

The Daily Bee.

OMAHA.

Friday Morning, June 9.

Weather Report.

(The following observations are taken at the same moment of time at all the stations named.)

Table with columns: STATIONS, Barometer, Thermometer, Wind, Clouds, etc. Rows include Des Moines, Omaha, Lincoln, etc.

LOCAL BRIEFS.

Col. Sells has been elected manager of the Union Pacific base ball club. We notice that A. Cruickshank & Co. have put on a very handsome new van. The present grading of the High school grounds will make them visible from the street. Four trains of six, aggregating fifty-seven cars, passed through Omaha yesterday from the Pacific coast. The festival to be held this week at the parlors of the Presbyterian church has been postponed until fall. The case of Fredericka Gest, charged with assaulting another woman, was set for trial yesterday afternoon. A colored man yesterday complained against the proprietor of the antiquarian book store, charging him with assault. There were two arrests Wednesday for disturbance of the peace, but both parties were discharged, one on account of sickness. In the district court Wednesday the grand jury reported indictments against Henry Donahue, for burglary and larceny and against John Pierson for robbery. The board of education has re-elected the committee to examine teachers, which consists of Messrs. Bush, Bloom and Gilbert. The committee will sit on July 5th, 6th and 7th. It is stated that about twenty prisoners are held at work at the court house excavation, and that they are doing well enough to satisfy Contractor Coats with the experiment. A dispatch has been received from Fremont, inviting Col. E. F. Smythe and the Omaha club to be present and participate in the celebration of July 4th. In the report of council proceedings Wednesday the name of that worthy representative from the First ward, Mr. C. G. Thrane, was unintentionally omitted in the vote on the increase of pay for city labor to \$2 per day. Mr. Thrane voted against the resolution. A party of young people, mostly members of the Good Templar lodge, held a picnic at Prie's lake Wednesday. About twenty couples were present, and the day was passed in the pleasant manner possible, the lake and grove being in excellent condition and the day being all that the most particular could desire. There is a good deal of complaint about visitors to the park plucking and carrying off roses, etc. This is something that should not be allowed at all. It cost the city enough to get the park in good shape that all these natural ornaments should be left alone. The park keeper should look after this matter. Leave of absence for fifteen days is granted Captain John B. Babcock, Fifth cavalry. The examination of teachers for the Omaha city schools will take place on the 5th, 6th and 7th of July. That little Bavarian band favored THE BEE office with another delightful serenade about midnight last night. They play in wonderful harmony and as if the music were produced by one man. This band has created quite a sensation in Omaha by their splendid playing. In the old, long standing case of McCormick vs. Rieve, the jury yesterday returned a verdict, after eighteen hours deliberation for Rieve, giving him \$350 and 7 per cent interest from the date of the commencement of the suit, which was early in 1878. Last evening the famous little Bavarian band gave Julius Thiele a benefit in Tivoli Gardens. There was music and dancing at fresco from eight till shortly before midnight, and quite a number of couples took part. The affair was in every sense an enjoyable one. The Woman's Christian Temperance Union held a very pleasant session yesterday afternoon at the First M. E. church. The different phases of the temperance question were discussed and opinions flashed from one to another in the most interesting manner. The meetings will be held every Thursday afternoon at 4 p. m. at the same place and all ladies interested in this noble work are most cordially invited to be present. THE BEE will shortly issue a carefully prepared index of principal interests of Omaha, to be circulated throughout all parts of the country. This unique publication will offer unusual advantages to our business and professional men to widely extend their business. The agent of THE BEE will call upon you and explain the nature of this novel enterprise, and we trust our live business men will give it their hearty support. Mrs. C. M. Moore.

A NEW REVELATION.

Remarkable Trip of a Sack of Jay Gould's Gold.

Flashing Monopoly Money in the Faces of Spirits.

Omaha Merchants Denied a Readjustment of Rates.

Important Missouri Pacific and Other Railway News.

