

The Omaha Bee.

Published every morning, except Sunday... TERMS BY MAIL... THE WEEKLY BEE, published every Wednesday...

CORRESPONDENCE--All communications relating to News and Editorial matters should be addressed to the Editors of THE BEE.

The BEE PUBLISHING CO., Props. BROSEWATER, Editor.

Meeting of the Republican State Central Committee. The members of the Republican State Central Committee of Nebraska are hereby called to meet at the Commercial Hotel in the city of Lincoln...

PERNINGER and Powers wanted a Fair-field and no favors.

THERE will be no resurrection this fall for dishonest politicians buried under a bad record.

THE Buffalo Express says that hot weather is welcome for one reason, congress can't stand it long, and its members will do less damage at home than in Washington.

EVERY sign of the political times points to the moral that there is no opportunity like the present for parties to scrape off the barnacles which impede their progress.

AT several of the iron mills a frank conference between workmen and iron masters has resulted in a satisfactory compromise.

MR. KELLEY, of Pennsylvania, called Mr. White a raving lunatic, and then burst into a flood of tears.

IT is stated that since the settlement of the contested election cases there is a fair prospect that the house will be able to adjourn by July 4th.

IT isn't so much the dangers of anti-monopoly to their interests as the impositions of demagogues upon the dear people that the corporation editors are afraid of.

BECAUSE THE BEE approves of a place for the sale of meat and vegetables with a view to lowering prices, it is no reason why its editor should advocate the building of a market house that will make the patrons of the market pay interest on a \$200,000 building, with a tall tower and town clock.

OSBORNE's election almost assures a republican majority in the next senate. There are twenty-four senators to be chosen in the coming elections, which occur as follows: Kentucky and Tennessee in August; Arkansas, Maine and Vermont in September; Georgia, Indiana, Iowa, Ohio and West Virginia in October, and the remaining states in November.

ANOTHER telegraph line is to be built, probably for open competition, but really to sell to the highest bidder just as soon as it can satisfy the Western Union that its rivalry is dangerous or embarrassing.

COME DOWN WITH FACTS.

One of Church Howe's organs down in Nemaha county insists that THE BEE must come down with facts to sustain its assertion against corporate monopolies, and especially against railroad cappers.

We will begin by coming down with a few facts concerning the most notorious monopoly capper in the state of Nebraska.

Church Howe started out in life as a saloon bar-tender in the moral state of Massachusetts, and he turned up in Nemaha county as a great temperance reformer. During the last session of the legislature he introduced an amendment to the constitution to prohibit the sale and manufacture of liquor in the state of Nebraska.

Church Howe's infamous career as a capper of the monopolies will form quite an interesting chapter which we will furnish to his Nemaha constituents in due time. Right here we will also add that THE BEE Publishing company is thoroughly responsible.

The Cleveland Leader joins the chorus against the cigarette and quotes the revelation of a Philadelphia tobaccoist relative to the manufacture of these injurious smokers articles. He says that the cigarettes in general are manufactured in this country, principally in New York, and are charged with opium and other adulterations.

While at the head of the grange, Church Howe assumed command of the outs of all parties combined with the democrats in Nemaha county, and had himself elected as an "independent" to the legislature, defeating the regular republican ticket upon promise that he would reform and purify Nebraska politics.

In 1876 Church Howe was an avowed democrat and the chairman of the democratic state central committee. Hon. E. A. Allen went into Nemaha county in person to canvass for Church Howe in order to help Tilden's cause.

THE EXECUTIVE SESSION HUMBLED.

A very sensible and manly proposition, is what the New York Times calls Senator Van Wyck's resolution to consider the nomination of the tariff commission with open doors--a resolution which was, however, solemnly voted down by the senate in that farce of senatorial farces, the executive session.

We venture to say there is not another community in this state that would quietly submit to such an imposition. In the first place there is no valid reason why the work on the new court house should be further delayed.

No one who reads the news daily telegraphed from Washington needs to be told that the executive session has largely outlived its usefulness.

The Cleveland Leader joins the chorus against the cigarette and quotes the revelation of a Philadelphia tobaccoist relative to the manufacture of these injurious smokers articles.

It is due no less to the public than to the senate itself that on important questions the votes of the senators and their reasons for such votes should be known.

At the general election in November, 1880, Douglas county voted \$125,000 in bonds, to defray the expense of building a new county court house.

At the general election in November, 1880, Douglas county voted \$125,000 in bonds, to defray the expense of building a new county court house. Fifty thousand dollars more was voted in bonds last year to enable the commissioners to meet the increased expenses incident to an advance in the price of material and labor.

THE NEW COURT HOUSE.

At the general election in November, 1880, Douglas county voted \$125,000 in bonds, to defray the expense of building a new county court house.

Fifty thousand dollars more was voted in bonds last year to enable the commissioners to meet the increased expenses incident to an advance in the price of material and labor.

Twenty-five thousand dollars of the general fund of the county are held in reserve for the same purpose, making in all two hundred thousand dollars.

After dillydallying for nearly a year, the county commissioners let the contract for the new court house under the plans of Mr. Myers, of Detroit, for a fraction over \$198,000.

The contract requires that the building shall be finished on or before December 31st, 1883, but up to this day the contract has made little or no progress with the work.

His present force consists mainly if not altogether of the gang of vagrants, petty thieves and drunkards that happen to be confined in the county jail whose labor the contractor has hired at fifty cents per day.

What does this mean? Do the commissioners propose to let the contractor proceed at leisure with his convict laborers and take five or ten years for completing this building? Is it true that he only proposes to lay the foundation this year and if so how can he complete the building in 1883?

By the first of July the interest paid on these bonds will aggregate \$7,500 and yet there has not been \$1,500 worth of work done by the contractor.

By the first of July, 1883, the interest will be well over \$1,500 and every year thereafter will add \$7,500.

That is very profitable for the Omaha National bank, but a downright robbery of the tax-payers.

The Omaha National bought the bonds and the proceeds of the bonds remain deposited in their bank.

In other words the county pays the Omaha National \$7,500 a year interest on \$125,000, and the Omaha National loans the \$125,000, at 10 per cent, to their customers.
