

The Omaha Bee.

Published every morning, except Sunday. The only Monday morning daily. TERMS BY MAIL: One Year, \$10.00; Three Months, \$3.00; Six Months, \$5.00.

CORRESPONDENCE: All communications relating to news and editorial matters should be addressed to the Editor of this Bee.

Business Letters: All business letters and remittances should be addressed to THE OMAHA PUBLISHING COMPANY, Omaha, Nebraska.

Proclamation by the Governor: Convening the Legislature.

WHEREAS, The constitution of the state of Nebraska provides that the governor may, on extraordinary occasions, convene the legislature by proclamation; and

First. To apportion the state into three congressional districts and to provide for the election of representatives therefrom.

Second. To amend an act approved March 1st, 1881, entitled "An act to incorporate cities of the first class and regulation of their duties, powers and government."

Third. To amend an act approved March 1st, 1881, entitled "An act to amend the constitution of the state of Nebraska."

Fourth. To amend an act approved March 1st, 1881, entitled "An act to amend the constitution of the state of Nebraska."

Fifth. To provide for the payment of the ordinary and contingent expenses of the legislature incurred during the special session hereby convened.

Sixth. To give the assent of the state to the provision of an act of congress to extend the northern boundary of the state of Nebraska.

Seventh. To provide for the payment of the ordinary and contingent expenses of the legislature incurred during the special session hereby convened.

Eighth. To give the assent of the state to the provision of an act of congress to extend the northern boundary of the state of Nebraska.

Ninth. To provide for the payment of the ordinary and contingent expenses of the legislature incurred during the special session hereby convened.

Tenth. To give the assent of the state to the provision of an act of congress to extend the northern boundary of the state of Nebraska.

Eleventh. To provide for the payment of the ordinary and contingent expenses of the legislature incurred during the special session hereby convened.

Twelfth. To give the assent of the state to the provision of an act of congress to extend the northern boundary of the state of Nebraska.

Thirteenth. To provide for the payment of the ordinary and contingent expenses of the legislature incurred during the special session hereby convened.

Fourteenth. To give the assent of the state to the provision of an act of congress to extend the northern boundary of the state of Nebraska.

Fifteenth. To provide for the payment of the ordinary and contingent expenses of the legislature incurred during the special session hereby convened.

Sixteenth. To give the assent of the state to the provision of an act of congress to extend the northern boundary of the state of Nebraska.

Seventeenth. To provide for the payment of the ordinary and contingent expenses of the legislature incurred during the special session hereby convened.

Eighteenth. To give the assent of the state to the provision of an act of congress to extend the northern boundary of the state of Nebraska.

Nineteenth. To provide for the payment of the ordinary and contingent expenses of the legislature incurred during the special session hereby convened.

Twentieth. To give the assent of the state to the provision of an act of congress to extend the northern boundary of the state of Nebraska.

Twenty-first. To provide for the payment of the ordinary and contingent expenses of the legislature incurred during the special session hereby convened.

Twenty-second. To give the assent of the state to the provision of an act of congress to extend the northern boundary of the state of Nebraska.

Twenty-third. To provide for the payment of the ordinary and contingent expenses of the legislature incurred during the special session hereby convened.

THE PACIFIC RAILROAD EMPIRE.

The domain of the Pacific railroads of the United States is an empire embracing an area greater than that of the original thirteen states of the union. According to the official report of the national commissioner of railroads, the five great trunk lines that are known as Pacific railroads are entitled by their charters to 181,186,412 acres, or 298,728 square miles, of the public lands.

Table with 2 columns: State/Territory and Square Miles. Includes Connecticut (4,750), Delaware (2,120), Georgia (58,000), Maryland (11,114), Massachusetts (7,900), New Hampshire (9,200), New Jersey (8,320), New York (47,600), North Carolina (20,704), Pennsylvania (46,000), Rhode Island (1,306), South Carolina (34,000), Virginia (38,348).