The profits added in the recent charge made against Lieut. Gov. Carns and the Union Pacific railway of an attempt to buy up the chairman of the railroad committee in the house may not have struck the popular chord, but a BEE reporter yesterday came unexpectedly into possession of some interesting facts which may throw a little light on the matter, and which were obtained from an authority than which none better can be produced. About the time in question, when the five thousand dollars was wanted at the capital, the regular U. P. train leaving this city went out with orders to run to some station, we believe Wahoo, and left this city a few minutes ahead of regular leaving time. On this train was, among other passengers, Mr. Horace Newman, special agent of the road with a large sack filled with gold coin, which our informant was told amounted to \$5,000. At Wahoo the train was met by a locomotive which had been run up from Lincoln "light," that is without any cars attached. Here Mr. Newman and his BAG OF GOLD was transferred to the engine which at once pulled out for Lincoln at the rate of sixty miles an hour, which time they actually made. This is the little circumstance which would go to confirm the charge of bribery being attempted, and while merely circumstantial evidence, would go a good way with a jury. On the same evening there was a grand exhibition at the opera house by some great spiritual medium, ANNIE EVA FAY, probably, at which it will be remembered Church Howe and two other prominent politicians were appointed a committee to test the medium's honesty. During the performance Church Howe offered to bet \$500 that the show, or some part of it, was a fraud, and our informant, who was present, saw him pull out of his pocket five or six hundred dollars in bright new double eagles. This, he says, came out of the sack of U. P. gold which the special engine WHIRLED OVER THE LINE to the state capital to buy up a legislator, and which, failing to blind his eyes, was used to bluff the traveling clairvoyant. This little revelation will prove interesting reading to those who have no taste for reading affidavits or think it as easy to swear to a lie as to the truth. ANNUAL ELECTION. The annual meeting and election of officers took place during the presence of the Missouri Pacific officials in Omaha Wednesday at which directors were elected as follows: Jay Gould, Russell Sage, A. A. Talma, John L. Webster, F. R. Drake, Thos. J. Portia. The following officers were elected: President—A. A. Talma. Vice-President—T. J. Portia. Secretary—F. R. Drake. Under the recent consolidation of the Nebraska line with the main line, Omaha is the northern terminus of the Missouri Pacific and St. Louis the southern. OMAHA MERCHANTS REFUSED. A week or ten days ago a delegation of Omaha merchants waited upon the officers of roads comprised in the Iowa Trunk-Line association, in Chicago, and presented their grievances. One matter for complaint was the fact that cheaper rates were given shippers from Chicago to Lincoln and Fremont, Neb., than from Chicago to Omaha, and that in consequence of this difference they were unable to sell goods in the interior of their own state. They asked the roads to grant the wholesale dealers of Omaha special rates on small as well as large shipments of any class anywhere. The complaints were taken under consideration and decision reserved. Commissioner Daniels, by order of the lines in the association, has just forwarded a letter to the Omaha merchants. In it he states that the complaints have been carefully examined, and that some of the matters complained of have been corrected. Lincoln, Fremont, and other towns have been embraced in the pool, and, as a consequence, the rates have been so equalized as to overcome any discrimination against Omaha. The petition of the merchants for special rates is denied, on the ground that no concessions are granted shippers of any class anywhere. THE BURLINGTON IN DENVER. Since the arrival of the Burlington officials in Denver a reporter interviewed the tactful Mr. Potter, with the following result: "Have you decided whether you will out on the present rates or not?" "That is a matter which we have not decided on, but I do not believe it would be in the interest of the people here to have any cut in rates." "Then you will probably not cut rates?" "No; I am inclined to think not." "Is there any probability of your occupying the offices in the Union depot left vacant by the Rio Grande officials?" "No; I do not expect that we will need them." "When do you expect to have the road in full running order?" "By July. We will not have our equipment before then. This is somewhat earlier than we expected." "Are your stations built all the way through?" "All but through the fifty miles east of here. Our dining-houses are not completed, however. When you do not mean to run dining-cars?" "No; there is not sufficient first-class travel for that. It requires a large amount of first-class travel to make dining-cars profitable, the second-class preferring the dining-house plan. The latter is quite a successful where properly managed, sufficient time being