MRS. ABRAHAM LINCOLN'S estate turns out to be worth \$100,000. There was a great deal of sentiment and gush wasted over the alleged poverty of the widow of our martyred president.

WITH the greater portion of the utterances of the anti-monopoly platform THE BEE is in hearty sympathy. It has fought in the party ranks for the principles which they advocate, and worked untiringly as a public journal to enforce the truths which they embody.

Every state senator and representative will this winter have a vote in the election of a United States senator. Let the farmers of Nebraska bear this well in mind and elect no man who is not known to represent the sentiments of the producers of this state and who has not character enough to put his platforms of both political parties opinions on record.

ASTRONOMERS are puzzling themselves over the great comet which may be seen early in the morning very near the sun. Its appearance has set the whole scientific world by the ears. J. J. Points is well known in this city and county as a man thoroughly qualified for the position of state superintendent of public instruction. He is now school superintendent for Douglas county, which position he has held for five years. He is also a member of the board of education of Omaha and enjoys the esteem and confidence of all who know him.

The nomination of regent of the university tendered to Mr. Thomas Bell, of Otoe, has been declined and will doubtless be filled by the state committee at an early day.

In Nebraska no railroad candidate can be elected without the support of men who are opposed to the aggressions of corporate monopoly. The recognized this fact by dropping an anti-monopoly bait into the muddy waters of the canvass, in the hope of hooking "granger gudgeons," as Mr. Thurston would say. The question now is whether the anti-monopoly reesmpaign at Fremont on Tuesday, publicans in Nebraska are suckers

Although a plain Nebraska farmer, he is a man of culture, thoroughly informed on all the leading issues of the day, and outspoken on all the questions that agitate the publie mind.

On national issues Mr. Mocre would doubtless be a r epublican, but on the issues between the people and the monopolies Mr Moore would be independent, exercising his best judgment for the public good.

Carefulestimates give a total yield of 1,500, 000. In the southern states shucking has been delayed by cotton picking or Texas gulf corn would be already moving towards the markets. North of the Ohio early November will be reached before much of the new crop leaves the fields for the railroads and eastern elevators. Prices will rule lower than last year but the increased crop will more than make up the deficiency, even when acvanced railroad tariffs are taken into consideration. In Nebraska the highest prices obtained for corn will be secured by trine. those farmers who put their crop in hogs and cattle. Corn on the hoof pays double the prices of corn in crib.

The question for republicans to answer is whether the republican party of Nebraska is to be run by men who are not republicans. If a dozen men professing to belong to the republican party can organize an irregular convention and nominate a man to receive the support of repubicans, it is time that party machinery were wiped out of existence and chaos set to reign instead of it .- Central lity Nonparoil.

The false position taken in theabove quotation is the assumption on the part of the Nonpareil that M. K. Turner and his supporters are not repub licans. That such declarations are made by the supporters of Valentine is no marvel.

Turner's record, as well as that of the convention that nominated him, is clearly on the side of true repubicaniam.

Mr. Turner has always advocated republican principles, and even the supporters of Valentine come forward and integrity."

nominee for governor is a notorious not make so much difference as to The reprison state ticket from

pulation of the railroad ringsters. In two out of the three congressional districts the railroads have succeeded in nominating their preferred

party sentiments by the corrupt man-

candidates on the republican ticket. The people who have been left out in the cold are now asked to walk up to the polls and ratify the monopoly nominations. Having been chested out of the representation to which they were entitled, they are given the alternative of endorsing men in whom they have no confidence or of being branded as traitors to party and renegades from republicatism.

Honest republicans, whose allegiance to party has been abused for years in the state, will do well to take the branding. The railroads have made the nominations: let them elect their

They are boasting that they will control the state board of equalization on the republican ticket when it is elected; let them do all of the electing.

The time has come when the medicine of defeat must be administered to a number of party candidates, if there is any hope of saving the life of the party itself. The railroad cancer must be cut out by the surgeon's knife, or the republican party must go by the loard.

Every voter in Nebraska who is not controlled by the monopolies has a duty to perform. That duty is to protest against the bold invasion of popular sovereignty by corporate capital. The only way in which protest can make itself heard is at the polls. The issue between arrogant monopolies and the producers of this state is clearly defined. It is to be determined at the coming election whether Nebraska is a government of the people and for the people or a mere province of the railroad kings. The monopolies have put up their candidates.

Let them elect them, if they can.

Young republicans in half a dozen states are kicking in the traces. The party lash which is being vigorously applied only seems to make matters worse. As thinking men who claim longer to pull the wagon that the bosses may ride. Mr. Cameron is invited to walk in Pennsylvania, Mr. isn't room for them to take a ride.

The strength of his campaign calls out every species of opposition, but above all these his record and the platform on which he stands show the loyalty of a noble manhood to the principles of the republican party.

The single aim of the farmers' alliance is to secure adequate means of transportation for heir productions. They offer abundantly the first necessaries of life and subsistence to all the people. They ask for a cheap access to the eastern markets. Thus far they have contented themselves with an effort to reduce the fares and freights, and have succeeded to a limited extent, but through no exertions of their own. The Chicago, Burlington & Quincy and Union Pacific systems hold the complete control of all traffic. Within two years their trade has increased immensely. These two great monopolies are overburdened with the amount of business offering. They carry all the bulk of Nebraska's produce, and up to this late day no legislative action has prevented them from extorting from the stockman and farmer a tariff sufficient to consume his profits and leave him in perpetual indigence. The real difficulty is apparent, open and above board. They are unwilling to carry freight cheaper unless compelled by action of law, but always willing to evade taxation. That is certain. They have never failed to seize upon the opportunity to extort large sums from the people of this state. We duce, and up to this late day no leg-islative action has prevented them pay for the support of a plain rannopoly, while they put their own
