

THE DAILY BEE

Friday Morning April 7.

Weather Report

Table with columns for Station, Barometer, Thermometer, Direction of Wind, Force of Wind, Phase of Moon, and State of Weather. Includes data for Des Moines, Cheyenne, Washburn, etc.

River 5 feet 10 inches above high water mark at Omaha and 3 feet 7 at Yankton.

LOCAL BRIVITIES.

The wind is fast drying up the mud. There is scarcely a ripple of excitement since the election has passed. The annual election of the Omaha Fire Department occurs on the 12th.

MAUNDAY THURSDAY.

One of the Great Religious Festivals of Holy Week Sacerdally Celebrated by the Catholic Church.

How It Was Commemorated in This City.

Yesterday the Catholic church celebrated Maunday Thursday, so called from the ceremony of washing the feet, called in the Rubric, Mandatum. It also commemorates the institution of the Eucharist, a subject of joy and thanksgiving, expressed by the ringing of bells and the white color of the vestments and the brilliant ornamentation of the altar.

The attendance at the mass at the Cathedral of St. Philomena yesterday was very large, and the services were more than usually interesting. The choir was reinforced for the occasion, and the number of clergy was augmented by the arrival of priests from many of the interior towns of this vicariate.

Pontifical high mass was celebrated at 9 o'clock, Bishop O'Connor officiating, assisted by the following clergy: Fathers Phelan, of Grand Island, assistant priest; Fathers J. J. Exeter and McCarty, of Omaha, respectively, as deacon and sub-deacon of honor; Fathers Kelley of Omaha and Seraphinus of Columbus, deacon and sub-deacon of the mass; Father Colaneri, of Omaha, master of ceremonies; oil bearers, Fathers Ryan of Columbus, Quinn, of Fremont, and Conway of North Platte; cross bearer, Smyth, of O'Connor. Besides these gentlemen above mentioned, there were also in attendance, and taking part in the consecration of the oils, Fathers Riordan of this city, O'Connor of Fremont, Wolfe of Crete, Embien of Exeter, Geary of Central City, Martin of Lincoln, and Daxacher of Omaha.

ory by the legends of childhood days. Of the Swiss people's prosperity, however, he spoke somewhat discouragingly, and stated that American products and manufacturers were competing very actively with those native. Mr. Meyer brought with him on his return his younger brother Ernest and his sister, Miss Bertha, who will make their home here. Of all places in the world Mr. Meyer says there is none like Omaha, and even with its mud and unartistic structure it stands, in his opinion, away ahead in the spirit of enterprise of any city he has visited or passed through.

OMAHA INVENTORS.

They Get up the Boss Water Motor of the Age.

A BEE reporter yesterday shown an interesting piece of machinery at the Novelty Machine Works, on Fourteenth street, between Douglas and Dodge, of which Messrs. E. P. Lavis and A. Thompson are proprietors.

It is a double turbine water motor, constructed on a principal entirely different from the old style of turbine. The new motor received the water at the center and discharges it at the circumference, thus getting the benefit of the centrifugal action along with the pressure, while the old turbine received at the circumference and discharged at the center. The motor just completed by Messrs. Davis and Thompson runs with about one-fourth the amount of water formerly required and such is the nicety with which it works that it will start up when the supply has been turned on at all. It has a three-inch wheel, and with a seven and one-half pound water run will run any sewing machine. The "Turk," heretofore considered the "Boss" motor, with a four-inch wheel uses sixty pounds of water.

The machine seen by the reporter had been running nearly four days on four thousand gallons, and a number of competent judges have examined it and pronounce it far ahead of all motors, and that it has an advantage of at least twenty-five per cent in the matter of water consumption alone. Several motors will be sent to St. Louis and also to Atchison for trial by the water companies at those places, and already many orders have been received here at home.

ORANGE BLOSSOMS.

A Quiet Wedding at St. Mary's Avenue Last Night.

A pleasant wedding took place on St. Mary's avenue Wednesday, which was kept so quiet that reporters were not aware of its occurrence until yesterday.

The parties were Edmund Peycke, of the well known firm of Peycke Bros., and Miss Christina Sturny, a sister-in-law of Mr. Dorn, secretary of the Western Live Stock insurance company, of this city. Mr. Peycke has been a resident of Omaha for about twelve years, and is one of our most popular and substantial business men.

HEAVY HASCALITY.

The Terrible Discoveries of Fraud in the Second Ward.

Rumors of Hascality in the Second ward are being pretty freely circulated, and with them is coupled talk of a contest of the seat given Mr. Fred Behm, in the city council, by so large a majority, Hascall, of course, being the contesting candidate.

Real Estate Transfers.

The following are all the transfers of real estate recorded at the county clerk's office on Monday, Tuesday and Wednesday as reported by John L. McCague, real estate agent and conveyancer: Jos. Barker and wife to Peter O'Rourke, s.w. 1/4 sec 19, and n.w. 1/4 sec 30, all in town 16, range 13, w. d.; \$1,200.

A NEW DEAL.

Another Iowa Road Runs Its Trains Into Omaha.

The K. C. St. Joe & C. B. Coming in Via Plattsmouth.

The first important step in the direction of bringing the Iowa roads to a common terminus in Omaha was accomplished in the running of C. B. & Q. freight trains into Omaha by way of Plattsmouth, and it is but a question of time when all the pool lines will run into this city. A new announcement in the same line is made to-day, in the fact that the trains of the Kansas City, St. Joe & Council Bluffs railroad—which is now included under the Chicago, Burlington & Quincy and B. & M. management, will run into Omaha by the way of the Missouri river bridge at Plattsmouth and the B. & M. railroad. Col. A. C. Daves, general passenger agent of the Kansas City, St. Joe & Council Bluffs railway, will arrive in Omaha this morning for the purpose of meeting the B. & M. officials to arrange the time table and other details, so that the arrangement can be begun next Monday.

