CAPITAL NOTES.

THE ASSASSIN.

WASHINGTON, June 26.—J. W. Guitteau has been employed all day containing new evidence of his brother's identity, which he proposes to submit to President Arthur. He has it in the form of printed slips, the matter being sufficient to make a pamphlet of ten pages. One of the letters from which he quotes is from J. H. Noyes, once the head of the Omaha community, written in 1868. In it Noyes says: "I regard him (Guitteau) insane. I prayed for him last night as sincerely as I ever prayed for my own son, now in the insane asylum." In 1868, E. H. Hamilton wrote that he thought Guitteau demented. Another of the letters is from the assassin himself to his father, in which he claims inspiration and asserts he is in the employ of Jesus Christ & Co.

statement at present. She and John will probably visit the asylum to-morrow. It is said to be the intention of both to witness the execution.

Nothing has yet been done in regard to the disposition of Guitteau's corpse. It is thought, however, the jail authorities will deliver it into the hands of his friends if they make any demand for it, but it is doubtful, so it is said, if they will claim it and also doubtful if they will insist on the examination of the brain. While John is trying to prove his brother is insane he believes a post mortem examination of the brain would show it is physically sound.

Guitteau was silent during the day. He spoke very little. He seemed to fully realize his approaching end. Some singular movements on the part of three men who were seen skulking round the jail last evening lead some people to suspect that some violent plot regarding Guitteau is contemplated, but there seems little occasion to fear any violence.

A NEW CABLE. The bill incorporating the Anglo-American Cable company to run lines from Baltimore to Europe was introduced in the senate to-day. It makes Robt. Garrett of the Baltimore & Ohio railroad, N. F. Fitch and J. W. Burrows incorporators.

CENSUS ITEMS. The latest bulletin from the census officials shows the number of males in the United States over 21 years, 12,830,349, of whom 8,270,578 are male and 4,559,771 are female. The number of colored men is 1,487,344, the number of farms is 38,406, number of establishments manufacturing woolen goods 2,684, with 159,000,000 capital and employing 169,000 hands.

THE PRESIDENT AND PARTY have not returned, but are expected to arrive during the night or to-morrow at the latest.

CONFIRMATIONS. The senate in executive session confirmed Francis C. Wetzel collector of customs of St. Augustine, Fla. The nomination of Smith as paymaster general of the navy was discussed at length. No action.

HUBBELL is engaged in writing a reply to Geo. W. Curtis and the attorneys, in which he claims they are evading the issue which they themselves raised. They refuse to take the case to the attorney general, though they proposed that in the original circular.

CONGRESS. SENATE PROCEEDINGS. WASHINGTON, June 26.—Senator Pendleton, in a speech on the resolution instructing a civil service committee to inquire into the attempt to levy assessments for political purposes on government employes, declared Hubbell's circular illegal and contrary to the true spirit of our institutions.

Senator Allison defended the circular as a request for voluntary contributions. In 1880 but 11,000 responded to a similar circular sent to 18,000, and none of the 7,000 were removed.

Senator Allison contended that the circular in its essence and spirit was not repugnant to the constitution. The house resolution for adjournment until July 10th was laid on the table.

Senator Van Wyck wanted to know if the Bessemer Steel Manufacturing company had been assessed 2 per cent. Senator Allison did not know, but thought they ought to contribute liberally. (Laughter.)

Senator Van Wyck went on to denigrate this method of raising money for political purposes, causing frequent laughter in the democratic side.

The report of the conference committee on the appropriation bill was adopted.

The senate went into executive session, and at 5:25 adjourned.

HOUSE PROCEEDINGS. The house passed the bill appropriating \$10,000 for a public building at Williamsport.

The conference committee report on the army bill was reported and accepted.

The appropriation committee has completed the sundry civil appropriation bill and will report it.

At 2:45 p. m. the house took up Mr. Kelly's internal revenue bill. The amendment reducing the tax on cigars four dollars per thousand and on cigarettes one dollar per thousand was adopted without dissent by the republicans voting in favor. A number of other amendments relating to the tax on alcohol, tobacco, etc., were rejected.

During the debate Mr. Cox introduced an amendment that no assessments for political purposes against those employed under this bill be permitted.

An animated discussion followed, the republicans claiming that nobody was forced to pay assessments.

Mr. Kasson affirmed it was the duty of every employer to refuse to pay if he did not want to pay, and if any official causes him to be removed for so doing, he (Kasson) would denounce him on this floor. [Applause on the republican side.]

Mr. Springer asked if he was authorized to say to employes that they would not be dismissed if they refused to pay.

Mr. Hubbell replied—So far as he was concerned he would give the gentleman the authority.

The previous question was ordered on the bill at 7:26. Adjourned.

EGYPTIAN MATTERS. LONDON, June 26.—In the house of commons this evening Sir Charles Dilke, under secretary of foreign affairs, speaking of the trouble in Egypt, announced that representatives of each power in conference at Constantinople signed a protocol to prevent the acquisition of the territory in Egypt. It was intimated in the French chamber of deputies and in house of commons on Thursday last that such a protocol would be signed. Nothing contained in the protocol precludes England from opposing the neutralization of the Suez canal.

