Special Dispatches to THE BEE.

CONDITION OF TRADE

NEW YORK, August 25.

The condition of trade shows a marked improvement in general business. The movement of grain is larger. Strikes coming to an end and the news from Europe have had the effect of sustaining prices of all staples. The whole grain market is very irregular and unsettled, with frequent and rapid fluctuations, but the range has not been a wide one. Operators, as a rule, have been disinclined to take hold, and those already in have shown some anxiety to get out when the market favored them, and the bulk of transactions have been in this line of operations. In wheat there has been a fair amount of business doing. Indications of a corner in Chicago had some effect upon this market. August and October deliveries have been favorites, and fluctuations within a range of about 10c per bushel. In wool there is a fair amount of business doing, and prices are well sustained. Stocks are not accumulating much, and there is no disposition on the part of holders to scale prices for the sake of making trade, unless the amount is quite considerable. A fair amount of business is doing in petroleum, with fluctuations not wide, but varying according to the reports of production from the oil regions.

After 10 o'clock there was a general decline of ½@1 per cent, Northwestern and St. Joseph being exceptions, the former advancing ¾ and latter ½ per cent. Subsequently an advance of ½@2½ per cent took place, and the market continued active, but prices again declined ¼@¾ per cent, closing weak. Prices showed a decline of ¾@3 per cent, as compared with yesterday's closing. One leading cause of the decline was an advance in foreign exchange.