The five Pacific trunk lines are entitled under their national land grant to the following areas: Northern Pacific, 37,920,000; Union & Central Pacific, 41,458,924; Atlantic & Pacific, 51,840,000; Southern Pacific, 11,967,488; Texas Pacific, 18,000,000.

Table with 2 columns: State/Territory and Square Miles. Includes Connecticut (4,750), Massachusetts (7,900), Vermont (10,212), New Hampshire (9,200), Maine (35,000), Rhode Island (1,306), New Jersey (8,320), New York (47,600), Pennsylvania (46,000), Ohio (34,994), Michigan (33,809), Indiana (33,809).

This vast empire, if carved out in a compact form, would cover a greater area than is embraced in the New England states, with New Jersey, New York, Pennsylvania, Ohio, Indiana and Michigan.

The aggregate acres of railroad lands up to 1881, as reported to the commissioner of railroads, is placed at 8,563,627 acres and the amount realized therefrom is computed as \$36,383,795. It also transpires that while the five Pacific trunk roads were entitled to 114,153,963 acres of public lands, eighteen months ago, on account of mileage of railroad constructed and completed, they had only taken out patents on 10,687,290 acres.

In other words, over one hundred million acres of the public lands donated to the Pacific railroads, and set apart for them, remain on the records of the states and territories where they are located as government lands, exempted from local taxation.

And yet the main object of donating this vast empire to the Pacific trunk railroads was to encourage the rapid settlement of the states and territories west of the Missouri. The charters of the Pacific roads expressly limited the time within which the corporations should dispose of their lands, and such lands as remained unsold were to be made subject to homestead and pre-emption settlement.

In spite of these precautions the giant corporations that have built the Pacific trunk lines have circumvented the law, and still retain ownership of the vast domain they have forfeited—while at the same time they continue to shirk their just share of taxation.

Would the feudal barons of Europe have dared to attempt such monstrous highway robberies? Is there anything in all history that offers a parallel to this acquisition of three hundred thousand square miles of country—an empire much larger than either Germany or Austria-Hungary. Was every country governed by the people so helpless as to submit tamely to such a monstrous land robbery?

three years' standing, and mailed copies to every manufacturer and exporter in Chemnitz. The consequence was that on his arrival his reception was extremely mortifying. The German government refused to grant him official recognition, and in utter despondency he sought consolation in his old habit. It would be interesting to know what part, if any, Mr. Griggs took in this malignant scheme to drag down a talented journalist struggling to rebuild a reputation injured years ago by a habit which is unfortunately too common among his profession.

A PARTY NEED. If the democratic party is searching vainly for a policy the republican party in congress is as badly in need of a leader. At no time during the past twenty years has the want of popular leadership in the house of representatives been so clear and striking. Twice last week the republicans were completely outwitted and outgeneraled by their democratic opponents simply because of the lack of that harmony which good leadership would give them.

What is needed is good leadership and a proper discipline of the party forces. There are men competent to at least follow in the footsteps of James G. Blaine and James A. Garfield as party leaders. The trouble is that they seem content to remain in the background and leave that duty to others who are no match for men like Randall and Cox on the democratic side of the house.

Denver is organizing the "Honorable Society of Artistic Prevaricators," and our old Visch is the preferred man for president. Park county is pleased with the prospect of four new smelters nearly ready for work. The lack of smelting facilities has heretofore hindered the miners.

Over 200 crooks passed through Denver last week having been run out of Leadville. The crooks were scattered into the territories north and south. One of a number of eastern capitalists, while visiting a Central mine, slid down 60 feet on a rope, burning his hands so badly that his friends had to carve all his food for the next few days.

The Wells Fargo express company is making a strong effort to get control of the Rio Grande line. The Adams is also fighting for the privilege of running messengers on the line. Sheriff E. N. Campbell, of Lake City, was shot dead on the 26th ult., by either George Betts or Jim Brown, two desperadoes whom he was attempting to arrest.