given, and other details attended to." "Do you intend to build any shops here?" "No, but we will have repair-shops here. These will be built at once, however." ROCK ISLAND ELECTION. At the annual meeting of the Rock Island & Pacific road yesterday the following directors were elected: David Down, Sidney Dillon, Hugh Riddle, R. R. Cable and H. R. Bishop. The latter takes the place of W. L. Scott, of the Erie. The annual report shows the net earnings to be \$5,943,781, an increase of \$618,000 over last year's earnings. A union meeting of the Brotherhood of Locomotive Engineers will be held at Waco, Minn., June 25, 1882, at 10 o'clock a. m., under the auspices of Waco Division No. 9. The G. C. E. will be present and deliver an address. All members in good standing are invited to attend. Arrangements have been made to run a special train from Sleepy Eye to Winona and return, leaving Sleepy Eye about 12:30 a. m. Sunday, and leaving Winona to return at 6 p. m. By order of committee. THE U. P. HEAD TAX. St. Paul Free Press: The U. P. R. Co. has levied an assessment upon all employees of the road of fifty cents a month, for the purpose of establishing a hospital fund for their benefit. It dates from the first of June. In our opinion it would look better for the big guns of the road to establish a fund, rather than to take it from poor men. FUN IN GENERAL. The Broom Drill to Night—A Challenge—The Picnic. Boyd's opera house was filled, so far as the parquet and dress circle were concerned, last night by a refined and not over critical audience, on the occasion of the repetition of the "Broom Drill" and the accompanying programme, arranged by the young ladies of Trinity church. The programme was varied and full of interest, the literary efforts, especially that of Mrs. Col. J. J. Dickey, being very fine. The principal feature of the evening was, of course, the appearance of the broom brigade. This consisted of a uniform young ladies, dressed in a uniform of white dress and hosiery, white apron with bibs, white cap and high cut shoes. Each carried a new broom bound about the brush with a scarlet ribbon, and a dust pan swinging across the right of the waist as a cartridge box. The captain, a graceful and captivating young lady carried a fine fly brush of peacock's feathers, and issued her commands in a voice that was sweet enough to insure obedience. She put on as many flourishes as a regular officer, and her feet kept time to the inspiring music of the Musical Union orchestra. The brigade marched and countermarched, went through all the difficult evolutions laid down in the tactics and the manual forms to a degree not known by the veterans. They were greeted with frequent rounds of applause, especially in the firing practice and the hollow square. It was a charming exhibition, and there was not a young man in the audience who would not gladly have been made a prisoner of war by these fair Amazons. A joint meeting of the land league, was held at Koeny's Hall Wednesday night to consider the matter of the Fourth of July picnic at Haskell's park. A member stated that Mr. Haskell was making elaborate and extensive improvements on his park, comprising a very convenient and well ventilated dining hall, 80x30, kitchen, closets, etc., attached, cloak and hat rooms also arranged at a convenient distance from the dancing platform. All these new improvements are enclosed by a close board fence, eight feet high, and occupy upward of a acre of ground in the southeast corner of the park. A splendid well of good water is also within this inclosure. A resolution was put and carried that the ladies land league hold a meeting in the U. O. library rooms, Creighton block at 3 o'clock next Sunday and that the committee of arrangements of the gentlemen's land league be invited to attend to advise and counsel as to the best means of making the picnic a success. After a very generous distribution of tickets for sale for the picnic the meeting adjourned on two weeks. AN OPEN WAGER. Frank McKee, agent for Haverly's Consolidated Mastodonts, desires to make a slight correction as regards the wager made by him as published in the papers yesterday. He says that he will wager \$100 that Haverly's Consolidated Mastodonts are superior in every respect to any mineral organization that ever visited Omaha. He does not care to specify Leavitt's Giganteus, because he says they do not bear the slightest comparison to his own company's Mastodonts. This wager to be decided by any competent critic of any daily paper in Omaha, the critic to be selected by the party who accepts the wager. PETULANT PHYSICIANS. The Culmination of a Long Standing Quarrel Between the Nebraska Doctors. A quarrel has been going on in the medical profession in Nebraska for twelve years past, in which a few members in Omaha are said to have attempted to control the interests of the state medical society by exerting their influence in a prejudicial way against leading members of the state society. This quarrel culminated in charges being made against Doctors Mercer and Danies, who for several years have been managing what was called the surgical institute

