"Pi

try is punched coin. "It is," he said, "blighting the lives of all mankind. While the hole was left open it was our own fault if we permitted one to be thrust upon us; but now rid of a punched coin? It appears that every living man, woman and child is on the alert for mutilated money except yourself? I am in-debted to one of the foremost finan cial minds of this country for the only known method to rid one's self of a punched quarter or half dollar. Make a purchase of ten or fifteen cents' worth of goods, and give the shopman a bill to change, at the same time secreting the mutilated coin in your hand. Among your change are likely to be a couple of pieces of ailver of the same denomination as the you nick up the change, adroitly substitute a whole coin for the one in your hand with a hole in it. OMAHA NEB Now continue your change carefully, and pass back the punched coin with a sly wink.

The shopman will scratch his chin in a vain endeavor to remember from whom he received the debased coin, and will hand you out a good one in exchange.

get The most brilliant shades possible, on all fabrics, are made by the Diamond Dyes. Unequalled for bril-liancy and durability: 10 cents. Courted on a Bobtail Car.

Sauramento Bee, August 50. The quiet village of Washington across the river from Sacramento is

agitated by a genuine sensation. There resides, or did dwell there, a married couple with three children, and it is but the incontrovertible facts concernthis couple who are the much-talked- ing Kidney-Wort are better than most of persons. Several years ago the husband was married to another woman, but got a divorce. He soon secured the lucrative position of driver on a bob-tailed street car. At that time the cars ran on Front street, and the action on the liver, bowels and kidline terminated near the station-house. neys. Do not fail to try it. By and by the officers there noticed that every morning a pretty young lady came from across the river, trip-ping along with a load of school books.

It was noticed, too, that she always waited until a certain driver appeared and then rode up town. She was the daughter of a well-to-do Volo farmer, and was a pupil at a fashionable semi-

w cu planks, closely fitted, and put stones over all-a ton to the square yard. Disease is an effect, This would gradually press the ensilwithin; its manifestati cure the disease the CAU Grandfather Lickshingle called at It is not necessary to point out age down until it become a solid mass. other way ca WARNER'S SA LIVER CURE the Enquirer office last night to leave word that the real curse of this coun-the disadvantages of this contri-vance. The invention of Mr. vance. The invention of Mr 95 Per Sexton consists of the beams and of all discusses arize from lyer, and it skribes at difficulty. The element of elements, upon these occus of instruction, driv the system. For the innumerable bealthy Kinneys, Liver bars already described. The ensilage is covered with heavy planks, put on parallel with the upper beams, and one to be thrust upon us; but now that the hole is skillfully filled with a deceptive white metal is it any wonder that in the rush of business we are that in the rush of business we are continually made victims of? For my leverage obtained by the holes in the leverage obtained by the holes in the any physical derangement own part I think it is not. Have you nuts the whole mass is compressed, a dy has no equal ever noticed how many weary moons wax and wane while you are getting been pressed out, and the ensilage beitations and concoctio DIABETES CUI comes so solid that it has to be cut H H WA with an axe when it is wanted for use. The silos are the only ones in use where the ensilage is compressed by DR. C means of these screws and levers. which are the result of Mr. Sexton's No Curel | ESTABLIS inventive talent. He thus compresses 175 tons--- the capacity of each section SURE H of the silo--into a space twenty feet (F) long, sixteen feet wide and thirteen and one-third feet high. The ensilage will keep in a perfect state of preser vation for an indefinite period, and when taken out is as palatable and nutritious as it was when first placed The 7 in the silo. As Mr. Soxton expresses it, OURE H "this ensilage is the backbone of our CHRONIC DISEASES. Self-abuse or Priva CREESEATED WORK system. It would not pay and it would injure the stock to feed them on grain Diseases. Consultation FIEE Consult the ol-CURED. Office in qu place. You see no of t larke is the only plays altogether, even when we desire to fatton them. Geese livers are no doubt very good things to cat, and would aseist in fattening a man, but it would where, Hours, 5 A. M not do to eat geese livers and no thing else, so we must have cheap food to
