THE GOLD DUST DISASTER. Special Dispatch to The Bee. ST. LOUIS, August 9.—The steamer City of Alton, with the wounded by the explosion of the Gold Dust, at Hickman, on Monday, arrived here this evening. A great crowd of people, composed of relatives and friends and those simply curious to see the victims of the disaster, congregated on the wharf, but only relatives and near friends of the victims were allowed to go on board.

A very large proportion of the crowd were negroes, friends of the wounded roustabouts. While many, fully fifty to sixty persons, on board are injured by burns or scalds, only eleven are in anything like a serious condition.

Captain McCord and two or three others were able to leave the boat alone and went to their homes, but the remainder of the badly hurt were carried ashore on stretchers and conveyed either to their homes or to the city hospital.

DELIGHTFUL DANCE. Successful Lawn Sociable at Hanscom Park Last Night.

The two large picnic vans of McShane and Homan started from Max Meyers' jewelry store last evening at about 8:30 bearing as merry loads of irrepressible young people as could well be found anywhere.

Their destination was Omaha's favorite pleasure ground, Hanscom park, and the lawn sociable given under the management of Mr. Harry Hunt and friends.

At the park the spacious platform was found brilliantly lighted with brightly colored lanterns in great profusion. Everything had been done by Mr. Hunt and his officiating committee men to make the gathering a success, and to merely say that it was a success is scant praise indeed.

To the splendid music of Hoffman's irresistible orchestra the "light fantastic" was tripped by merry dancers until far into the "woe ama" hours of the morning. Not less than sixty couples were present, besides numerous visitors. All at length returned to their homes, with the feeling predominant in their thoughts that with Hoffman to dance after and Hunt to manage for them, a tremendous success will always be assured.

A Camp Meeting Cut. ATLANTA, Ga., August 9.—News reached here to-day of a riot in Eastman's, Sunday afternoon, when five persons were killed. For some days a colored excursion to a camp meeting in Eastman has been advertised in Macon and surrounding towns, with a promise that "more amusements will be furnished than at any camp meeting ever held in Georgia."

There appears to have been whisky drinking and gambling in the vicinity of the camp meeting and a victim complaining to Marshal Buchanan of the loss of his watch, taken by Jake Johnson, a notorious colored gambler.

The marshal, with deputy Harrah, went to arrest Johnson, who knocked the deputy down and ran. The marshal opened fire and killed him, which so incensed the negroes that they clamored for revenge. Seeing a white man running through a grove toward the deputy's house, they made after him. The mob tore down the fence, and securing the palings as weapons, made a demand of the occupants of the house to surrender. A young man named James Harvard, of Cochran, who accompanied the excursion, secured himself under the house, but was discovered, dragged out and beaten over the head with the palings, and then the negroes put a pistol to his head and

Blew his brains out. After Harvard was dead the infuriated mob continued to box, kick and maul and maul his skull. The citizens of Eastman armed themselves and a general engagement took place, in which three negroes were killed and several persons wounded on both sides, the negroes being routed. When the excursionists started home in the afternoon the rioters were still boisterous, and had a general row in the passenger coach. A negro cut his wife's face, pistols were drawn all around, and the conductor attempting to eject the man who did the cutting was

THROWN FROM THE PLATFORM with him, and his life was in imminent peril until he secured a coupling link and knocked the desperado down. The rioters cut the bell line of the train, but the engineer discovering their purpose pulled on the engine lever and ran into Macon, making the fastest time on record on that road. Numerous arrests were made, the principals being caught, and quiet has been temporarily restored, although the citizens of the town in which Harvard lived have organized, and the yarding of the rioters is apprehended.

This massacre occurred at the Hollanda mine, which is but a short distance from the Yaqui river at Roscos, and lies between the California and Paltoro mines, belonging to the Labarranca Mill and Mining company. The same day a mail rider was also shot while crossing the Rio Chino.

A TRIPLE TRAGEDY. Special Dispatch to The Bee. CHICAGO, August 8.—At 10 o'clock to-night, in front of 2618 Wentworth avenue, Dietrich Peterson, a cigar-maker, fatally shot his former sweetheart, Frida Kriekemeier, wounded her companion, Francis Maus, and then blew out his own brains. The cause of the tragedy was that the girl had cast him off. The first shot hit Maus by accident. Then he followed his fleeing sweetheart for half a block, firing at her. She had one bullet through her body and one in her neck and cannot live. After she fell he turned into a side street and put the revolver to his own head. Peterson tried to shoot her last spring, and was under bonds to keep the peace.
