

The Daily Bee. OMAHA. Saturday Morning, June 10.

Weather Report. (The following observations are taken at the same moment of time at all the stations named.)

A STATELY STRUCTURE. The Marble Palace Now Going Up in the "Lone Star" State.

Planned by the Architect of the Omaha Court House. The Bronze Figure and the Blazing Star.

A Fairly-Like Edifice and a Spartan Stronghold. Means of Protecting the Texas Treasure Box.

A Talk With the Man Who Planned the Great Work. THE BEE yesterday chronicled the arrival of Mr. E. E. Myers, the architect of the new Douglas county court house and last evening the reporter had the pleasure of meeting the gentleman at the Withnell house, where he is stopping.

THE ARCHITECT AND HIS FIELD. Mr. Myers is a citizen of Detroit, Michigan, and was engaged in the construction of the capitol during the war of the rebellion. He is in the prime of life, tall, powerfully built, with iron grey hair and moustache, and would easily be taken for a retired officer of the regular army.

THE CROWNING WORK OF HIS LIFE, however, is the new capitol of the "Lone Star" state, Texas. This magnificent structure will be the second largest building in size in the world, the capitol at Washington being the largest.

AN ENORMOUS LAND GRANT of 3,000,000 acres of land situated in the northern part of Texas and adjoining the Indian Territory. The tract thus ceded is 197 miles long and 52 miles wide, and is almost as large as the state of Indiana, and many times the size of some of our eastern states.

A MUCH BETTER THING and intend to retain the property in their own hands. They are the largest individual land owners in the world, and strange to say, the people of the state of Texas do not seem to regret the giving away of so large a tract of their territory. The grant embraces SEVERAL COUNTIES, which, although laid out, had no officers nor organized local government.

STRONG POLITICAL POWER. This land is not only adapted to grazing and cultivation, but it contains some very valuable mines; among others several quarries of white marble said to be as fine as any in the world, and in fact Texas has an almost inexhaustible supply of this stone, which they are enabled to use in erecting the public buildings, at a less cost than is paid here for ordinary material.

THE LUTHERAN young people's society was held last night at the house of Mrs. Althaus, Howard street, between Fifteenth and Sixteenth streets. The case of Catherine Tully, charged with beating a son of Frank Benolter, was continued in police court until June 16th.

Kidney Complaint Cured. B. Turner, Rochester, N. Y., writes: "I have been for over a year subject to serious disorder of the kidneys, and often unable to attend to business; I procured your Burdock Blood Bitters and was relieved before the bottle was used. I intend to continue, as I feel confident they will entirely cure me." Price \$1.00. 164w

the transaction of business in the various departments of this GREAT AND GROWING STATE. Electric call bells, telephones, the telegraph and a thousand other means of intercourse between the various rooms in the building will be put in, and most important of all the entire building will be lighted by the electric light, the Brush system being used.

THE BEE yesterday chronicled the arrival of Mr. E. E. Myers, the architect of the new Douglas county court house and last evening the reporter had the pleasure of meeting the gentleman at the Withnell house, where he is stopping.

BLOOD AND BULLETS. A Desperate Encounter Between a Tenderfoot and an Emigrant Agent.

Pokers, Revolvers and Fists Freely Used. One of the Parties Shot Twice and Fatally Wounded.

While the Denver west bound train was lying at the Union Pacific transfer depot last evening, a sensation occurred which probably convinced the timid travelers from the east that they had reached the frontier of civilization.

On the arrival of one of these trains last evening, a man named Charles Van Mason, who was from New York, and who was a rough looking, medium sized and sort of devil may care person walked down the platform to the emigrant house and enquired concerning the time of departure of the emigrant train.

CUPID'S CULMINATION. Mr. Frank Brayton is United to Miss Grace Treloar.

Marriages seem to be exceptionally fashionable in this city just now and it is our pleasing duty to chronicle yet another piece of cupid's handiwork.

On Wednesday morning last Mr. Frank Brayton and Miss Grace Treloar were united in the holy bonds of wedlock at the First M. E. church, Rev. J. Stewart tying the connubial knot.

The bride wore a rich seal brown silk dress, made in the latest and most approved Parisian style, and her lovely jet black hair was adorned with the customary orange blossoms.

A Serious Collision Between a Union Pacific Locomotive and a Street Car.

About 7 o'clock last evening a block-ade of street cars was noticed on lower Ninth street, and upon inquiry as to the cause THE BEE reporter ascertained that there had been an accident on Tenth street crossing at the Union Pacific shop tracks.

It appears that Red Line car No. 2 left the turn table, which is the terminus of their track, in front of John Bell's drug store, with quite a load of passengers, and started on the down grade, the driver endeavoring to make the usual stop before crossing the track.

THE BEE yesterday chronicled the arrival of Mr. E. E. Myers, the architect of the new Douglas county court house and last evening the reporter had the pleasure of meeting the gentleman at the Withnell house, where he is stopping.

CAUTION. J. Hochstrasser and the Brunswick and Balke billiard table company send no agents, repairers or peddlers out through the state, and any one who travels with such pretensions is a fraud, and persons will do well to let him alone.
