A Lively Town Less Than Ten Years of Age, Historical and Business Sketches.

WEST SIDE, IA., August 22.--From the time the railroad was built here in 1866, until 1874, at which time the town was laid out by the Blair town lot and land company.

INCORPORATED, Five years ago, with its western boundary on the western line of the county.

THE SITUATION, the business houses along the side hill, which slopes back to the southward from the railroad in the East Boyer Valley.

TAYLOR AND JOHNSON, have the pioneer hardware store. Mr. R. B. Taylor of this firm began here on the wild prairie.

BEHRNS AND GROTE, are the center of the general merchandise trade. Located in Lamb's block, in the center of the business part of the town.

KEMP AND HOPE, is a younger hardware firm for whom we predict a successful and large trade in the future.

EXCHANGE BANK, two years ago, occupying the same building previously used by E. P. Savage who only did an exchange business with the usual collection and land office work.

WEST SIDE BANK, established his banking house here during the past year, and has become another valuable factor in the town.

THE STEAM MILL, on the north side, has three "runs," was built seven years ago by its present owner, I. B. Nelson.

tion, which is the greatest question before the American people to-day.

the Mayor of the town, is always--"that is most always," at his grain office on the main corner.

Normal Institute begins next Monday, notwithstanding five of the city teachers have married during the summer vacation, and two or three more not yet heard from.

POLITICS, in Montgomery county is about like politics anywhere else in the nation. There are, however, some interesting items gleaned here.

tion, which is the greatest question before the American people to-day. The fact, that the democrats in "convention assembled" have, by resolution, vouched for the pureness of Dr. Hutton's democracy; and its workmen on the vital question of the day; and the haste with which the "regulars" rush to the rescue, to proclaim that the doctor is not being, nor has not been bought out, indicate that something is out of joint, and the public are not very uneasy.

Disbilitated persons, and sufferers from wasting diseases such as consumption, scrofula, kidney affections, will be greatly benefited by using Brown's Iron Bitters.

Proposed Purchase of Garfield Home, Washington Special Cincinnati Home. The Ohio Republican association will probably hold a special meeting at an early day to consider the question of purchasing the Garfield mansion in this city for use as an Ohio headquarters.

The committee appointed by the Association to consider this matter found out some time ago that they could so alter the upper story of the mansion as to give them a roomy hall for their meetings, and as they desired nothing else which the mansion did contain, they were ready to be satisfied if Mrs. Garfield did not object to an adaptation of the house to the purposes of the Association. It seems probable that the Association will buy the mansion, paying something like \$15,000 for it, and will then convert it into a sort of Ohio club-house.

In the letter which Judge Lawrence, President of the Ohio Republican Association, received this morning from Mrs. Garfield, she expressed her grateful appreciation of the kindly thoughtfulness of the association in proposing to purchase and preserve the Garfield mansion. She stated that she would impose no restrictions upon its use, although she expressed a hope that the library might be kept very much as it is. She requested the association to confer with her agent, General Swain, as to all the details of the proposed transfer.

Mrs. Garfield avails herself in correspondence of the franking privilege accorded her by Congress. Postmaster Luce availed himself of the opportunity to immortalize himself by postmarking this letter with a big circle containing his name as well as his postoffice.
