CRIMINAL NEWS.

Frank James, the Surrendered Outlaw, Arrives at Independence, Mo.

Large Crowds of People Throng the Depot and Hotel to Honor Him.

An Explanation of the Field Infernal Machine Given by the Judge.

The Missouri Hero.

INDEPENDENCE, Mo., October 6.—In company with several officials our correspondent left here this morning on the early train and at Pleasant Hill met the train bearing Frank James, who was en route to Independence in charge of the governor's secretary. There was a great crowd at the station as the train bearing the notorious outlaw arrived and they surged in the aisles of car, and packed the platform and in front of the windows, all anxious for a peep at James.

Upon reaching Independence James descended from the car and eagerly embraced his wife and his little son. Mrs. Samuels wept aloud and kissed him, and the celebrated bandit's eyes were also wet with tears. The party was then driven to the court house.

James is 5 feet 8, of spare but sinewy build, with rather thin face and prominent cheek bones, light blue eyes, small blonde mustache, and hair somewhat darker. His complexion is that of a man who has been in confinement; weight about 125. His manner is quiet. James told our correspondent that he had long contemplated surrendering to the state, and although he has no promises of clemency, he seems to take hope that in case of conviction the governor will pardon him on account of voluntary surrender. He says from April, 1877, to April, 1881, he lived on a farm near Nashville. He would not say where he was since that time.

INDEPENDENCE, October 6.—It was found impossible to hold the examination to-day, consequently James was taken to the hotel. Two indictments have been standing against him in this county for about a year, one for complicity in the murder of young Wichee, near Liberty, in 1874 and the other on account of the Blue Cat robbery. The criminal court does not sit regularly for some time, but Judge White will probably give a hearing upon the indictments in chambers next week. James was this evening removed to a cell in the jail at Independence and will there remain until the court grants a hearing and no formal proceedings will be held this week. An immense crowd remained about the hotel all day attempting to get view of the prisoner, but his wish was to remain quiet and see but few callers.

CHICAGO, October 6.—It has been discovered that Frank James spent last week in this city, sleeping at night at the Sherman house, under the assumed name of Pratt, and spending the day on the West side in consultation with friends from Missouri with reference to his surrender. The letter to Governor Crittenden is said to have been written here and taken to St. Louis for mailing. One of the United States deputy marshals here became aware of his presence in this city and swore out a warrant before the United States commissioner, charging James with robbing the United States mails. For some unknown reason, however, the deputy made no effort to arrest him. James left for Missouri Monday morning. Previous to coming here he was at Quebec and Cleveland.

A Showman After James. PITTSBURG, October 6.—The manager of the museum here has telegraphed Frank James, offering him \$5,000 to appear ten weeks under his management, provided matters arrange themselves so the offer can be accepted.

Field's Infernal Machine. CHEYENNE, Wyo., October 6.—Associate Justice Field passed through this afternoon on his way from San Francisco to Washington. Your correspondent showed him the dispatch respecting the infernal machine sent him. Judge Field said the machine was received by him January 16, 1866, an account of which was published the next day in Washington papers, and also appears in Judge Field's book "Reminiscences of the California." The machine was recently taken to a gunsmith in Washington, under the judge's orders to have fulminating powder removed to avoid accident. The judge further said that the man whom he always suspected of sending the machine died several years ago, and the stranger part of his action was, that Judge Field's decision respecting the title to the ground on which San Francisco stands, was really beneficial to the man, although he believed himself to be ruined thereby, and hence sought to kill Judge Field.

Mexican Bandits. BROWNSVILLE, Texas, October 6.—Bandits entered the house of the tax collector at Tacahua, Mexico, at midnight and murdered him after mortally wounding his wife, and robbed the safe of \$4,000.

An Unfounded Report. CHICAGO, October 6.—Col. Clowry, general superintendent of the Western Union, says the published statement that the Western Union and Mutual Union were to be consolidated was utterly without foundation. The Chronicle correspondent also learns from excellent authority that the story of the pro-

posed general strike of telegraph operators is also a canard.

The trouble originated in a construction by the proprietors of Anchor mill of the price list and its conditions. As the mill owners claim they have put a plain and correct construction on the agreement, they will not yield and all the mills will be closed to-morrow.

