—W. C. McBretny, recently from Topeka, Kas., has fully decided to engage in the undertaking business here, and has secured for his headquarters No. 17, North Main street, where he is getting in a full stock to meet all demands in that line. The establishment is to be complete in every respect and will be fully opened in a few days.

—The Milwaukee & St. Paul railway folks are at work putting in frogs, switches, etc., in the city. The carpenters have commenced putting up the new freight house, which is to be about 32x160 feet, and other work is going along lively. The passenger trains will be put on sometime next month, and in the meantime the local freight, with a coach attached, is running.

—Several days ago complaint was made in Justice Frayne's court, charging Michael Hawk with jumping a board bill, and the warrant given to Constable Rosecrans. Yesterday Officer Barlyse seeing Hawk, and knowing he was wanted, showed him into Justice Frayne's office, and turning him over to the court started down stairs. The court sent for Rosecrans and while the justice was making out some papers, the prisoner made a break for the door and disappeared.

—The experiments at making iron shot at the factory here are at an end now, the conclusion having been reached that there is no need to wait longer, but to go right ahead getting machinery ready to manufacture, rather than experiment, the experiment proving so satisfactory as to warrant going ahead. There is also other work going on at the factory in the foundry line. A day or two ago one casting was made weighing over 1,800 pounds, in being a part of some mining machinery.

—The aldermen do not seem to enjoy having to carry all the burden of blame for the bungling way in which the ordinance making business has been done. They say the printers are the ones to blame; that the ordinance was correct as passed, and that the blunders were made by the Nonpareil force. If this is true, as they claim, it will show up where the bills come in for printing and reprinting the ordinance. If this extra expense and trouble is caused by the printers, the aldermen will hardly have the audacity to allow The Nonpareil its bill for work which was worse than not done at all.

—There was a sensational account given in a contemporary paper concerning a little boy falling from the top of a car in the Chicago & Northwestern yard, it being stated that he was fatally injured. This proves to be mostly nonsense. The facts are that the boy, a son of D. B. Welster, living on Fifth avenue and Thirtieth street, while playing on top of some cars standing in that yard, fell between the cars, but was not injured seriously, receiving a slight cut on the head and some bruises, but nothing warranting the statement that the boy is going to die. Dr. Hanchett, who attended him, says he is not seriously hurt.

—Allen Ross, the alleged rapist was brought before Justice Frayne yesterday for examination, but his attorney being absent from the city a continuance was given until next Monday. In escorting the prisoner to and from the jail Constable Fox kept a sharp eye on him and the iron on his wrist. There is reason to fear Ross jumping. When Chief Field took him to the jail a time ago Ross urged him to let him run, and told the chief that he might fire if he wanted to if he would only aim high. That would let the chief off of all the blame. Mr. Field could hardly see it, and Ross had to march on.

—Nick Backus, of the Lower hotel, who was fined \$25 and costs for selling intoxicants, rather tired of his official resolution to lay in jail rather than pay. Some of his friends found Judge Aylesworth about

11 o'clock Thursday night, to get Backus released, and on the assurance that he would appear in court yesterday and either the bonds for an appeal or pay up his fine, the judge gave an order for Backus to be brought into court. Officer Tyson took this document and Backus was released out yesterday he failed to do as he agreed his excuse being that he wanted to talk over the matter with an attorney first. Late yesterday afternoon the court was tired of waiting, and Officer Tyson found Backus on the street locked him up again. He talks of getting out a writ of habeas corpus, and having the validity of the ordinance and other points tested.

—Clark, of The Nonpareil, in the death of news and a desire to fill space, framed and padded out a column account of an old man supposed to have been confided out of \$50 at the transfer, but who really had passed a counterfeit \$100 bill off on the sharps and got \$50 back in change, in good money. Of course it was an old, old story, rehearsed to fill space, there being no occurrence of the kind. Colonel Keatley, however, took it all in, bit at the bait, and released it for his evening paper as an actual occurrence, without investigating further. The Nonpareil, in turn, got caught in the very trap it had set. It saw an account in the evening paper of an old man being confided of \$50, and copied it into its paper. A lie told often enough is soon believed by the teller himself, and when so stuck to begins to gain credence with the public. Hence, by this time, Clark probably thinks it really did happen. Of course it did not, and Officer Cusick is hot about having such yarns set at all, as he is getting the transfer in rather a quiet and orderly condition, and wants to keep the record as clean as possible.

LOOKING OVER THE GROUND.

The Plan for a City Hall and Market House Not Given Up.

