CAPITAL NOTES.

WASHINGTON, May 15.—The president has signed the tariff commission bill.

There were circulated the past week 1,000 silver dollars.

Commander McCormick, of the United States steamer Essex, reports from Cape Palmas, Liberia, April 4th, that Consul General Morrill at Grand Bassa, was shot and wounded March 18th. No arrests were made.

The colored Methodist conference at its session to-day considered the advisability of establishing a branch in Indian territory.

Senate to-day confirmed the following nominations: Rolland Worthington, collector of customs for Boston and Charleston; Call VanCleave, collector of customs at Saguna, Oregon; Jno P. Goway, of Ohio, registrar of the land office at Olympia, Wyoming territory; Robt. Lowry, of Iowa, receiver of public moneys at Huron, Dakota.

The vote on the confirmation of Worthington to the Boston collectorship was 38 yeas to 14 nays.

BLASTED. Guiteau's hopes of a big sale for his book, "Truth," have been disappointed. Not over 100 copies have been sold.

THE PRICE OF IT.

Three Indians from Indian Territory complained to Secretary Teller to-day that Indian Commissioner Price had refused them an audience, and that Mr. Price had a bill introduced into congress taking away their lands and giving them to the Arapahoes and Cheyennes, and that the only reason for this is because the son of Commissioner Price is connected with the Texas Pacific Railroad company, and that road favors the latter Indians having the land. Both charges are denied by Mr. Price.

STILLWELL RUSSELL, assistant United States marshal of Texas was arrested here to-day on the charge of filing false and fraudulent vouchers with his accounts. The hearing will be held to-morrow.

REPORTS OF BREASTDUMPS during the month of April amounted to \$9,835,205, about one-half of the amount in the same month last year.

CAUTIONARY. The usual cautions to steamboat inspectors to increase their vigilance during the coming excursion season, will be issued from the inspector general's office this week.

THE STAR ROUTE CASES. In all probability the star route cases will be adjourned over to-morrow on account of the continued absence of Dorsey.

THE GUITEAU CASE. The court in banc have definitely agreed to sustain the verdict of the lower court in the Guiteau case. A public decision will be deferred until next week.

CONGRESS

SENATE PROCEEDINGS. WASHINGTON, D. C., May 14.—A bill was reported favorably for the creation of public buildings at Hannibal, Mo.; Detroit, Mich.; and Council Bluffs, Iowa.

The bill to extend the bonded period of whisky was taken up and Senator Beck opened debate.

Senator Morrill followed Beck with a prepared speech to show that Secretary Folger was justified in his conclusions against extending the bonded period, but said the bill would undoubtedly pass in a modified form.

Senator Bayard said the subcommittee had prepared a substitute which would be reported to-morrow. It is understood it extends and limits the bonded period five years.

Senator Windom said that when the bill came before the senate he would attempt to show what he now believed, that all fraudulent transactions before congress during the last twenty-five years had not altogether opened a wide door for swindling the government as the bill under discussion. After executive session senate at 6:55 p. m. adjourned.

HOUSE PROCEEDINGS.

Mr. Robinson, (N. Y.) offered a resolution requesting the president if any American citizens had offered Irish-American prisoners money to accept release on condition of leaving the country. Referred.

Bliss, (N. Y.) introduced a bill for the sale of the Brooklyn navy yard. A bill to confirm title to the heirs of Francis Salagar was taken up and considered, but was rejected on the ground that the amount of money involved was too much to allow it to pass in such manner. Present action on this bill prevented consideration

tion of the McGarrhan claim, which was expected to be called up to-day. A bill was passed accepting 20,000 volumes of books donated by Dr. Toner, of Washington, to the congressional library.

A resolution to print additional copies of the Record of the Rebellion for distribution to public libraries was defeated. House then adjourned.

Cable States.

National Associated Press. New York, May 15.—Notice is given by the direct Cable Company, 16 Broad street, that on and after Monday next, the 22d inst., the rate for dispatches to and from Great Britain, Ireland and France, will be 50 cents per word. The direct cable has earned the confidence of the business public by the promptness and accuracy with which its business is handled. This is the best shown in the enormous increase of its business. The rate above given applies solely to commercial business and no change will be made in the rates for press dispatches.

Singular Death.

National Associated Press. New York, May 15.—The death of Allen J. Cumming, aged forty-five years, was from the most singular cause. He picked his thumb on a thorn on April 24th. Erysipelas set in, and blood poisoning resulted. He died Friday in great pain.

