A FURIOUS FIGHT.

LONDON, August 21.—The Daily News has the following from a correspondent at Suez: I have just returned from Chalof, where I witnessed the conclusion of a fight in which 250 of our men, including Highlanders, Blue Jackets and marines, defeated twice their number. The fight lasted from 11 o'clock this morning until near 5 o'clock this afternoon. The Gullies in the tops of the gunboats worked with admirable precision and did much execution among the enemy, who advanced to within a hundred yards of the bank of the canal. The success was all the more brilliant owing to the extremely difficult nature of the country, which abounded with low ridges and water courses. Lieut Lane, of the Highlanders, gallantly crossed the fresh water canal in the face of a hot fire and brought back a boat, thus enabling a company such of the Highlanders and marines to cross and take the enemy on the right flank. The enemy fought bravely. Their commander was killed.

THE REBEL DEATH ROLL.

A further report from Admiral Hewitt, dated Suez 6:15 p. m., Monday, makes the enemy's loss in the fight at Suez 168 killed and 62 prisoners. The latter included 27 wounded.

The order for families of canal employes to quit Ismailia has been rescinded, as their security is assured by the presence of British troops.

Hastings in command of the seamen and marines of the gunboats Seaquill and Mosquito, assisted by 200 Highlanders under Maj. Kelsey, proceeded to Hafat by way of the Maritime canal, and had six hundred of the enemy strongly entrenched behind the station. The English force landed and defeated them, taking 45 prisoners with a small cannon and a quantity of ammunition stores. Our loss was two Highlanders drowned and two seamen wounded. The enemy's loss was about 100 killed and wounded. Brigades reconnoitered in force at the same time and in the same direction.

THE BREWERS.

CHICAGO, August 21.—At a meeting of the state executive committee of the Illinois liquor dealers and brewers opened this afternoon the action of western distillers at the recent meeting here, in passing resolutions favoring early Sabbath and high license to crush out disreputable saloons and depreciating bringing the liquor question into politics, was discussed and a set of savage resolutions passed making a personal attack on H. B. Miller, author of the resolutions and president of the distillers association. The preamble states: "Experience has demonstrated that prohibitory and summary legislation increases the consumption of cheap and poisonous alcohol, thereby increasing drunkenness and decreasing the consumption of lighter and healthier drinks, such as beer, wine, and the better class of spirituous liquors."

THE LATEST.

There are no telegraph stations open. The Newcastle office had a boat before anybody got away. A boat has been sent down to hunt for the missing steamer, but no news is expected to-night, as the distance is too great for her to return in time.

AN ELECTRIC MOTOR.

CHICAGO, August 21.—J. B. Atwater, an inventor of some prominence, has secured patents on a unique and entirely new motor. It is founded on this principle: The poles of an electric magnet changed to a point distant from where they are usually located. By this transfer a stroke five to thirty inches is secured in a reciprocating or an oscillating engine without breaking the current which connects the battery with the motor. With the greatly increased power thus gained there is no increased power necessary. The power gained is continuous, noiseless and the cost at a minimum. The machine will shortly be placed on exhibition. Scientific men agree that many of its principles are new to science, and that it may work a revolution in motors.

ST. LOUIS, August 21.—The law officers of the Gould southwest system of railroads here have been notified by the attorney general of Texas that proceedings in the nature of quo warranto will be commenced at once against the East Line & Red River railroad for forfeiture of the charter for non-compliance with the law, which requires that all railroads operated within the state shall have a general office in the state, and the officers thereof shall reside therein. NIPPING A PLOT.

MOBILE, August 21.—In Choctaw county, Alabama, the 15th inst., a bundle of papers disclosing a well organized plot among the negroes to kill the entire white population of that county, was found near one of their rendezvous by two gentlemen, who laid the matter before the solicitor. On the 16th a quiet meeting of the citizens of Mount Sterling and Butler was called at Butler to consider the best mode of suppressing the intended outbreak and massacre. After discussion it was agreed that the following ringleaders—Jack Turner, F. D. Barney, Jesse Wilson, Peter Hill, Willis Lyman, Aaron Scott and Range West, to whom had been assigned the duties of leading the respective squads to Butler, Mount Sterling, Decaturville and other places, should be arrested and lodged in jail. Their arrest was effected the 17th without disturbance or bloodshed. The same day a mass