Yesterday morning the mayor and most of the members of the city council met as a committee of the whole to confer with Peter Bechtel in regard to the property owned by him on Bryant street, opposite Dolans' opera house, this conference being in accordance with the action of the council taken at a late meeting. The mayor and aldermen paid a visit in person to the ground to see how it would do for a market house and city hall. Some time ago a plan was talked over for having the same built by a stock company, the city to have certain interests in it and to have office room for its various departments. It is understood that there is some prospect of this plan being put into practical effect. Mr. Bechtel offers a bonus of \$1,000 if the same is located on his land, the ground to be bought at its market value simply. There are others who are willing to put money into a market place scheme if it is rightly planned. The probability is that some plan will be hit upon which can be successfully worked, and which will prove of advantage to the city.

The grounds looked at have been used some time as a market place for hay, wood, etc., and the city scales have been located there until changed to the intersection of Main and Pearl streets. Lots have been secured south of the court house for teams to stand on, but the old habit is so strong that farmers are still driving their loads to the old market place and the newly leased lots near where the city scales are now are left almost unnoticed and unused. Complaint has been made for the police to make the hay and wood men go to the lot now ready for them and leave the old grounds. There seems to be no legal way now to make them do so, and the police, therefore, are waiting for the council to pass some ordinance or take some action giving them the right before they attempt to enforce a change.

A DIZZY DASH.

A Runaway Horse Causes Injuries to Two Ladies and a Child.

Yesterday afternoon Mrs. Coy, the wife of the proprietor of the Coy horse, started in a buggy with her little daughter and her aged mother, for a drive into the country. They had a young green horse, and in going up Broadway, a dog sprang at him, frightening him into a run. The horse turned completely around, but fortunately Mrs. Coy reined him that he did not overturn the buggy, but started back on Broadway, still at a running gait, until he reached the corner of Main street, where he made a sharp, quick turn again, and completely overturned the carriage, throwing the occupants out, and smashing the rig badly. The ladies and child were thought by those who saw the accident to be at least very seriously, if not fatally injured, and they were hurriedly placed in a carriage and taken home. A more careful examination of the injuries showed that none of the party had broken bones, or any apparently serious hurts. Mrs. Coy struck on her head and shoulder, but the chief hurt seemed to be a cut upon the head, and a very lame shoulder. She had some bruises besides. Her mother, Mrs. Quick, also had a cut upon the head and some bruises, while the child escaped with a mere scratch on the neck.

Worthy of Praise.

As a rule we do not recommend Patent Medicines, but when we know of one that really is a public benefactor, and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure Biliousness, Colic and Ague, Stomach, Liver and Kidney Complaints, even were all other remedies fail. We know thereof we speak, and can freely recommend them to all. Each—sold at fifty cents a bottle, by C. F. Goodman.

A woman named Dora Leonard of the east side, Des Moines, is supposed to have committed suicide by drowning in the Des Moines river. She is also supposed to have drowned her little baby. About a week ago the clothing of a woman was found on the banks of the river, and it was sur-

mised that a woman had been drowned and search of the river has been made, but nobody has been found yet.

At Clinton on the 17th, Frank Ray while intoxicated was struck by a train and killed. He was about 50 years of age, and so far as is known had no family. He made the third man who had been killed by the cars in Clinton within a week. The other two were W. C. Yancy and Frank Robertson.

She Understood.

A woman with a market basket on her arm and a big bouquet of flowers in her hand, was waiting at the ferry dock when a man of pleasant address approached her and said:

"Madam, that is a very fine nose-gay."

"Yes, sir."

"I think it is the finest one I ever saw, and I have been in twenty-seven different states."

"Yes, sir."

"There is the pansy hiding itself behind the rose. According to the language of flowers, the pansy stands for: 'Darling, I cannot live without you.' I likewise observe the rosebud. The language of the rosebud is: 'I'm looking for a husband.' Madam, do you understand the language of flowers?"

"Yes, sir."

"What is the language of the tulip?"

"The tulip says, sir, if you don't stomp along with your brazen impudence I'll have you walked into the cooler!" was her firm reply. He stumped.

BRIGHT'S DISEASE OF THE KIDNEYS, Diabetes and other Diseases of the Kidneys and Liver, which you are being so frightened about, Hop Bitters is the only thing that will surely and permanently prevent and cure. All other pretended cures only relieve for a time and then make you many times worse.

Paid a Bill.

A Detroit lawyer took in a new boy the other day, and as he had suffered to some extent from the depredations of the former one, he decided to try the new lad's honesty at once. He therefore placed \$15 in bills under a weight on his desk and walked with it out a word. Upon his return, half an hour later, the bills were gone and seventy-five cents in silver had taken their place.

"By when I stepped out to get a draft in London I left \$15 under this weight!"

"Yes, sir."

"And now I find only seventy-five cents!"

"Yes, sir, but you see you hadn't been gone five minutes when a man came in with a bill against you of \$14.25, and I paid it. I guess the change is correct."

"You—you paid a bill?"

"Yes, sir, there it is, all accepted. The man said it had slipped your mind for the last four years, and so—"

He didn't get any further before he was rushed for the stairs, and he isn't in the law business any more.