A BURNED THEATRE. RIGA, June 26.—Early this morning a fire broke out in a large theatre here and burned steadily all day. By midnight there was scarcely anything left of the building. There is a suspicion that the theatre was set on fire by nihilists.

THE PORTS RETERRATES. LONDON, June 26.—The port again addressed an official circular to European powers, in which it asks the Egyptian army to be loyal to the sultan and ministry and is prepared to support the sultan quo. Hence it concludes the conference is unnecessary.

BISMARCK. BERLIN, June 27.—Bismarck is again indisposed, not seriously. He has gone to Varzen to recuperate. He has requested no official matters forwarded him there. His temporary retirement is partially occasioned by the disappointment over the defeat of the tobacco bill.

Scarcely a Pound of Freight Moving in or Out of the City.

The Railroad Standing Out Till the High Rates Go Into Effect.

When the Demands of the Men Will Be granted.

NATIONAL ASSOCIATED PRESS. JERSEY CITY STRIKERS. JERSEY CITY, June 26.—The truckmen on the Erie and Delaware & Lackawanna roads struck for an increase from 11 cents an hour to \$1.50 per day. The strikers attended a meeting at St. Michael's institute held by the freight handlers' union. Loads pending at Jersey City are delivering freight there to consignees. The freight handlers' strike in New York prevents hauling on the New York side. Freight for points like Newburg, Perth, Amboy and Elizabethport is being sent from Jersey City by companies in bargos and the strikers have sent committees there to induce the handlers to join the strikers. The strikers are quiet, but four hundred special police are on duty at \$65 a month, each railroad to pay the bill. The Pennsylvania railroad will award in one thousand specials to-morrow. It is probable that all connected with the handling of freight, switches and tracks of all roads ceding at Jersey City will be on a strike within a few days. No east-bound train can therefore arrive.

APPAIRERS IN NEW YORK. NEW YORK, June 26.—The strike of freight-handlers has completely checked railway business, and ten miles of freight, mostly perishable, is packed along the wharves. The strikers are rapidly organizing into a union. The merchants are preparing to go to law and compel the railroad companies to pay the advance demanded by the strikers and move the freight. The strikers are orderly. There is no material change in the condition of the freight handlers' strike, and no disturbance or breach of peace has yet taken place. Five hundred strikers paraded peacefully in Jersey City this morning, although a large force of regular and special policemen were on hand. There was no occasion for their services. The Erie railroad succeeded in sending off a quantity of freight, by taking it in bargos to Newburg and South Amboy, whence it was transferred to the main line. Affairs on this road are complicated to-day by the strike of truckmen demanding \$1.50 per day. The Pennsylvania road claims that the strike was begun by the men without making a formal demand.

Three drunks—first committed, was "Nancy" O'Brien, who pleaded guilty to the charge of intoxication, that being all the officers could hold him on. He will go up for a time, long enough to allow the law authorities to send for him.

Two disturbers of the peace were disposed of as usual.

Three boys are held for stealing a pair of steel buggy springs and ice tongs.

Jacob Kaufman, of Sixteenth street, has been complained against for keeping his saloon open after 12 o'clock.

Mrs. Willuhn is charged with beating a small boy on the head with a rock.

LAND LEAGUE.

Important Meeting at the U. C. L. A. Rooms. A very important and largely attended meeting of the land league was held Sunday afternoon, at the rooms of the U. C. L. A., in Creighton block.

Satisfactory reports concerning the preliminary arrangements in all the departments of the 4th of July picnic, were received.

The committee on arrangements was instructed to invite a number of our prominent citizens to attend.

It was determined that dancing should be free within the grounds, the park ticket entitling the holder to all dancing privileges.

The committee are all jubilant over the anticipated success of the picnic.

It was decided to invite Michael Davitt to be present if possible.

The land league appointed F. W. Gray chief marshal, and Chas. Hanley assistant chief marshal.

The A. O. H. elected their marshal last night.

A programme of the day, with full information, will be published in due time.

STERNSDORFF'S STAMINA. A Lively Encounter With Midnight Marauders.

It will be remembered by the numerous readers of THE BEE that some little time ago Mr. McVeoy, residing on Ninth street between Canitol Avenue and Dodge was robbed of \$450, the burglars getting off scot free, and it would seem as if this had emboldened the gang who nightly infest this region with felonious intent, and last Saturday night they made another attempt at the residence of Mr. John Sternsdorff, but owing to the presence of mind and bravery displayed by Mr. George J. Sternsdorff they were unsuccessful.

About 2 o'clock Sunday morning two men opened the gate and got in the back part of the building, but Mr. G. J. Sternsdorff, who was sitting up late reading THE BEE, heard them trying the shutters and called to them, when they immediately made off. He rushed out after them and whistled for the police, but none came in time to be of use. Mr. Sternsdorff observed that they had some tools in their hands with which they evidently intended to effect an entrance. Mr. Sternsdorff says he has made arrangements to receive any more visitors of this description in a most lively style, which will probably give them all they deserve.
