

LEE, FRIED & CO., The Only Exclusive Wholesale Hardware House IN THE WEST. 1108 AND 1110 HARNEY STREET, OMAHA, NEB. J. S. CAULFIELD WHOLESALE BOOK SELLER AND STATIONER Wall Paper and Window Shades 1304 Farnham St. Omaha Neb. ROTH & JONES Wholesale Lumber, No. 1408 Farnham Street, Omaha, Neb. THE MOLINE STOVE

STATE JOTTINGS.

The only butcher in Pierce has shut up his shop. Wm. Leese, of Seward, has invented a washing machine. An Odd Fellows lodge was instituted at Utica on the 10th. Lincoln has a Nebraska National bank, to start business on the 15th. Johnson county warrants are at par for the first time in fifteen years. Geo. L. Woodley, of Des Moines, has bought the Nebraska City distillery for a little over \$17,000. The Sidney P. T. says nine out of every ten tramps who go to that part of the country "succeed". Twenty-three thousand dollars of the bonded indebtedness of Johnson county will be paid off this fall. The fireworks ordered for Seward for the 4th did not arrive until the 28th, and were fired off on the 13th. The Valley county agricultural society was organized here from those who were organized in Iowa. They will undoubtedly have a fair this fall. Samuel Hancock, one of the Sherman county commissioners, was dragged by a cow a distance of eighty rods one day last week. Jacob Schmidt, a Schuyler horse thief, escaped from jail on the 10th. The jailer neglected to watch him, and he took advantage of it. John H. Bauer, of Louisville, last week, leased his stone quarry for twenty years to an Omaha man; consideration forty-five hundred dollars. Millie Varney, of Westerville, Coster county, was going to put up a big brick block in "Big Boy" the original Adam of the Republican party. The residence of D. Martin, Central City, caught fire from an oil stove on the 13th, and considerable damage ensued. The neighbor put the fire out. Henry Englebatz, of St. Bernard, was bitten on the leg by a snake. The leg is now wonderfully swollen and spotted with the colors of the snake, and gangrene has set in. Kearney had an elopement on the 10th, the woman being (the Journal says) "a sister-in-law to prominent state officer well known in these parts. The husband who gave to her too much liberty, can be consoled in his gain." Ira Simmons killed two wolves a week or so since. They came up and killed a lamb for him in broad daylight only a few rods from the house. He put poison on the lamb's carcass, and two of the "varmints" went under. York Republican. John Kubak, a Bohemian with his family, went to Bremen to take passage for America. A boy seven years old was taken sick so he could not start with the family, who were too poor to remain in the strange city on expense. The agent at Bremen of the Hamburg-American Packet Co., Mr. Karlov, took the boy under his care and the family sailed for a strange land, leaving the little sufferer alone. The family arrived here safely in a few weeks and the father has been working at his trade, a carpenter, for Mr. D. Lanaky. The little boy recovered and was started on his homely journey. Arriving in New York he was taken care of by Frank Brodsky, another agent, and started on his long journey by rail. In ten weeks after his parents left him sick, he arrived safely in Crete alone.—Crete Standard.

Personal and Social. Judge Gaslin is "at home" on his sheep ranch in Clark county. Fred Baker and wife, of Wilber, have gone on a Colorado tour. Misses Mabel and Bertha Mahon, of Fairmont, has gone to North Platte on a visit of several weeks to her mother, who is under his care and the family sailed for a strange land, leaving the little sufferer alone. The family arrived here safely in a few weeks and the father has been working at his trade, a carpenter, for Mr. D. Lanaky. The little boy recovered and was started on his homely journey. Arriving in New York he was taken care of by Frank Brodsky, another agent, and started on his long journey by rail. In ten weeks after his parents left him sick, he arrived safely in Crete alone.—Crete Standard.