Ex-Judge Given dropped dead at his residence in Greensburg this afternoon. Miss Maggie Seim attempted suicide by drowning in the Youngs Bay river at McKeesport this evening, but was rescued.

Sunday Closing.

National Associated Press. COLUMBUS, O., May 15.—A law and order meeting was held at the city hall to-night and resolutions adopted declaring that the Sunday law should be supported and appointing a committee to secure its enforcement.

Plugging a Preacher.

National Associated Press. ST. LOUIS, May 15.—Dr. Geo. A. Lofth, pastor of the fashionable Third Baptist church, started Saturday for a southern trip, returning much sooner than expected with the appearance of having encountered a cyclone. He was learned from train men that he got drunk when 100 miles out and attempted to hug a lady and made an insulting proposal to her. The passengers knocked him under the seat and he took the first train back. He was from Memphis a year since and will be tried by the church.

A Brown Study.

National Associated Press. New York, May 15.—A mass meeting of printers was held at Cooper Union this evening to protest against the low rate of wages paid by the city printer, Martin P. Brown. After several speakers addressed the meeting, resolutions were adopted denouncing the low rate of wages paid by Brown and pledging support to the union men on a strike.

Political Prosecution.

National Associated Press. New York, May 15.—The case of Gen. Newton Martin Curtis, who has been reindicted for having violated the law by collecting money from office holders to be used for political purposes, he at the time of collecting such assessments being special agent, was taken up in the United States criminal court to-day. Counsel for Curtis pleaded that there was no authority under which the indictment could be found, congress being debarred by the constitution from legislating on the subject. Argument will be continued to-morrow.

The Farmers' For.

National Associated Press. SPRINGFIELD, Ill., May 15.—Discomfiting reports reach the state department of agriculture concerning the depredations of the army worm in wheat in Union county. In some localities in that county the worms have entirely stripped the wheat off the blades and is now at work on the heads. The fault has suffered most, not being so far advanced as some others. It is stated that in many places the young berry itself has been consumed, and unless the depredations can be arrested, great loss is inevitable.

CINCINNATI, May 15.—Two weeks' continuous rainy weather has greatly delayed corn planting in Ohio, Indiana and Kentucky. Farmers are much discouraged.

Give Him a Chromo.

National Associated Press. ST. LOUIS, May 15.—Prof. Wm. Fanning, recently from Cincinnati and Chicago, brought a lot of paintings here for sale, and when a severely critical article appeared in The Chronicle, he alleges that the sale was prevented. He now commences suit for \$15,000 damages against The Chronicle and Wm. Marple, alleging a conspiracy among the St. Louis artists to injure his business. The affair creates great consternation in art circles.

HEADLIGHT GLEAMS.

Which Cast a Radiant Pathway from Omaha to Denver.

Railroad Items Gathered by a Bee Reporter.

The B. & M. railroad has for about eight months been pushing its extension to Denver with wonderful enterprise and now it is in a fair way to completion.

In the month of August last year work was commenced at the west line of Red Willow county, Nebraska, a distance of 247 miles from Denver, and now it is announced that the extension will be completed the last week in May and will be ready to carry freight business by June 1st.

Owing to the company having some new sleepers and day coaches made expressly for this extension, the passenger trains will not be run until July 1st, when everything will be finally completed.

The construction of the extension has taken 232 working days, an average of over a mile a day and very little time has been lost during this work.

The B. & M. railroad company have shown unusual enterprise in the carrying out of this great enterprise and when the short time is taken into consideration it must be admitted that the feat will stand foremost among the instances of remarkable railroad building of the age.

When the line is opened a lively time may be anticipated, and it is the intention of the company to run some excursions to Denver, which will no doubt be found a great convenience to the traveling public.

PAST TIME.

The Union Pacific managers are tickled over the runs made by two of their trains since Saturday last. The Denver train which was held in Omaha three hours and ten minutes over time for the Barrett party, arrived at North Platte only forty-five minutes late, and of course went into Denver on time. They could have done still better with ease, they say. This shows the ability of the road to shorten the schedule time of not only this but overland trains several hours, and this will probably be done in the next sixty days. The Denver run can easily be made in fifteen hours.

Paymaster Joselyn's train left Omaha at 5:20 a. m. yesterday, made the run to Columbus, ninety-one miles, in exactly two hours and a-half, including stops.

