A Georgia Corn Snucking. The life and humor of this autumn estival, at the south, are described by David C. Barrow, Jr., in the October Century, and are also illustrated by

several character sketches: The farmer who proposes to give corn shucking selects a level spot in his lot, conveniently near the crib, rakes away all trash, and sweeps the place clean with a brush broom. corn is then pulled off the stalks, thrown into wagons, hauled to the lot and thrown out on the spot selected, all in one pile. If it has been previ-ouily "norsted" through the neighborhood that there is to be plenty to eat and drink at the corn shucking, and if the night is auspiclous, there will certainly be a crowd. Soon after dark the negroes begin to come in, brethren "pread his raiment between them and east lots," men seemed to baye lored grown and east lots, and seemed to baye lored grown and entidren. After the crowd has gathered large cities are well stocked with gam-bling tables, and even when people to

through the rail, will divide the pile America. It is the custom here to call all gambling resorts "club houses," this depends the accuracy of the division; it is accompanied with much argument, not to say wrangling. The berlain, and within its walls many a position of the rail being determined, was noted for its sumptuous midnight banquets, but now, since it has come than any of his followers; for the (which is not stronger than gun powders, but now, since it has come chances are that, should his side seem der) are of just such a character as to will knock the leader off the corn-pile, and thus cause a momentary panic, which is eagerly taken advantage of. This proceeding, however, is considered fair only in extreme cases, and not unfrequently leads to a general sion of another body. For instance, row. If it is possible, imagine a although the nitro-plycerine is much negro man standing up on a pile of corn, holding in his hand an ear of visations and have a good voice, so that he may lead in the corn-song. The corn-song is almost always a song with a chorus, or to use the language of corn shuckers, the "gin'r'ls give out," and the shuckers "drone."