SPECIAL DISPATCH TO THE BEE. BAXTER SPRINGS, Kan., October 6.—A fire this morning destroyed the residence of Mr. Rosecrans, at Lowell, four miles west of here, and two of his daughters, aged 7 and 17, perished in the flames. The oldest one had succeeded in getting out of the burning building with her mother, when she rushed back for her little sister and had dragged her through the smoke to the head of the stairway, when the floor fell with a crash and both were pitched headlong into the burning mass below.

SPECIAL DISPATCH TO THE BEE. CEDAR RAPIDS, Ia., October 6.—A freight and wrecking train on the Burlington, Cedar Rapids & Northern collided to-day, wrecking sixteen cars and both engines. Colorado Pool Roads.

SPECIAL DISPATCH TO THE BEE. CHICAGO, October 6.—The general managers of the Union Pacific, Burlington, Atchison, Topeka & Santa Fe and Denver & Rio Grande railroads met here Monday to consider percentages for a pool between Missouri river points and Denver. Two conferences to this end have already been held, but agreement was defeated by the demand of the Union Pacific that the Burlington build no more road in Colorado. It is understood the Union Pacific has abandoned this point, and it is thought probable a pool will be formed.

The Georgia Election.

SPECIAL DISPATCH TO THE BEE. AUGUSTA, Ga., October 6.—Thirteen counties in this district give Stephens 10,033 majority. Three other counties to hear from will make it 12,000. Stephens majority in the state is 60,000. Stephens to-day sent the governor his resignation of the office of congressman of the Eighth Georgia district. The election to fill the vacancy is ordered for November 7th. Gaillard, defeated candidate for governor, will contest the election, not with the hope of getting in, but to show alleged frauds and intimidation.

WASHINGTON, D. C., October 6.—G. H. Henderson, secretary of the republican central committee of this city, received to-night a telegram from A. E. Buck, chairman of the republican state committee of Georgia, saying in behalf of General Gaillard, he will contest the election of Stephens upon several grounds, viz: bribery of voters at the polls, open and notorious intimidation, false counts by managers failing to open the precincts in several counties according to law, and voting of convicts under guard, some of whom were minors. He says he will summon many witnesses, including Senator Brown, and asserts the charges made will be fully sustained.

Of seven vessels riding at anchor off Tampico, Pueblo Nuevo, Mexico, five of them went ashore and were total wrecks, breaking upon the shelving beach. The barometer began to fall Friday and both anchors were let go on each vessel, but the force of the wind was so great that the vessels dragged on the shore in a short time and broke to pieces. Michael vs. Fedawa.

Freecott vs. Jones.

Booles vs. Paine & Lepin.

Bowen vs. Billings.

Republican Valley railroad company vs. Sayer. Error from Furness county. Dismissed. Opinion:

1. Where a summons in error is directed to the sheriff of a particular county, it cannot be served by a private person, unless appointed for that purpose by such sheriff.

2. A court or judge may for cause show appoint a person to serve a particular process, but a justice of the peace has no authority to appoint a person to serve a summons issued out of the supreme court.

3. Where an alias summons was issued and served after the expiration of a year from the rendition of the judgment, held—it gave the court no jurisdiction.

Gibson vs. Paris. Error from Douglas county. Affirmed. Opinion Lake Ch. J.

1. The holder of a promissory note is not required to resort to his remedy against the maker before he may proceed to collect it from the indorser.

2. And when the indorser has waived a demand, protest and notice of non-payment, a right of recovery accrues against him as soon as the note is due.

3. The indorser cannot, like a surety, call upon the holder of a note to proceed and collect it of the maker.

4. In construing a pleading, the rule is that it must be taken most strongly against the pleader.

The Biggest Safe Ever Moved in Omaha.

A BEE reporter who was walking up Douglas street yesterday saw in the street in front of Stubbendorf's, what appeared to be a house in process of moving from one part of town to another. Baldwin's house movers were at work on it with teams, capstan, block and tackle. On nearer inspection it was discovered to be the iron vault for the new Omaha National Bank, an enormous mass weighing 14 1/2 tons. It was being hauled from the depot to its future position in the big bank on trucks used for moving buildings, the work being done under the supervision of T. J. Baldwin. It is the largest piece of iron work in the shape of a bank safe or vault ever brought to Omaha.