Genius Rewarded. The Story of the Sewing Machine. GIVEN AWAY. A handsome little pamphlet, blue and gold cover with numerous cuts, will be sent to any person living at a distance from our office. The Singer Manufacturing Co., Principal Office, 31 Union Square, NEW YORK. Farm, Garden and Orchard. There is some hog cholera in Furnas county. The prosperity of Nebraska farmers now is all in their eye. S. R. Foss intends to feed a thousand steers at Crete this winter. Corn near Red Cloud grew 45 inches a day last week.—Journalist. Mr. Schaeffer, of Taylor county, has 10,000 bushels of peaches by land this season. Mrs. Kinzel has a beautiful ten years old, which now has twenty-six double broods in Iowa.—Iowa Farmer. The most of the spring wheat will be ready for harvest by the first of next week. A few fields have been harvested this week.—Nebraska Granger. The wheat harvesting has been begun in this county, and, contrary to expectations, farmers report that the wheat heads are blowing badly within a few days. Reports now indicate a very considerable amount of the crop which was expected one week ago.—Plattsmouth Journal. Corn is reported doing well. The upland corn looks like a very promising crop, but is not looking as well. In some localities it is spotted on account of wet, but the outlook is bright for the crop. The weather, with a few weeks now of good weather, will have no reason to complain.—Burt County News. W. F. Ledy, Esq., on the farm of Mr. W. F. Ledy, Esq., a peach tree loaded with peaches, as large as oranges, of a beautiful red color, and nearly ripe. We did not look into the orchard, but saw the fruit on the tree, and they are certainly a choice variety. If his peach trees were all of that kind it would be a small fortune to him.—Fairfax City Journal. Delno Burgess has raised quite a quantity of the English gooseberry, a sample of which was shown us, Wednesday. They were larger than pigeon eggs, and were fine looking ones. He reports the bushes as doing well, and he will undoubtedly plant many more bushes of the same variety in the future. He has also raised a quantity of the best kind of fruit can be raised in this country.—Arapahoe Pioneer. By far the largest wheat crop this county has ever known has just been garnered in about the middle of the present week. Notwithstanding the predictions of the croakers, the weather, especially toward the last of the harvest, was as kind and safe as it could be, producing the most wonderful crops of rye, wheat, and oats. The yield of an estimated yield of thirty bushels to the acre makes glad the hearts of the farmers.—Johnson County Journal. Tools are good to keep bugs off of potato vines, as many know. Mr. Tim Scamler, of Oakdale, says he gathered up some tools and put them in the potato field and in a short time they had the bugs off. How this would work in every case or whether it is the cheapest way, we are not ready to say, but many youngsters who would have to pick up their noses, "Paddy's Green," would very naturally like to catch and conduct a squad of these tools in destroying these varmints.—Lynch Republican.

Manufactured by MOLINE STOVE COMPANY. They make a specialty of COOKING STOVES, and have this year placed in the market the MOST ECONOMICAL AND MOST SATISFACTORY STOVES ever made. Genius Rewarded. The Story of the Sewing Machine. GIVEN AWAY. A handsome little pamphlet, blue and gold cover with numerous cuts, will be sent to any person living at a distance from our office. The Singer Manufacturing Co., Principal Office, 31 Union Square, NEW YORK.

MONITOR OIL STOVE. Improved for 1882. ONLY ABSOLUTELY SAFE STOVE IN THE WORLD. Every housekeeper feels the want of something that will cook the daily food and avoid the excessive heat, dust, and noise of a coal or wood stove. THE MONITOR OIL STOVE WILL DO IT, better, quicker and cheaper than any other means. It is the ONLY OIL STOVE made with the OIL RESERVOIR ELEVATED at the back of the stove, away from the heat; by which arrangement ABSOLUTE SAFETY is secured; as no gas can be generated, fully twenty per cent more heat is obtained, the wicks are preserved twice as long, thus saving the trouble of constant trimming and the expense of new ones. EXAMINE THE MONITOR and you will buy no other. Manufactured only by the Monitor Oil Stove Co., Cleveland O. Send for descriptive circular or call on M. Rogers & Son, agents for Nebraska.

MANUFACTURERS OF THE NEBRASKA NATIONAL BANK OF OMAHA. \$5,000! To Safe Experts. THE KENDALL PLATING MACHINE! DRESS-MAKERS' COMPANION. IMPERISHABLE PERFUME. Murray & Lanman's FLORIDA WATER. Best for TOILET, BATH and HANDKERCHIEF.