Fred. Feilerman, an employee of Julius Abel's store in Denver, was fined \$50 and costs on Thursday for taking improper liberties with two little girls who had slipped into a room in which he was working. Denver is full of laboring men unemployed. Two hundred were taken out early last week to work on the Oregon Short Line, and it was with difficulty that as many more could be prevented from going with them.

Staturday morning early, while the passenger train on the South Park from Leadville was coming down Platte canyon, a horse reared on a precipice, struck the side of the locomotive and crushed the working machinery. An excursion party on the Rio Grande road one day last week was badly shaken while crossing the falls of 20 miles in an hour a few miles out of Pueblo a car jumped the track, throwing the passengers about precipitously. No one was hurt except the porter, whose tongue was caught between his teeth and nearly bitten off.

DAKOTA. Dover wants more girls and a sorghum mill. The Central City Herald has suspended for lack of support. A bald headed eagle was killed near Leadville on the 29th ult. Twenty-five houses could be rented in Alexandria at once. Alexander Br. von living near Sioux Falls exhibits a calf with five legs and six hoofs.

The Pierre creek quarries will soon be sold to a stock company and stocked at \$29,000. The full amount of stock in the Sioux Falls Masonic temple (\$40,000) has been subscribed. Mrs. Frank Hanson, of Rapid City, while taking clothes off a fence was badly gored by a bull.

The Indians at the lower Brule agency have the measles. Fourteen died in one night recently. The Yanktonians Indians, who have lived for years at Standing Rock, are sending back to Crow creek this spring in large numbers.

the false census returns which were made the basis of the Major's claim before the committee. This is a point of much more importance than who called the attention of the committee to the fraud which was played upon them.

ATKINSON is excited over the prospect of the completion of the Missouri Pacific to Omaha and wants a grand celebration at that place when the line is through.

OCCIDENTAL JOTTINGS.

DENVER is setting over the small pox scare. Anderson & Co., contractors, have left Pueblo \$1,000 short. The Denver & New Orleans road was completed to Pueblo last Saturday. The state firemen's tournament will be held at Silver Cliff August 8th.

Mr. Miller, formerly sutler's clerk at Fort Thornburgh, has been appointed trader at the Ouray agency. The corner stone of the new Mining Exposition building at Denver was laid with imposing ceremonies on Saturday. H. Glafcke, formerly of the Cheyenne and Leadville, has bought the interest of Visch in a partnership in the Denver Hotel.

Leadville is terribly scared at the advent of small pox. It has appeared in a number of places near the great carbonate camp. A. E. Hyde, a Mormon emissary sojourning in Denver, was robbed of \$100 and his ticket while in a drunken condition. Denver is organizing the "Honorable Society of Artistic Prevaricators," and our old Visch is the preferred man for president.

Montana. Helena is to have a telephone exchange. The Chinese laundries in Missoula advertised. The contract has been let for the new court house at White Sulphur Springs. Butte has a white Manitoba turkey shot by one of its trappers. The bird is a rare one.

Utah. A sixth interest in the Gentile Tribune has been sold for \$10,000. The stage robber named Acord, who filled the mail sacks at Salina, has been captured. Work on the Denver & Rio Grande track between Salt Lake and Provo will be completed by June 1st.

California. Oakland had a \$35,000 fire on the 2nd. Nearly 200 informations against Los Angeles saloon keepers have been filed for violating the Sunday law. The Central Pacific was attacked at Marysville by the sheriff on the 25th ult. for delinquent taxes. The agent gave bond and the train was allowed to proceed.

Idaho. The influx of people expected at Wood River this season is 20,000. One hundred wagons laden with grain, fruit, vegetables, butter, etc., are en route from Walla Walla, Washington, to Wood River.

New Mexico. Las Vegas has 170 telephones in operation. Albuquerque has 31 telephones in its exchange. Las Vegas has a pop factory, and not satisfied, wants a pop corn factory. The most pressing need of Las Vegas now is a law enforcement officer.