HIT WITH A HATCHET.

An Attempted Assassination Yesterday Afternoon.

A Case Which the Grand Jury will Investigate.

About 2 o'clock yesterday afternoon an outrage was committed on California street which, if as bad as it is described by the witnesses, was one of the most brutal deeds ever committed in the city. Mr. George Wilcox is the driver of an express wagon, is old and gray haired. John Scott is a large, powerfully built man of great strength of body if not of mind. It is claimed that Mr. Wilcox, on Wednesday, gave Scott's boy a whipping and that the subsequent attack on him was in retaliation of this. Wilcox was driving down the street between Fifteenth and Sixteenth, when Scott came out of his house with a hatchet in his hand. He ran up the sidewalk until Wilcox had driven by, and then running up behind him jumped into the wagon and, advancing to the driver, struck him across the back of the neck with the edge of the hatchet, which must have been very dull, indeed, or it would have killed him. Wilcox fell forward across the dashboard, and Scott, picking up the seat with both hands, dashed it down on his prostrate form, with the exclamation, "G—d— you, I'll kill you anyway, if I have to get an axe to do it." A couple of women rushed out and one threw herself between Scott and his victim to prevent his completing his work, while the other held the horse to prevent his running away. At this juncture several men arrived, among them Mr. John H. Butler, the watchman at the BEE office, whose daughter had witnessed the occurrence and woke him up to interfere with the work of Scott, who seemed bent on completing his bloody work. Scott was seen coming back from his house, where he had gone as if to get an axe to carry out his threat, and the women exclaimed that he would kill Wilcox. Mr. Butler, however, quieted their fears by assuring them that he would take a hand in the next row, and Scott, brought to his senses by the presence of the crowd, desisted from any further demonstrations. Mr. Butler accompanied Wilcox to the city court where a complaint was made charging Scott simply with assault and battery, on which accusation he was held for an appearance to-day. His injuries were quite severe and he bled a good deal but was able to proceed home after Scott's arrest. Steps have been taken to have the case thoroughly investigated by the grand jury as it is pronounced by those who saw it as a brutal and cowardly attempt at assassination, and Mr. Scott may yet go over the road for his afternoons performance. SERIOUS RUNAWAYS. A Bad One on Burt Street—Church Howe the Victim of Another. A terrible runaway took place last evening on California street, which resulted in the serious injury of a little nine year old daughter of Mr. J. B. Detwiler, the carpet man. It appears that the team was hitched and standing in front of his house on Twenty-second and California streets, when the horses took fright at something and started off on the run. Mr. Detwiler's two little girls, aged 9 and 11, were in the carriage, and were carried along with the outfit. The horses dashed down the hill at a terrific speed, the little girls screaming and crying, and one along the street being paralyzed with the sight. After running over four blocks, dashing across the crossings, and shaking things up in a lively manner, the expected crisis came. At the corner of Eighteenth and California the carriage was overturned and the children thrown out, the youngest being quite badly hurt, but at the late hour when the news was spread, the extent of the injuries remained unknown. The team was captured before they had gone any further. CHURCH HOWE. Mr. Church Howe registered at the Withnell last night and carried one arm in a sling, and a decidedly stiff neck. Inquiry developed the fact that before leaving his home, North Abram, for Omaha, the team behind which he was riding ran away, the buggy was upset and he was hurt to the extent mentioned. His injuries are not dangerous and he was able to be about on the street as usual. FESTIVE ODYSSEYS. The Colored Odd Fellows Give a Grand Ball at Standard Hall. Last evening the Unity Social club gave a grand ball at Standard Hall for the benefit of the colored Odd Fellows lodge No. 2226. There was a very large attendance, and a very long and attractive programme was carried out. Prof. Steinhauser's ubiquitous and talented orchestra discoursed some lively and soul inspiring music, and the dancing was kept up in lively style. Every one present were highly delighted with the way in which things had been managed, and the reporter was informed by a number of the guests that they desired their thanks to be tendered through THE BEE to Messrs. Thomas W. Fleming, John H. Moore, William Scott, North Abram and G. C. Carr, the committee in charge of Omaha, the committee on arrangements, for the efficient way in which they had performed their duties. They also desired to thank the ladies who had superintended the refreshment department so excellently. The names of these ladies are Mrs. Laura Cary, Mrs. Mary Scott, Mrs. Libby Rector, Mrs. Frances Washington and Mrs. Alice Fleming. Mr. J. H. Curry, our well-known barber, made a very efficient treasurer. The receipts from the entertainment

THE NEBRASKA STATE MEDICAL SOCIETY.

