## OUT OF THE WORLD.

An Omaha Outfit on Its Way to  
 Yellowstone Park.

Camping Out in the Mountains  
 Over Night.

A Royal Bill of Fare and a Good Ap-  
 petite.

Special Correspondence of THE BEE.

BOZEMAN, Mont., August 12.—A  
 town of 1,600 people has been during  
 the last twenty years formed the  
 nucleus of what is destined to be a  
 city at no distant day, of importance.

This is the proper outfitting post for  
 excursionists who visit the Yellow-  
 stone Park. The town is 110 miles  
 from Helena and 75 from the Park.  
 The Northern Pacific railroad will soon  
 have the track laid to this place, which  
 will open the popular thoroughfare of  
 the tourists. The Bozeman tunnel  
 through the mountain is 14 miles from  
 here and has been under process of  
 construction for over a year and is ex-  
 pected to be completed within six  
 months. This tunnel is 3,700 feet in  
 length and dug through the solid rock.

The Helena delegation of the  
 Omaha Board of Trade procured their  
 outfit here, consisting of two covered  
 spring wagons with four horses each,  
 two competent drivers and a cook,  
 who with nine passengers formed the  
 party. A stock of provisions  
 consisting of flour, meat, coffee,  
 sugar, etc., together with cooking  
 paraphernalia and extra blankets,  
 preparatory for a week's camping to  
 and through the park, was also  
 secured. Of Bozeman I am not very  
 state I can say but little, as our time  
 was too limited to allow me to look  
 about much. A clear idea of her re-  
 sources as a mining center, as well as  
 the location, proves to me conclusively  
 that, backed by the kind and  
 enterprising people she boasts of,  
 Bozeman is a good place for capitalists  
 to inspect. Her stores are well filled  
 with large stocks of goods and busi-  
 ness generally is booming.

I cannot close without calling atten-  
 tion to the stereoscopic views of the  
 National park and other mountain  
 scenery, shown me by Mr. Calfee, the  
 artist, who makes a specialty of them,  
 and Nebraska parties who will not  
 visit the park can get a much clearer  
 idea of it from views purchased from  
 him, than from the pen of any scribe.  
 The Omaha tourists leave Bozeman  
 on Saturday, August 12 at 5 p. m.,  
 for the park. I am in great hopes to  
 visit this place again in the near  
 future, when I will dwell upon her  
 merits, as she justly deserves.

AT CAMP TWENTY MILES OFF BOZEMAN,  
 AUGUST 12.  
 Reader, you would laugh to see a  
 lot of tenderfeet making preparations  
 to "hang out" over night up among  
 the Rockies. The cook at the skillet,  
 all set to work procuring sticks and  
 stumps for a fire, bringing water and  
 staking the tent. The smoke leisurely  
 curling heavenward. Nine horses  
 turned loose on the plat-  
 eau, which extends from the Yellow-  
 stone river to the high lava bluffs op-  
 posite, sprinkled with dark green  
 pines, and everybody happy as we  
 gaze at the glorious scenery. The  
 mountain which shadows our boun-  
 tiful repast, spread on the bosom of  
 mother earth with the canopy of  
 heaven for a shelter. Here we are to  
 remain all night. Supper announced,  
 all assemble with an appetite for bac-  
 on and hoeecake, that none but moun-  
 tain travelers experience.

THE BILL OF FARE.  
 Bacon, fried, broiled, roasted; Raised Bis-  
 cuits, hot.  
 RAISINS,  
 Canned Peaches, Grapes, Berries.

DESSERT.  
 Green Tea, Coffee, Crackers.  
 Our "China closet" contains a  
 dozen tin plates, cups, knives and  
 forks. At 6:15 having broken the fast  
 and baggage packed we start up  
 the river and view as fine scenery as  
 we can expect to see, and made to-day  
 (Sunday) about 45 miles.

The party consists of F. Krug, Mr.  
 and Mrs. M. Marshall, J. H.  
 Brock, C. F. Jacob, A. Nah, L.  
 Scher, J. Peck, and The  
 Bee reporter, a cook and two driv-  
 ers. Along the dried and dusty  
 road we see pine, spruce, bal-  
 som, fir, savin and sage brush.  
 Several noted peaks are seen along  
 the range with spots of snow on them,  
 most noted of them are Emigrant Peak  
 which shadows Emigrant gulch—a rich  
 mining district, and

ELECTRIC PEAK,  
 11,756 feet above the sea, and the  
 bald headed peak is some distance  
 above the timber range. The trip was  
 a success and we arrived at the park  
 at 11:30 a. m., Monday, August 13.  
 Some of the party feel a little sore,  
 having rode in wagons and stages some  
 265 miles along and over the rocky  
 roads with eyes strained by constantly  
 looking at the strange formation of  
 the earth. We camp at the springs  
 for dinner.

Debilitated persons, and sufferers  
 from wasting diseases such as con-  
 sumption, scrofula, kidney affections,  
 will be greatly benefited by using  
 Brown's Iron Bitters.