Arizona. Reports from the ranges say calves are dropping faster and better than stockmen expected. The Canadian round-up began at La Cima May 1st, about 200 cowboys participating. The corner stone of the M. E. church at Raton was laid very ceremoniously on the 17th ult. An Chung, a burglar of Dealing, who stole \$1,300, got three years in the Leavenworth penitentiary.

Colorado. The Circle-Cattle company has been organized, embracing a number of small owners. The range covers 250,000 acres, with 22 miles of fence on one side. A prize fight between Barney Campbell, of Leadville, and Tom Wallig, of Clear Lake, will take place in New Mexico some time this month, and the Colorado sports are preparing for a good time.

Wyoming. Temperance is agitating Rock Springs. Thirty men are at work on the Ames monument. Cheyenne will lay about four miles of water pipe this season. The Laramie Masons will build a \$15,000 temple this season.

Wyoming generally wishes for the reappointment of Gov. Hoyt. The territorial teachers institute will be held at Evanston on the 9th. Forty acres of land south of Laramie were sold the other day for \$30 an acre.

Colorado. A plan is on foot in Rock Springs to raise by subscription money enough for a reading room. Geo. Lee, a miner, fell down the shaft of No. 14 Carbon, on Tuesday, and was seriously injured. Tim Kinney, of Green River, recently bought \$400,000 worth of cattle from Bishop Hatch, of Ashley's Fork.

Montana. The converse cattle company recently received 27 thoroughbred and grade bulls to run with its herd of 10,000 cows. Two large brick business buildings to be erected immediately in Cheyenne are pleasing things for the people to contemplate. The old Haley ranch, 18 miles west of Leadville, was sold last week for \$35,000 to J. W. Douglass Willett. This price included the stock.

Wyoming. C. A. Girdler, who owns a large interest in the copper region in the Hartsville district, took his ton of ore to Baltimore to be smelted, his object being to see how it pans out. Councilman Alex. McCreigh, of Cheyenne, was married on the 26th ult. to Miss Clara Clark. He was surprised by his friends, but they recovered in time and got out the brass band.

Wyoming. Helena is to have a telephone exchange. The Chinese laundries in Missoula advertised. The contract has been let for the new court house at White Sulphur Springs. Butte has a white Manitoba turkey shot by one of its trappers. The bird is a rare one.

Utah. A sixth interest in the Gentile Tribune has been sold for \$10,000. The stage robber named Acord, who filled the mail sacks at Salina, has been captured. Work on the Denver & Rio Grande track between Salt Lake and Provo will be completed by June 1st.

California. Oakland had a \$35,000 fire on the 2nd. Nearly 200 informations against Los Angeles saloon keepers have been filed for violating the Sunday law. The Central Pacific was attacked at Marysville by the sheriff on the 25th ult. for delinquent taxes. The agent gave bond and the train was allowed to proceed.

Arizona. Reports from the ranges say calves are dropping faster and better than stockmen expected. The Canadian round-up began at La Cima May 1st, about 200 cowboys participating. The corner stone of the M. E. church at Raton was laid very ceremoniously on the 17th ult. An Chung, a burglar of Dealing, who stole \$1,300, got three years in the Leavenworth penitentiary.

Colorado. The Circle-Cattle company has been organized, embracing a number of small owners. The range covers 250,000 acres, with 22 miles of fence on one side. A prize fight between Barney Campbell, of Leadville, and Tom Wallig, of Clear Lake, will take place in New Mexico some time this month, and the Colorado sports are preparing for a good time.

composed of business men whose minds, it is fair to presume, are unbiased, and therefore prepared to listen to the statements of the parties referring, and to give to every fact due and impartial consideration. They may be presumed to have a sufficient general knowledge of the industry as, by the aid of such information as the journeymen carpenters and their employers may furnish, to reach an intelligent conclusion and make a fair award.

Of course there is nothing absolutely binding upon either party to abide by the award of the committee. Neither is there in England, where arbitration has been in successful operation for a dozen or more years. But it is there considered a matter of honor if parties appeal to a board of arbitration to recognize its authority and stand by its decisions; and very few instances are recorded where there has been a refusal to accept the award as final for the period designated.

