-The Nonpareil has at last hoisted the name of Maj. A. R. Anderson to the head of its editorial columns as a candidate for congress. It has been a long time coming to this. Maj. Anderson was in the city day before yesterday, and the following morning the flag was at last run up. It is a little strange, however, that the title of "colonel" is not given his name as it appears at the head of the column in which he has of late been so frequently promoted from major to colonel, by all means.

-The Garryowens object to the way their last Sunday's game of base ball was reported in some of the papers, by which it was made out that their defeat was ignominious, when the facts are that they did their best players being absent, and their pected. places filled by substitutes. Their opponents, the Swamp Angels, had nearly all their regular nine, and a few of the best players out of the Chumps. Even then the Garryowens, in ten innings, were defested only by 20 to 15. It is thought that another game will be arranged for next Sunday.

ASSAULT IN AVOCA.

t Brings a Number of Witnesses and Others From There Into the Superior Court,

A few days ago a man named Volner made formal complaint in the superior court, charging Jacob Kampf aud others, of Avoca, with assault with intent to kill The trouble occurred on the fourth of last month, t being a row at Kampf's beer garden, in which Volner was badly beaten, as he claims, without any just cause, and suffered a cut on the head, a smashed ber. nose, blackened eyes, with sundry internal injuries caused by kicks and thumps. The German's Indignation. An editorial which appeared in yes-

The Nonpareil before the election on the amendment was strongly allied with the anti-proand will be printed by August 4th, as the hibitionists, and its editorials were all of that tinge. Iowa. Chinese Stock Farming. An interesting account of the establishment of a stock farm by the vice-roy of the province of Chihle, in China, has been given by the American consul general at Shanghai. In one of his previous reports he had pointed out that the Mongolian herds could be greatly increased in value by the establishment of a farm at some convenient locality, at which fine stock horses, cattle and sheep could be bred. This report came under the cognizance of his excellency Li, with the result that an interview between the consul general, a breeder from New York and Li was brought about. The New York breeder urged the advantages of a good stock farm very strongly, and his excellency took up the matter warmly. Through his active interest and influence Mr. Tang King Sing, an active and progressive mandarin, was convinced of the superiority of western ideas, and at once declared his willingness to give them a trial. His farm consists of about 5,000 acres near the Kalping coal mines, now be-

ing opened by foreign engineers under his superintendence, situated about eighty miles to the north of Tientsin. He has obtained some United States cattle, which will be used with the native stock for the purpose of testing the practicability of the suggestions which have been made. Mr. Tang King Sing announces that in the pro motion of this enterprise his object is to afford his countrymen an opportu nity to become possessed of at least portion of the seience already attained by western nations in the improvement of their breeds of cattle.

Mr. Sheldon's Good Shot.

Sants Fe News, H. J. Sheldon left his camp at Cooper City, on the Pecos, last Saturday afternoon, in search of game. About 4 o'clock in the afternoon the burro, which had wandered ahead, came running back, apparently in great terror, ears and tail erect, eyes glaring, making that peculiar, mournful sound for which its species are noted, and refusing to be caught or comforted. Not being able to make out from the report of the confused burro just what had happened, Mr. Sheldon cocked his gun and advanced slowly and cautiously upon the unknown enemy. Crawling along on his hands and knees for about a quarter of a mile, he at length doubled a in the meadow and not more than a hundred and fifty yards away, he saw a huge grizzly bear with three cubs, and just beyond the bear and in direct range with her, an animal that he at once recognized as the long GENERAL REPAIR WORK sought-for elk. Neither of the beasts will receive prompt attention. A general as was aware of his approach, so, quietly rising upon one knee and resting his rifle across the other, which is Mr S.'s favorite position in shooting, he took deliberate aim. Bang went the gun, Foundry, Pig Iron, Coke, Coal away sped the bullet, and down fell two animals-in fact, three-the bear, the elk, and Mr. S. himself. The bullet had cut the backbone of the bear completely in two, and, passing on through, had lodged in the heart of of Dubuque, recently deserted from the elk, and the extraordinary task to West Point, where he was in attend-which the rifls had been subjected which the rifls had been subjected produced such a violent recoil that the Mr. S. advanced upon the prey, hunting knife in hand, but life was extinct in both animale. The little cubs, on the report of the gun, fled; but, being only a few weeks old, were speedily captured, tied in bags, and fastened en the back of the horse.

Z. T. Lindsey & Co., Council Bluffs, Ja .:

Dear Sirs :- Replying to your esteemed favor of the 5th inst, will say that it is a fact that the advance in the price of Calf Skins, Sole Leather, and most every kind of Shoe Stock, taken in connection with the adva co for labor we have been obliged to concede to workmen, has increase i in no small degree the cost of manufacturing. Notwithstanding which fact we are pleased to say your o der. given us early in the season, will be filled at the old prices; and we hope, by being diligent y alive to the requirements of the demard for a really first-class article, to supply you with a BEITER line of goods than we have ever given you hereto ore. Our purchase of both French and domestic Calf Skins, as well as a large supply of O k-tanned Sole Leather, were made very early in the season which, being bought at former prices, relieves us in a great degree of the increased cost of production that many manufacturers are oblised to sustain in filling their orders taken early. Your whole order for the coming fall season is well in band, and will be shipped at an early date. We desire to call the attention of those who use our goo's, through the medium of your house, to our new styles in both Hand and Machine Sewed work. Our French, Medium French and London Toe goods are all made on entirely new lasts and new patterns, which we feel sure will meet with a just appreciation and the approbation of your customers. With the improvement we have made we expect to furnish a more nearly pe fect fitting shoe than ever before. We assure you, gentlemen, that we will endeavor to give all your order our prompt and careful attention, and with these assurances we trust to merit the continuance of the many favors you have been pleased to bestow upon us, and, awaiting your further commands, we are
