

The Omaha Bee.

Published every morning, except Sunday. The Omaha Bee is published every Wednesday. TERMS BY MAIL—One Year, \$10.00 Three Months, \$3.00 Six Months, \$5.00 One Month, \$1.00

THE WEEKLY BEE, published every Wednesday. TERMS POST PAID—One Year, \$2.00 Three Months, \$1.00 Six Months, \$1.50

The BEE PUBLISHING CO., Props. E. ROSEWATER, Editor.

NOTICE TO NEWSDEALERS. The publishers of THE BEE have made arrangements with the American News Company to supply News Dispatches in Illinois, Iowa, Nebraska, Wyoming and Utah.

The ground continues to drop from under Gaithe. Twenty-seven days of life alone remain for the cowardly assassin of President Garfield.

HORATIO SEYMOUR is said not to look favorably upon the candidacy of S. J. Tilden. No one but Mr. Tilden is giving the matter a moment's consideration.

The bosses may discover that loyalty to principle is dearer to the honest voter than loyalty to party, when party no longer serves the ends for which it was organized.

Nothing shows so well the modesty of the editorial profession as the fact that four editors have refused congressional nominations this year.

Both employers and workmen will find that in the long run it is more profitable to arbitrate than to strike. England learned the doctrine ten years ago, and in America the school of a little experience is sure to teach the same lesson.

The senate yesterday passed the army appropriation bill with a clause making retirement compulsory at 64 years, providing that the general of the army, when retired, shall be retired on full pay.

The Methodist ministers of Chicago have adopted a resolution that summer vacations are not necessary for the clergy. Reports throw no light as to whether this is intended for a free puff for Chicago as a delightful summer resort or whether it is particularly unsafe to leave the sheep in that city without a shepherd even in dog days.

DEPARTMENT statistics report that the wages of farm laborers since 1879 have increased 24 per cent. in the eastern states, 14 per cent. in the western states and 13 per cent. in the southern states.

It looks as if congress will remain in session until the first of July at least. Four regular appropriation bills are still to be acted on, and the internal revenue bill remains to be considered.

This Union Pacific managers have thoughtfully and generously assessed their employees 50 cents each per month for the establishment of a hospital fund for the benefit of the men.

JOHN ROACH is never so patriotic as when he smokes a new subsidy. Like Col. Sellaes, he is in favor of "the old flag and an appropriation" for the Chester iron works.

Some years ago the Baltimore & Ohio railroad inaugurated a system of benefit insurance for their employees on the assessment plan. It differed from the head tax of the Union Pacific in being voluntary.

PROVE UP OR RETRACT.

ROSEWATER says he employed Geo. W. Doane and J. L. Webster to aid him in enforcing a contract with the Union Pacific. If so, why did not Doane pay the \$1,000 to Rosewater's attorneys?

Mr. Webster is good enough authority on this subject, and we ask the Republican to procure a statement from him to sustain its malicious charge.

THE DENSITY OF POPULATION.

With a million immigrants a year crowding to our shores the fear is often expressed that before the close of the present century the United States will suffer from as great an overpopulation as is now complained of in a number of the smaller countries of Europe.

There were 9,945,916 families distributed in 8,955,812 dwellings. Placing the area of the United States at 2,900,170 square miles, which does not include the Indian territory and various unorganized tracts.

ACCIDENTAL JOTTINGS.

Yankton hopes to have a telephone system soon. The inter-chronicle of May 27 was printed on a good quality of wrapping paper.

The internal revenue office reports that the past year has added over 800 special tax-payers to the list of taxpayers in Dakota.

There are between 1,500 and 1,600 Indians under the jurisdiction of the Lower Agency. Last year they broke up 800 acres of land.

Lydia E. Pinkham's Vegetable Compound.

For all those Painful Complaints and Weaknesses so common to our best female population. A Medicine for Women. Invented by a Woman.

The Greatest Medical Discovery since the Dawn of History. It cures the dropping of the uterus, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh rosy tinge of youth and early summer time.

It removes fatness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use.

It is a medicine for women. Invented by a woman. Prepared by a woman. It cures the dropping of the uterus, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh rosy tinge of youth and early summer time.