The Nebraska delegation victorious Judicial council has declared that the charges preferred by Drs. Peck, Peabody, Obocking, Neville, and others, to be unwarranted and without cause. The entire delegation admitted. (Signed.) H. V. COFFMAN, R. V. MOORE, L. J. ARBETT. This settles the long and bitterly fought question and Dr. Mercer's and Danies' standing in the profession in their favor in the national society. The Nebraska state medical society protested against the admittance of Dr. Neville in the national medical society and the following dispatch was received to-day bearing upon the subject: ST. PAUL, Minn., June 8. To Dr. Mercer, Omaha. Judicial council just reported protest sustained. Neville not admitted. (Signed.) MOORE, II. BRAIN BUILDERS. The Guardians of Our Educational Interests in Council. The New School Houses to be Built in South Omaha. An adjourned meeting of the board of education was held at their rooms in Williams' block, last evening at 8 o'clock. There were present Messrs. Anderson, Conroy, Ferguson, Points, McShane and President Long. The committee on claims reported favorably on several bills and the report was adopted, and the president and secretary authorized to draw warrants for the several amounts. Mr. Anderson objected to the item of the secretary's salary, but all the rest voted for it. Plans for the addition to the Hartman addition school house and the new house at Eleventh and Center streets, furnished by Messrs. A. T. Large, Cleves Bros., Dufrens and Mendelsson, and Mr. Driscoll, were submitted for the inspection of members. Mr. Anderson moved that the architect be requested to furnish specifications, with plans, and that advertisements be inserted in the daily papers for one week for bids, the board reserving the right to reject any and all of them. Mr. Conroy called for a report from the special committee appointed in this connection. The chairman, Mr. Long, made a verbal report, stating that he was instructed by the committee to recommend the acceptance of the plans submitted by Cleves Bros. for both buildings. The report was adopted. The subject of heating apparatus was discussed in which steam seemed to be preferred by the majority of the board. In response to a question by Mr. McShane it was stated that the cost of fuel at the various schools for the past year varied from \$57 to \$95 per month for each house and the cause of the great variation in cost was talked about at length. The subjects of the new school buildings being referred to, it was ascertained that the entire cost of the Eleventh and Center street house was \$25,000, and of the addition to the Hartman school, \$17,000. The lots have cost \$2,000 and the appropriation was \$15,000, from which it would appear there will be a deficiency of about \$2,500. The new buildings will each contain four rooms, and the seating capacity will be quite large. The following was adopted: Resolved, That the secretary be and is hereby instructed to notify the city council that the following is the estimate of the levy required for school purposes for the ensuing year: Interest on high school bonds, \$15,000; sinking funds, \$15,000; school sites and extra buildings, \$10,000; total, \$40,000. Adopted. Mr. Anderson raising the question of the legality of the manner in which the work on the high school grounds was being carried on, Mr. Conroy read the contract and stated that it was guaranteed legal by Judge Savage. Messrs. Points and Anderson were appointed a committee, with Superintendent Lane to arrange the details and method of the forthcoming examinations. Adjourned to 8 p. m., June 26th. THE DETECTIVE'S DENIAL. Mr. Hazen and Mrs. Lowe Say a Word for Themselves. Mr. L. P. Hazen, concerning whom a great deal has been published by the press throughout the state, was in the city Wednesday and handed us the following cards for publication. HAZEN'S CARD. To the Editor of THE BEE. My attention was called to that article in your issue of yesterday which was copied from the Grand Island Independent. Allow me to say that it was in the main a gross exaggeration. I did go down there for a lady and brought her back with me. As for her weeping, as the article stated, it is a falsehood, and the statement that I swindled the county out of \$600 is another, as I can prove. In the faithful discharge of my duties I have of necessity made a great many enemies and they are now trying to ruin me. L. P. HAZEN. MRS. LOWE'S LETTER. To the Editor of THE BEE. Please say for me that that article which you copied from the Grand Island Independent was an exaggeration. I was greatly surprised to see Mr. Hazen so soon but I came back willingly, and as to the crying that was all a falsehood, reports to the contrary notwithstanding. I was up there on a matter of business which it is not necessary I should explain. Respectfully, Mrs. F. M. Lowe.

SLAVEN'S YOSEMITE COLOGNE.

Made from the wild flowers of the FAR FAMED YOSEMITE VALLEY, it is the most fragrant of perfumes. Manufactured by H. B. Slaven, San Francisco. For sale in Omaha by W. J. Whitehouse and Kennard Bros., & Co.
