NEBRASKA LAND RINGS.

Ever since Nebraska was admitted into the union this state has been infested by a gang of land sharks who have sought to rob the people of their patrimony in the public domain. First we had the state capital ring with Dave Butler and Tom Kennard at its head, who engaged in the general land business on a very large scale. They disposed of thousands upon thousands of acres to air line ratiroads built on paper and they managed to traffic Hull, \$3,000. away the saline lands, penitentiary lands and public improvement lands to land rings and corrupt jobbers. Then we had a swamp land ring under the Furnas regime, which voted to give Tom Kennard & Co. fifty per cent of all the lands to which Nebraska was entitled from the national government under the swamp \$106,350. land act. It was computed that there were millions in this scheme. Then we had the land grabbers and homestend swindlers' ring, with Valentine, Schwenck & Co. as head centers. This ring infested northern Nebrasks and the Eikhorn valley as dealers and 26; Richards & Richards, \$4,796.78. jobbers in homesteads, which were reserved and "covered up" for the ring, and sold to settlers at extravagant

This innocent plank endorsing the action of Glen Kendall in leasing the land on option is designed to cover a stupendous fraud. We have it from reliable authority that the school land ring has already pocketed thousands of dollars out of school land leases, The way they operate is about as follows; The state school lands are first appraised under the order of the board of public lands, of which Glen Kendall is the head and front. The appraisers are picked from among the ring and the lands are appraised at a

very low rate. They then forward an application for a twenty years' lease to Glen Ken- nial politicians as Robert Livingston dall, and they get the use of the land while absorbing lands, offices, matriat six per cent, which is about six monial alliances, Indian jobs, and cents an acro per annum. Large what not, that "he had rather be tracts of school lands are thus leased to the ring and then sublet to stock produced two sons, one of whom actual settlers. These leases made Jefferson president, the other are granted without notice to anybody and nobody outside of the ring knows anything about them. If a farmer wants to pasture cattle or wants to cut hay he has to pay a round
