Crops and Candidates Well Advanced -A Sad and Sudden Death, Etc.

Correspondence of The Box. ASHLAND, September 26 .-- As a face this year. Crops were all good and secored in good condition. The yield of corn and hay is large, and our stockmen consequently are in the best of humor, for it should be remembered that stock-raising is one of the principal industries of the county. RAILROAD MONOPOLY

interests are supposed to be well cared for in the nominations made by the republicans for the senate and the house. The greenbackers have entered the field with their men, and

Hinkley, about twelve years old and orphan, met with a terrible death. He was taking a cow to pasture, and fastened one end of a rope around his body, the other end being secured to the cow's head. The cow became frightened and ran, dragging the poor boy with her, breaking his back, crushing in the back part of his head, and bruising his body frightfully. His

death was almost instantaneous. Mr. Sellick, a few miles south of Ashland, recently sold his fine farm at \$30 per acre, and will remove to Illi-

ASHLAND is improving, not rapidly, but nicely and substantially. Livington's attractive and commodious opera house, is approaching completion. It is built these is the Merchants Hotel, which has been opened within a few days by tractive and commodious opera house, as Booton, formerly of Hamburg, Ia., and of the Windsor, at Seward. The of brick, 44x100 feet, and will prove house is a three story brick, well fura great convenience to the town, as nished, and managed, making it one well as a credit to its liberal founder. Our two flouring mills are being run to the extent of their capacity. A new lumber yard, one of the largest and finest in the state, is just beginning operations. The creamery is in motion. Our merchants and other business men have their hands full, and have no time for idleness.

Morris & Gould are pushing the furniture business at a lively rate. Rev. H. A. Gulld, formerly of Juniata, recently removed here with his family, and has taken full charge of the Baptist pastorate, a large and flourishing interest.

Prof. Hill, the new principal of our public schools, impresses one with the solidity of his scholastic and educational qualities. He is giving excelent satisfaction in his responsible position, and is ably seconded in his efforts by Prof. Parker and the other members of the faculty. Ashland is proud of her educational interests, and well she may be. Yours,

The Effect of the Recent Frost-Suc cessful Features of the Fair.

DAVID CITY, Neb., September 23. The frost of the evening of the 20th and which fell upon Nebraska, about the time the state convention mana gers were getting in their work, was of sufficient severity to kill the corn if they hold a certificate of memberin many places, as successfully as the MUTUAL TRUST ASSOCIATION bosses blasted the hopes of the honest republicans.

All along the Blue River and in the east of Butler county along Oak Creek the corn is as dry to-day as it will be more to resp even larger benefits. in December, while on the higher land, Nothing like it was ever known. between these, it is still growing and Do not postpone sending in your many farmers are cutting up the stalks request for circulars giving full and for fodder.

notice by the thoughtful educator. A new foundry and machine shop is ocated between the depot and the town, and new buildings are evidencng the march of progress. The Windsor is receiving a large

G. McCarty is talking of going to the mining regions, but the people of Seward should encourage him to bring his money to this county town, for they will miss him and his twenty years' of quiet business and experience along the Blue.

THE COUNTY FAIR

at David City this week was a grand success. The association have built a good board fence around the whole grounds, erected good buildings, orgauzed on an efficient basis, with J. Robert Williams as secretary, and come out with money to pay all expenses, and a balance. A number of business men formed a company and built a magnificent grand stand at a cost of some less than \$1,000, which is a needy. substantial and convenient structure, and is a great addition to the enterprise. No such an attend-ance at a county fair has been known in this part of the state, nor such an exhibition, for "everybody" worked. The herds of fine stock, large numbers of trained horses great display of grain, vegetable, mashinery driven by steam power, bicycle races, buildings full of household, fancy and art work, and specimens from the great stores, shops, offices, nurseries, and farms of the county, the acres of ground packed teams, and 1,000 indicated that this was probably the best county fair ever held in the state. It is to be noticed that Wahoo once had the best fair ground and finest track in the state, and H. D. Perky labored to build up that enterprise in Saunders county, without hardly a kind word from a large class of people who should have helped bring the state fair to that county. To-day all is in ruins, for the buildngs are gone, except the floral hall, which is used for a barn, and the track is destroyed, and the people may some time see that they made a grand mistake in letting Perkey go, although

he is supposed to be making a great success of his railroad in Denver. Many people seem to doubt the prac-tical benefit of a fair beyond "a days amusement," or a "little fun." But it seems to this scribe, that in the his-tory of fairs, the state fair of this year,

has done the most good. Every town now has its representageneral rule prosperity stares the peo- tive in Iowa, Illinois, or New York, ple of this staunch old county in the trying to buy blooded stock, or secure some improvement. At almost every ratiroad platform one may seecrates of pigs, or sheep, or consignments of choice cattle, horses, or new machinery, and one-third of the best men of he state (politicians not included) are talking of choice hogs and sheep, and the profits of money invested in Clydesdales and short horns. SCROFULA. The seat of all diseases of this nature is in the blood, as any one manifestly knows; therefore, if you purify the blood, the disease, in any form or stage, disappears. Read what those say who have tested the merits of the great vegetable blood purifier, S. S. S. It cleanses the blood of all scrofulous taint so thoroughly that the disease never returns.

I had scrofula for seven months, the ulcer covering the entire surface of both legs. After having tried the usual remedies with no relief, I resorted to S. S. S., and am glad to say that six bottles has effectually cured me. A. S. LENFESTY, Atlanta, Ga

I suffered from scrofula 17 years. My shin bones were covered with ulcers and one mass of rotten flesh, and the odor was almost unbearable. All remedies and treatments failed until I began taking S. S. S. Previous to taking it I at times could scarcely Now I can walk all day, and I have to thank S. S. S. and it only for my cure. Thes. McFarland, Atlants, Ga.

Some thirty years ago there lived in Montgomery, Ala., a young man who was terribly afflicted with Scrofula. After being treated for a long time by the medical profession of this town with no benefit, he commenced taking S. S. S. After persistently taking it two months he was cured. Being acquainted with him for 20 years thereafter, I can testify that the lisease never returned.