As this is the first conference held under a board of arbitration here, its result will be watched with interest. It is happily succeeded in finding a modus vivendi between the parties acceptable to both, and so avoiding a strike and an indefinite interruption of labor, it will greatly encourage other industries, where differences arise between employers and employed to appeal to the same tribunal, and it will be a fortunate day for the community and the country when such methods of settling labor issues are generally adopted.

NEW WHEAT.

One Hundred Sacks of the Crop of 1882 Received in St. Louis. St. Louis, Republic, April 30th. The earliest new wheat in a marketable quantity in this market was received here yesterday, and the highest price per bushel perhaps in the history of the grain was obtained on "Change, Messrs. S. W. Cobb & Co., received 100 sacks of the 1882 crop from Clarksville, Johnson county, Ark., and it sold by auction on the board to John Kauffman, a city miller, at \$4.50 per bushel.

The household sacks contained about 250 bushels, the grain was in quantity near a No. 2 white winter, and was in fair condition, yet must have some drying for ready milling purposes. The bidding started off at \$1, but this was soon raised, and there continued an increasing contest for the lot at heavy and heroic advances, and when the higher figures were reached there was excited cheering and clapping of hands and waving of hats. One grain man, at the bid of \$4, was most enthusiastic, and the sale to Mr. Kauffman at \$4.50 was greeted with an ovation of plaudits. The first receipt here of the crop of 1881 was from Texas, June 9; in 1880 from the same state, May 29; in 1879, from New Madrid, Mo., June 13, and in 1878 from southern Illinois, June 7. A week or two ago there was a sample of the new crop shown on the Cincinnati exchange which was sent from Georgia, but that was sufficiently south to allow of an earlier harvest. The merit of the lot received here yesterday is in the fact that it came from a section tributary to St. Louis as a market.

An Important Year in Politics. Albany Journal. The elections of 1882 will be watched with keen interest, first, because of the number and importance of the offices to be filled; second, because the result will be an indication of the popular estimation of President Arthur's administration; third, because they will show the progress of the contest of the people against machines and bosses, and also the development of the movement in the south. They will further have more or less direct bearing on the presidential campaign of 1884, for the control of both houses of congress, and the government of more than twenty states will be determined by the issue.

Wanted to Pool. Wall Street News. A New Yorker who had business in one of the mountain villages last week was followed to the depot when ready to take the train by a native who confidently inquired: "Are you an undertaker?" "Oh, no." "Didn't know but you was an undertaker looking for an opening here, and I'd like to pool with you. I own the graveyard here, and we could run the business to please ourselves. Are you a doctor?" "No." "Didn't know but you was. I've got the best place in town for a drug store, and I'd furnish the medicines and you do the doctoring and we'd pool. Maybe you are a lawyer?" "No, my friend."

Turning the Mississippi Valley Into a New Egypt. Boston Transcript (sep.). The notion that the Mississippi be treated after the fashion followed with the Nile, namely—look upon the annual freshets as a benefit to the agriculture of the region through which the great river flows, and instead of seeking to restrain its course by straight levees, lead the flood where it will do the most good through a system of irrigating canals. To carry out these ideas, it would be necessary to dispose in new quarters a large population, especially of that portion living on the lowland, which would have to be abandoned during the spring freshets. But this it is fair to assume, would be less expensive than the annual taxes for repairs on levees, to say nothing of the cost, every five years or so, of replacing the farm-houses and implements destroyed by the resistless flood.

Fraud. Tens of thousands of dollars are squandered yearly upon traveling quacks, who go from town to town professing to cure all the ills that our poor humanity is heir to. Why will not the public learn common sense, and if they are suffering from dyspepsia or liver complaint, invest a dollar in a BLENDED BLOSSOM, which is all guaranteed and endorsed by the faculty. See testimonials. Price 50 cents, trial bottles 10 cents.
