A very pleasant surprise was given he Odd Fellows of this city while hall on Saturday evening last. A delegation of the Council Bluffs Odd Fellows, known as the Rebecca degree lodge No. 3, suddenly made a raid on them and they were at once invited to them and they were at once invited to join in the mysteries, which being concluded the party adjourned to Richard's restaurant, on Farnam street, where they partook of an excellent collation. The party were a jolly set and included a good sprinkling of ladies, which materially added to the pleasantness of the evening's entertainment. The delegation comprised Mrs. J. Spare, N. G., and Mr. Spare, Mr. Eppenetter, P. E., Mr. Van Brunt, Mr. John Anderson, wife and daughter, Mrs. Burhorne, Mrs. Leffots, Mr. Jackson and wife, Mr.

Brother Jones, of Omaha, spoke very elequently on friendship, ove and truth, and Brother Riley made a fine speech on the duty of Odd Fellows. Bro. Wilson, of California, gave a graphic account of Odd fellowship in the golden state. Sevstal other addresses were made which were all received with enthusiasm. The delegation came over on a special train and returned at midnight. BEE reporter who met them on their way home they expressed great satisaction at the hospitable manner in which they had been entertained by

THE STATE FAIR.

Preparations For the Largest Exhibit and Attendance Ever Known.

Thirty Thousand People Expected on the Eig Days.

Interesting Entries and It ms Concerning the Show.

The state fair opens to-day, and, should the weather prove favorable, promises to be a complete success. The new buildings, with the single exception of the main dining hall, are complete, and the grounds in solendid condition.

The secretary and treasurer's building has been removed to the right of the main entrance, making it much cates: more convenient of access.

The Burlington & Missouri build ing, with its additions, is completed, and the Union Pacific folks had a dozen men at work all day yesterday arranging their exhibit, which will greatly exceed in extent that of last year, the house already being full and much more to come.

Extra pens have been constructed, sufficient to accommodate all the hoga

the first considerations. There is the largest amount of ma-

chinery ever put upon the ground, and yesterday the engines were started and worked in fine shape. Some fine Kentucky cattle, shorthorns, arrived, and also two carloads

of horses from Canada, Normans, belonging to Mr. Frye.

The cottage owned by Dewey & Stone and Orchard & Bean is filled with fine furniture and carpets, these two live firms being among the first to complete their exhibits, and both having a grand display. There is very little in the halls thus far, Fine Arts

hall being best supplied. Twelve counties will make complete agricultural exhibits this fall, and this portion of the show will be unusually

fine and complete. The dining booth just east of the B. & M. building is finished and there will be plenty of supplies in the eating line. The main dining hall will be

completed by noon to-day. The two pavilions built by the Lininger, Metcalf agricultural company, and the Omaha implement con.pany are filled, and the display of machinery will be far ahead of that of last year. Several carloads came in yesterday from the state fair at Des

The sprinklers were set to work yeserdsy and kept the dust down in fine shape. This will be a great feature this year, the hydrants along Sherman avenue and these inside the grounds enabling the Omaha Sprinkling company to keep the grounds and approaches wet down at a comparatively

small outlay. To-morrow will really be the opening day of the fair and the various halls will be put in order to day by

the different superintendents. The secretary's office will be moved from the Paxton to the fair grounds at 6:30 this morning, and all the officers are in the city and will be on

A BEE reporter called at the secre tary's office yesterday and found a large exhibit furnished by the school children in response to Prof. Lane's offer of special premiums. Among the various entries were over 500 specimens of penmanship, 1,000 maps and 500 specimens of drawing. Every one of these will be entered separately and a tag put on with the name of the child furntahing the aricle. The various specimens will

hung on the walls of Floral hall. Gov. Furnas sends up a fine frame constructed of thirty different Ne-braska woods, highly polished, enclosing a flat board of mosate work, in which 400 or 500 samples of No brasks woods are united, all highly

of silk cocoons. Chas. Dietrichs, the portrait painter of Columbus, Neb., sends a large

box of oil paintings.

At the closing of the secretary's books Saturday night the entries num-

bered nearly three thousand, which is largely in excess of any previous number for a corresponding time. Arrangements for exhibits at the grounds have been made on a much larger scale than ever before, and many of the difficulties, which have been encountered at other fairs, will this year

be obviated. Saturday noon there were a hundred fine horses on the ground, and droves of cattle, hogs and sheep were arriving all day. Just at night a train of seven cars of fine stock arrived from Des Moines, where they were on exhibition at the Iowa state

fair, and more is on the way. Hon. G. B. Loring, of Massachusetts, commissioner of agriculture, arrived Saturday night, and is quartered at the Paxton. He was met at the transfer by Senator Saunders, Judge Savage and Colonel Chase. He will deliver the annual address on the fair grounds Wednesday

The special entries of speed horses

are already much larger than ever before. There is now a field of thirtyfive race horses on the ground, all of good record.

The races will be a splendid feature as the following list of entries indi-

will participate. The school children will be given a holiday on Friday and the banks will be closed on Wednesday, Thursday and Friday afternoons.

Felegraph, telephone and express facilities will be furnished The Union Pacific will commence running special trains between the Tenth street crossing and the side track opposite the fair grounds this morning, which will continue throughout the week. Commodious platforms at either end

have been built. The Chicago, St. Paul Minneapolis & Omaha road will run a special train during the week on the special time card. The Sioux City & Pacific Elkhorn Valley line will run a train in connection with the special train at Blair, giving both to and from Omaha a rate of one fare for the round trip.

SUNDAY SINNERS.

A Man Stabbed in the Breast With a Penknife.

Another Tumbles Off the Seventeenth Street Embankment.

And a Wholo Squad Files in For Various Offenses.

About 9 o'clock last evening a couple of men named Frank Smith and Frank McLean, had some trouble on Twelfth street, just below Douglas, which resulted in the latter being stabbed by the former, with a penknife. McLean is an employe of the hardware firm of Dolan & Langworth, and Smith is a railroader from Sioux City. The former was cut in the left breast, just A. C. Hull, of Fremont, is at the Pax. above the region of the heart. The knife was only prevented from doing fatal work by coming in contact with one of the ribs. McLean was taken to Dr. J. C. Panter'sdrug store, in the Millard block, where Drs Panter and H. W. Hyde dressed the wound. The appearance at first in-dicated that he had been cut through the lung but examination proved it to be only a flesh wound. Officer Burk arrested Smith and lodged him in the city jai', and McLean was taken to a house on Twefth street for the night.

BAD ON THE CITY. Mr. C. Morris, an employe of the white lead works, fell off the embankment on Seventeenth and Far nam last evening, and was quite badly hurt. He was taken to the city jail and Officer Bork called in Dr. Gross man, who gave him the required medical attention. Morris was insensible when picked up, but had no bones broken. He is a large and portly man, weighing about two hundred pounds. His wife was summoned, and took him home late in the evening. He was intoxicated C. C.