NATIONAL MEDICAL ASSOCIATION. The Sioux City route has arranged to carry delegates having certificates from the societies of the state medical societies to St. Paul and return at two cents per mile each way, to attend the meeting of the National Medical Association, which meets in St. Paul the first Tuesday in June. These tickets will be on sale at Council Bluffs and all principal points on the Sioux City & Pacific railroad in Nebraska and Iowa. As this is the only through train line to St. Paul now equipped with elegant new Pullman palace sleeping cars on evening trains north every day in the week it is expected a crowd will go. Those wishing to procure sleeping cars should give all possible notice ahead so extra accommodations can be furnished. It would be better if state or local societies would take action in this matter and go in a body. This will enable the road, if notified in time, to get extra sleeping car accommodations. As there will be about one thousand medical gentlemen in attendance coming from all sections of the country, from New York to California, it will have great interests for members of the profession.

Gladstone Introduces His Bill to Wipe Out Arrears of Rent.

The Irish Members Apparently Pleased With the Proposed Reforms.

A Few Canadian Facts.

BACKING THE KHEDIVA.

LONDON, May 14.—In the house of lords this afternoon Earl Granville, foreign secretary, said the government has pursued the same policy in regard to Egypt as previously announced, which was to maintain the regime of Tewka Pasha, the Khedive. The speaker further said England and France consider the maintenance of the Khedive's authority as the only possible guarantee for maintenance of order and development and prosperity of the country, that the two governments are closely associated in a determination to ward off by their united efforts all causes of internal and external complication, which might menace the regime they have established in Egypt. He concluded by announcing that other powers were in accord with them.

HOME RULE IN EGYPT. CONSTANTINOPLE, May 15.—The state of affairs in Egypt grows worse. The Porte sent a telegram to the Khedive's ministry at Cairo, denouncing the violation of the constitution and expressing the necessity of their adopting a course that will promote tranquility. The ministry will pay little to the Porte's telegram, as they are bent on bringing absolute home rule.

THE PORTE'S PROTEST.

CONSTANTINOPLE, May 15.—The Porte has sent a circular to the powers, protesting against the dispatch of foreign war vessels to Alexandria and claiming the sole right of intervention in Egyptian affairs. The Sultan is said to be prepared to maintain status quo in that country.

GLADSTONE'S RELIEF BILL.

LONDON, May 15.—In the house of commons this evening Mr. Gladstone introduced his Irish arrears of rent bill. It provides that either tenant or landlord can make application to the land commissioner to clear arrears of rent. The measure is not to operate above twenty pounds rental under the Griffith valuation. The tenant must pay a year's rent from November, 1880, to November 1881, and must give proof before a competent tribunal of his inability to pay other arrears. Assistance is not to exceed one year's rent or one half the amount due. The total amount of arrears for compensation of landlords is to be drawn from the surplus of the Irish church fund and failing in that from the national consolidated funds. The arrears are to be extended to June 20th, 1883. Irish church fund is calculated to yield \$1,500,000, while application for clearance of arrears of rent, it is estimated will amount to over \$3,000,000. The reading of the bill was received throughout with cheers from the Irish members.

THE QUEEN CONDOLES.

LONDON, May 16.—The queen has written Miss Burke, daughter of the late Under Secretary Burke, a very sympathetic letter, condoling with her over the recent murder of her father.

CANADIAN MATTERS.

QUEBEC, May 15.—The provincial treasurer delivered his budget in the house to-night. The principal point of it is a measure for consolidation of the floating debt of the province by the issue of \$3,000,000 of 5 per cent. debentures to be floated in the province.

A GOVERNMENT ROAD.

OTTAWA, Ont., May 15.—In parliament to-day the minister of railways brought in a bill for all railways to be subsidized as an air line from river De Loup to Edmondson, New Brunswick, bringing St. John 158 miles nearer Quebec and Montreal than by the present route, it making distance from Quebec to Liverpool, via St. John, N. B., as short as Portland, thus making St. John as a winter port of the dominion compete on equal terms with Portland.

Funeral Obsequies.

The funeral of Mary Purcell, daughter of Michael Purcell, of this city, took place on Sunday afternoon from St. Philomena's Cathedral, and was largely attended.

It had been delayed to wait the arrival of a brother of the deceased, Mr. J. E. Purcell, who resides at Orden. The funeral was conducted by Mr. Charles Rowe, and was very beautiful, the interment taking place at the holy sepulchre.

The parents of the deceased desire through THE BEE to return their sincere thanks to those who rendered them a assistance and sympathy during their bereavement. They would especially mention Father English and the Cathedral choir, as well as all the neighbors, for whose kindly services they feel much indebted.