The evening train south, leaving here for Kansas City, and the train from Kansas City, arriving here in the morning, will run over the Plattsmouth bridge and over the B. & M. track in Nebraska, between Plattsmouth and Omaha. These trains will depart from and arrive at the B. & M. depot in this city. They will be solid trains—mail, baggage, express, day coaches and sleepers. On the train arriving here in the morning, there will be no coaches switched off at Pacific Junction for Council Bluffs, and to accommodate Council Bluffs passengers in the evening a train will be run from Council Bluffs to Pacific Junction to connect with the Omaha express for the south.

On the morning train leaving here for Kansas City, and the evening train, arriving from Kansas City, day coaches will be run from and to Omaha, and the sleepers will be switched off at Pacific Junction for Council Bluffs, as the sleepers on the through sleepers which are now being run between Kansas City and St. Paul.

The above arrangement has long been under consideration, and it has been finally brought about by efforts of the B. & M. officials. The time will give people an hour and a half more time in Omaha, as the evening train will probably leave Omaha for the south at 7:30, while at present passengers have to go over to the transfer at 6 p. m.

"OLD RELIABLE."

The Chicago, Burlington & Quincy and Its Lines East and West.

The twenty-eighth annual report of the Chicago, Burlington & Quincy railroad has been prepared, and from advance sheets the following facts are obtained. The gross earnings of the company, including all leased lines during 1881, were \$21,324,160, of which \$16,346,813 was from freight, and \$3,616,096 from passengers. The operating expenses, including taxes, were \$11,066,514, leaving the net earnings \$10,257,635. The amount further to be deducted from net earnings includes, for fixed charges, \$4,428,367; for dividends, \$4,249,286; and for amount to renewal fund, \$1,000,000, leaving as the net surplus for the year, \$479,984. The decrease of net earnings from those of 1880 was \$428,017. The aggregate of capital stock December 31, 1881, was \$55,397,346, and the total funded debt, \$50,129,725. The total miles operated December 31, 1882, was 2,924; the construction for the year cost \$4,739,944, making the total cost of construction and equipments for the year \$6,014,240. In Illinois and Iowa during the year 75 1/2 miles of single main track have been laid with steel rails in place of iron, and 19 miles of steel rails have been laid in new second and 2 1/2 miles in new side tracks. The total number of miles of steel rails in all tracks at the end of the Missouri river, December 31, 1881, was 6,170. This includes the whole main line in Illinois and Iowa. The number of miles of second track owned by the company December 31, 1881, was, in Illinois, 131; in Iowa, 22. In Nebraska, during the year, 44 miles of main line track have been laid with steel rails in place of iron, making the number of miles of steel rail single track west of the Missouri river 126.

A LONG MEMORY.

One of the Duprez-Benedict Minstrels Comes to Grief.

About 5 o'clock yesterday afternoon there was quite a little matinee at the intersection of Tenth and Farnam streets, which attracted a crowd, of course.

It appears that some four years ago "Sandy Forbes," now a teamster in Omaha, was driving a street car on one of the Chicago lines. Late one night he had some trouble with a gay party who were returning home after the theatre and incurred their enmity thereby.

A few nights later he happened in at a variety theater about closing time, and was attacked and severely beaten and kicked by a clique of young men, among whom were a portion of the number involved in the street car racket. Mr. Forbes subsequently came to Omaha, and never saw his principal assailant, who kicked him quite severely when he was down, until yesterday. A few days ago he saw on the bill of the minstrel company the name of Ira Holston, who appears as the great female impersonator in the troupe.

Recognizing the name, he at once determined to get even with his old antagonist. Yesterday as he was walking up Tenth street he suddenly came upon the party he was looking for.

"Is your name Ira Holston?" he said. "Yes, sir." "Well, do you remember me?" "No sir."

The reply was a blow between the eyes, and Holston went to grass. Recovering himself, he ran out into the middle of the street, followed by Forbes, who hit him again. This time the coat of the female impersonator flew open, and some of his private baggage, including a pair of beautifully embroidered hose, flew out and fell in the mud.

At this juncture Special Policeman Armour arrived and took the belligerents to the city jail, followed by quite a crowd, who supposed that from the peculiar nature of the truck dropped by Holston he had robbed some woman and been detected. On arriving at the jail, however, the assailant was locked up and the assaulted man released. About 10 o'clock Forbes was also released on bail.

A few years ago Forbes met a man who had licked him at North Platte eleven years previous, and gave him a solid thrashing, recognizing him although he had not seen him before since the occurrence. He evidently has a good memory, and it isn't advisable to take any odds against him.

COUNCIL OFFICERS.

Homer Stull for President and J. J. L. C. Jewett for Clerk.

A caucus of the new and holding over members of the city council was held last evening with a full attendance. The object was the nomination of candidates for the offices of president and clerk of the council. The ballot resulted in the election of Homer Stull for president and the retiring clerk, J. J. L. C. Jewett, for clerk, each receiving ten votes, and

Grateful Women.

None receive so much benefit, and none are so profoundly grateful and show such an interest in recommending the only remedy peculiarly adapted to the many ills the sex is almost universally subject to. Chills and fever, indigestion or deranged liver, constant or paroxysmal sick headaches, weakness in the back or kidneys, pain in the shoulders and different parts of the body, a feeling of lassitude or despondency, all are readily removed by these bits.—(Courant.)