AN ANCIENT INSTRUMENT.  
 The Oldest Quadrant in the United  
 States.

The Bee reporter was yesterday  
 shown a curiosity, in the shape of a  
 quadrant owned by Capt. Bassett, of  
 this city which is an heirloom in his  
 family, having been handed down  
 from father to son through four gen-  
 erations. As some may not know  
 what a quadrant is, it may be stated  
 briefly that it is an instrument used  
 by marines in taking the sun's atti-  
 tude to determine the time of day or  
 the locality of a vessel when it  
 has been driven out of its  
 course by a storm.

This quadrant was owned first by Captain  
 Bassett's great-grandfather, a sea cap-  
 tain, 160 years ago, and then by his  
 grandfather, father and himself suc-  
 cessively, all being sea captains in the

merchant service. Capt. Bassett used  
 it himself for over eighteen years in  
 the south sea. It is believed to be  
 the oldest quadrant now in existence  
 in the United States, as well as having  
 done about four times the service  
 usually exacted from instruments of  
 its kind.

If the weather is pleasant, Captain  
 Bassett and Captain Jones propose to  
 take the exact sunrise, at noon to-  
 morrow, at M. W. Kennedy's, on  
 Thirteenth street, after the approved  
 style in vogue on the high seas.

If You are Ruined  
 in health from any cause, especially  
 from the use of any of the thousand  
 nostrums that promise a largely, with  
 long fictitious testimonials, have no  
 fear. Resort to Hop Bitters at once,  
 and in a short time you will have the  
 most robust and blooming health.

A New Electric Device.  
 Cincinnati Commercial.

A number of Cincinnati capitalists  
 are about engaging in an enterprise  
 which will drive the average quack-  
 man to despair, and possibly cause  
 him to turn from his evil ways and be-  
 come, in the words of Jerry Cruger,  
 "a honest tradesman." The enter-  
 prise consists of the formation of a  
 company for the introduction of an  
 electric invention, by which all the  
 gas in any building may be ignited by  
 simply pushing an electric button.  
 The combination can be so adjusted  
 that at the same time any number of  
 "cow-bells" arranged in various rooms  
 can be set going. This last is a  
 thoughtful provision, as it warns the  
 inmates of the presence of midnight  
 visitors, and affords them op-  
 portunity to conceal themselves and avoid  
 any little unpleasantness that might en-  
 counter them. The machine can be con-  
 nected by wires with all the windows and  
 doors in a house, so that should the for-  
 mer be raised or the latter be opened, in-  
 stantaneous and startling results will  
 follow. The apparatus was invented,  
 perfected and first used in Boston.  
 Since that time companies have been  
 formed in many western cities.

When There's a Will There's a  
 Way.

Anyone who has the will to try THOMAS  
 EL. ERIC ORT will surely find the way to  
 robust health, in cases of bronchial af-  
 fections, sore throat, pains, etc.; and as an  
 internal remedy, it is invaluable.  
 aug22-1w

"Preserve and Regulate, Not De-  
 stroy," is a sound motto in medicine as well  
 as in domestic life. Preserve the view of the di-  
 gestive organs and regulate the secretions with  
 Seltzer's Effervescent, and you will cure  
 dyspepsia and liver troubles by a process in  
 harmony with the laws of Nature. Violent med-  
 icines have had their day. They vitalize the  
 system. Reason as well as the stomach rejects  
 them. Rely on this exhilarating specific.

## SEEK

health and avoid sickness.  
 Instead of feeling tired and  
 worn out, instead of aches  
 and pains, wouldn't you  
 rather feel fresh and strong?

You can continue feeling  
 miserable and good for no-  
 thing, and no one but your-  
 self can find fault, but if you  
 are tired of that kind of life,  
 you can change it if you  
 choose.

How? By getting one  
 bottle of BROWN'S IRON BIT-  
 TERS, and taking it regularly  
 according to directions.

Manfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with  
 pain in my side and back, and great  
 soreness on my breast, with shoot-  
 ing pains all through my body, at-  
 tended with great weakness, depres-  
 sion of spirits, and loss of appe-  
 tite. I have taken several different  
 medicines, and was treated by prom-  
 inent physicians for my liver, kid-  
 neys, and spleen, but I got no relief.  
 I thought I would try Brown's Iron  
 Bitters; I have now taken one bottle  
 and a half and am about well—pain  
 in side and back all gone—soreness  
 all out of my breast, and I have a  
 good appetite, and am gaining in  
 strength and flesh. It can justly be  
 called the King of medicines.  
 JOHN K. ALLENDEE.

BROWN'S IRON BITTERS is  
 composed of Iron in soluble  
 form; Cinchona the great  
 tonic, together with other  
 standard remedies, making  
 a remarkable non-alcoholic  
 tonic, which will cure Dys-  
 pepsia, Indigestion, Malaria,  
 Weakness, and relieve all  
 Lung and Kidney diseases.
