bee to suggest to Capt. Marsh that I be instructed not to "leer" at the gentler sex on the streets while on duty, etc.

There never lived a servant of the public, from street car driver up to president or king, but some prejudiced minds stood ready to criticize and find fault with this or that, whether the act was right or wrong, or of no consequence at all.

Now if watching for passengers on the streets, an important auxiliary of this business, is "leering" then I am guilty of an offence and no mistake, and must hasten to apologize. We are paid for and under special instructions to do this kind of "leering"; it is a part of our business; but if any of my professional glances have knocked the paint from any of their fair physiognomies, they can have, at my expense, a whole bottle of the best cosmetic to be found on the market, to repair their shattered beauty, by calling at the office on Twenty-first and Cumings, or if any of their seraphic forms have become impaired by said "leering," let them call on Madame De Foy for restoration and I will settle the bill. DRIVER, STREET CAR NO. 2.

LO-DS OF WEALTH.

A Citizen of Wyoming and His Confidences in That Great Territory.

The Claims of Cummins City and Other Districts.

The Bee reporter yesterday had the pleasure of meeting Hon. Wm. F. Root, of Laramie City, who is stopping over in Omaha a few days, on his way home from the east. Mr. Root was for many years a resident of Omaha, having come here in the spring of 1856 on the steamer Admiral, from Aurora, Ills. He stayed here until 1869 and built three miles of road for the Union Pacific, then pushing its way to the Pacific with all the energy that could be concentrated on it.

From Omaha in 1869, he went back east to New Jersey and from there to Chicago, but after having tasted of the pleasure of life in the west he could not content himself in the east again and struck out for the mountains, bringing up at Laramie City. He has not been in Omaha an hour for ten years until this trip and consequently sees the streets filled with new faces and fine brick blocks replacing the old frame hells that answered for business houses in those days.

During his last trip east Mr. Root found out one fact which the people of Nebraska are beginning to appreciate and that is that no matter how good a country is, it is never going to be appreciated properly unless it is advertised. He went east with some good mining property to sell and the first question which met him everywhere was "What part of Colorado is it situated in?" Colorado, he says, is the best advertised state in the west, and next to Kansas, probably it is.

Just now the Laramie people have great confidence in the future of Cummins, a comparatively new town thirty-five miles west of Laramie, which in less than two years has accumulated a population of about 300 persons, and has over 800 mining claims recorded. Mr. G. H. Hildreth, the mining recorder, recorded 92 claims last month. Every house in town is occupied, and great demand felt for more. A big boom is predicted, and it is said the country throughout is as rich as any in Colorado. An assay outfit has been put in, and a great many Denver people are going there. The placer claims are being developed and most favorably. New strikes are constantly being made, surpassing those of past years. Some specimens recently taken to Laramie created a great sensation, while some rich quartz from the "Humburg" mine, which was sent to Denver, fairly set the prospectors there on fire. "Little Violet" is a good specimen which widens as it goes down. The Wyoming Consolidated Company is letting the contract for 100 feet on the "Betsey Jane."

John Cummins' Denver party put in a saw and quartz mill at an early day. The machinery for the "Keystone" mine has arrived at Council Bluffs and will be forwarded at once.

The North Park branch of the U. P. has reached Soda Lakes and the reaction machinery will soon be put in there. Mr. Root says that in addition to her gold, silver and copper, Wyoming has had the best and most extensive coal, coal oil and iron deposits in the country, and the territory is bound to rival any part of the west in value of her mineral wealth, when it can once be put on the high road to development.

ANOTHER CASE. Which is Pronounced to be Only Varioloid.

Another case of small pox was reported Thursday and the authorities were immediately notified. Investigation by the city physician, however, developed that the case is only one of varioloid. The patient is Hannah Casey, a young lady about eighteen years of age and the daughter of Thomas Casey, the well-known flagman at the Tenth street lower crossing of the Union Pacific tracks. Casey lives within a few yards of the flagman's station on the corner of Tenth and Leavenworth streets. He has a large family and it is very fortunate that his daughter is afflicted with no worse disease than the vaccinated form of the small pox. Miss Casey is a very fine young lady, and has many friends who will heartily hope for her speedy recovery.

The latest information from the post house indicates that the patients there are doing as well as could be expected. The case of the little daughter of the German minister on Jackson street is progressing favorably.

Army Orders. The following is the latest order issued from the headquarters of the department of the Plate:

Upon the recommendation of his company commander, approved by his post commander, the unexecuted portion of the sentence in the case of Private Joseph J. Harrison, Company K, Sixth Infantry, promulgated in general court martial orders, No. 58, series of 1881, from these headquarters, is remitted.

AFTER HIS TEAM

A Lincoln Pair of Horses are Found in an Omaha Barn.

Who Stole Them and How They Were Disposed of is the Question.

John Curry, a well known citizen of Lincoln, is in Omaha on business concerning a pair of horses, which he claims to have lost last November.

At the time of the theft of the team it was widely published, but no trace of the missing horses was found. Recently, however, Curry has obtained information of the whereabouts of his property, which he has identified, but which the possessor refuses to give up.

Consequently a replevin suit is in progress in Justice Powell's court, in which some interesting facts are to be uncovered, which relate to the theft and recent discovery of the team.

In an interview with Mr. Curry last evening he stated that the team was put in possession of George McKay, Curry's brother-in-law, and Jim McKay, a cousin of George on the 17th of November, 1881, for the purpose of going courting.
