

THE DAILY BEE--OMAHA WEDNESDAY, SEPTEMBER 13

FINANCE AND COMMERCE.

Postal Dispatches to The Bee.

FINANCIAL.

NEW YORK, September 12.

MONEY.

Money—\$3@ per cent, closing at 4 per cent.

Prime Mercantile Paper—6 per cent.

Sterling Exchange—steady; bankers' bills, \$4.84; demand, \$4.88.

Governments were strong and 1@ per cent higher.

The stock market opened higher than yesterday's closing prices, active stocks being notably advanced, many going higher than ever before. This condition was attributed to the large winter tonnage for railroads in sight and because it is the policy of leading railroad managers to do this prospective business only at profitable rates. In the early afternoon the market declined a fraction, but soon became better, and so continued through until the beginning of the last hour, when prices fell 1@ per cent, part of which was recovered in the last half hour, and the market closed strong.

Produce exports for the week, \$6,600,000.

GOVERNMENTS.

Yesterday. To day.
