-The law provides that the city council shall designate the property benefited by the water works, and levy the special sment on that. There has been some difficulty in determining how far the benefit of any hydrant reached, and in order to get some light on the question, the chief of the fire department has been corresponding with other cities. All have not been heard from. Marshalltown has water works, but has not yet settled the question. Davenport has decidedly from 1,000 to 1,500 feet from the last hydrant. Others are yet to be heard from.

WNo street in Council Bluffs, nor in the west, is more prosperous in having fine brick buildings erected and new enterprises started than Main street. A few days ago Mr. Henry Beecroft, one of our most enterprising and successful expressmen, bought out the livery business of Ben Rogers, on this street. He has added considerably to the stock of buggles and given to any one affording information horses. He also keeps up his City Hack Line, and promptly attends to all orders. Call and see him. -Dr. Hatton, greenback candidate for congress, has already opened the campaign in this county at Center school house, Grant township. This does not look much like retiring from the field. The fact is, the doctor is not one of the backing out kind, and as he was nominated in good faith by a party that has more weight in this district than the one Mr. Banker Pusey represents, it would seem very foolish in him to think of retiring, and very cheeky in Puscy to ask him to retire. Besides, we opine, there are few greenFAIR PROSPECTS.

Plans Being Perfected for Making the Council Bluffs Fair a Big Success.

> have this week for attending the fair The business men are planning to give up one day entirely for fair purposes, so that by closing their places of business, all hands, employers and employes, will have a chance to attend. It is not fully decided what day it will be, but probably Wednesday.

Arrangements are being perfected for having Tuesday set aside as a free day for school children, and it is probable that the public schools will

be closed on that day.

The entries show that there will be the track. Some of the best known horses in the country are to be here, and the entries are sufficient evidence left both box and bag behind them. Its Filthiness Makes It a Dis grace to Any Civilized Community,

And It Ought to Give Way to a New One-

The present city calaboose, or cooler, or cage, for whatever name it may be known by it would smell as sweet, and no sweeter, is a disgrace which ought to be wiped out. At the best it is too small by far, there being but two little rooms, and sometimes, as for instance Sunday night, there are as many as fifteen victims packed take hold of. Yesterday they caught in there. With poor ventilation and Charles Porline for having his license card out of sight. He was fined \$14.

The walls have been whitewashed time and again, until the layers are thick and all saturated with the accumulated filth of years. Of late even this much has not been done. Ver-min abound, and every crack and dose of chloride of lime is thrown into the cage to kill some of the stench if possible. Whether the cure is not worse than the trouble is question. In this filthy hole prisoners, supposed to be human, are thrust. Some of them are beastly drunk, and they besmear and defile everything, while those who are sobered up must sit and endure as best they can. Matters might be made a little better if the prisoners themselves were obliged to scrub out

country as with a river of life. A Beautiful Hair Dresser. Newport Letter in Cincinnati Enquirer.

By far the most beautiful girl in all Newport at present is a Boston hair dresser. About all the male admiration in the entire Casino yesterbay afternoon was bestowned upon her, and she received it with the uncon scious grace and dignity of an ideal duchess. Her father was a bricklayer, I am told; her mother was a wash woman, and rhe herself ended her school days at the sge of thirteen, to earn her own living. And here she is, a bright-skinned brunette, with big, melting black eyes, abundant jetty hair, regular features, a tall, shapely, well carried figure, and pertectly lady-like manners, She works busily and quite profitably at home, but is now out for a holiday, and then a women loftily sent for ner to come ann nress her hair, meaning an insult, impossible. I did not leave my shop as long ago as you did your slaughterhouse, but I am for the time being as far away from it." The fact was that the woman had more than twenty years ago been a practical worker in a Boston pork packing house, in which While speaking of this beautiful hairdresser, let me describe her toilet of yesterday, as it illustrates a prevailing elaborate style of afternoon costuming at Newport. The material was For Sensational Trotters ivory white surah, shirred for s

quarter of a quard from the waist downward in close gathers, so that it showed every action of the hip. The fulness from the gathers was arranged in plaits, which extended to the edge of the skirt, where they were met by a fall of white lace put on in coquilles. The bodice and paniers were white nuns' veiling trimmed with lace. A small cape, made of row after row of Oriental lace, reached just below the shoulders. Her hat was completely covered with the same lace garniture, to the exclusion of any other trimming, and her white satin parasol had several lace roffles as a bordering. Not a touch of color was seen, and the effect was that of just such simple elegance as most of the fashionable Newport girls strive after.

The Mennonite communities Kansas are prospering. About 15,000 of these Russians own nearly 200,000 acres. This property was purchased equally from the railroad companies and from the Government. The industry and economy of the Mennon ites is proverbial. It is said that some of them are worth from \$8,000 to \$10.
