GENERAL VAN WYCK AT FREMONT

At the request of Senator Van Wyck the date of the mass meeting to be held at Fremont on Wednesday, October 10th, is changed to Saturday, October 7th.

The land problem is becoming an important one in this state.

So Glen Kendall and his school land leasing ring have thought for two years.

SCOURGERS TRUTH, who is at least 108 years old, lectured last week in Michigan.

DEFLECTIONS from the republican ranks in New York continue, ex-Senator Wooden and United States District Attorney Woodford being the latest to protest against the frauds at Saratoga.

The latest cry of protection is that the colored cultivators of peanuts in North Carolina and Virginia must be protected against the "pauper labor" of the peanut raisers of Africa.

VALENTINE, the rump candidate for congress, voted for the original and increased river and harbor steel and godded the veto.

And keep in mind that Hon. M. K. Turner is the republican nominee for congress in the third district. Keep clear of men who bolt honorable principles, and endeavor to deceive the people by claiming to represent republican doctrine.

THERE is one republican paper in this district which supports Mr. Turner. That paper is owned and edited by Mr. Turner himself, the Columbus Journal.

THE admission that the Columbus Journal is a republican paper is truly generous. But the infamous lie that Mr. Turner is an office seeker over-matches the generosity of the first admission.

SOME two or three minor editions of THE OMAHA BEE are repeating the charge about the alleged miscount in the votes in the republican convention.

The only count kept on the platform was by Gad Slaughter, who received his training in roguesy in the Lincoln Journal office and is notorious for garbling legislative journals.

But there was a number of honest republicans in the audience whose pencils and paper did check upon this brown faced piece of infamy, and all the bluster and brag of the monopoly organs will never convince them that Lozan Clark was not fraudulently counted into a nomination which belonged to another.

NO CONFERENCE NEEDED.

Is not a railroad manager a man? In this free country has such a man as S. H. H. Clark or A. E. Touzalin no right to decent treatment from the people?

As private citizens, S. H. H. Clark and A. E. Touzalin are entitled to all the rights and privileges which are accorded to law-abiding men.

The talk of laying the grievances of producers before "these gentlemen" with any hope of securing redress is the baldest clap trap.

Does any man who knows the arrogant policy of corporate monopolies believe that the railroad managers care one whit for complaints if the dissatisfaction among shippers does not injure the traffic on their lines?

If you continue to fight us, we will fight you, and prevent you selling a single bottle in Idaho and Montana. I will put your rate so high that you can't get there and give others special rates which will keep you out.

It is needless to remark that the conference stopped immediately upon its receipt. The demands which the people of Nebraska make upon the railroads are sufficiently well known.

OTHER LANDS THAN OURS. Parliament will soon be convened, and one of the first subjects which will be brought forward by the ministry is the establishment of new rates of parliamentary practice.

A plan to raise the fortifications of Paris has been proposed in the French chamber. In the event of the measure being carried into effect, Paris will gain about 3,110 acres.

Mr. Gladstone will enter upon his determination backed by a still larger majority than he had at the last session. The government party is much stronger than it was six months ago.

power which it would not otherwise have possessed, and it is in consequence in excellent fighting trim. If the conservatives are disposed to bitterly oppose the reform they will have the assistance of many of the Irish members and may prolong the struggle, but the prospect is that they will not care to go before the country in a general election at any time soon.

The Prussian elections for the Landtag takes place in a few weeks. A foreign correspondent states that as they are not held under the rule of universal suffrage, but under an indirect system which prescribes three classes of electors, each of which has the same representation, although only a few taxpayers may constitute the first or second class, the agitation of the parties thus far is rather secret and the participation of the people rather small.

Arabi is to be tried by court martial and is piteously pleading that his case may be laid before an English jury, claiming that he surrendered to Sir Wolsey and not to the khedive. There is no denying the fact that the khedive has more than once condoned his mutiny and acquiesced in his military usurpations.

A HOODOO AT WAHOO. Waioo, October 6. For some weeks past the citizens of Waioo have been waiting with great expectancy the preparation, by our home talent, of the play entitled "Better than Gold," and last night the play was given for the first time, to a full house of attentive and appreciative listeners.

Mr. Gibson, as Tom Payson, proud of his numerous blunders and mistakes, thinks that the greatest mistake he ever made was when he chose the trade of an architect rather than that of a theatrical artist.

Miss Frances Burkhardt, as old lady Garfield, performed her part admirably and proved by her genius that while she is young and spry she can appear old and dignified.

THE O'CONNELL SCANDAL. Official Report of the Investigation. WHEREAS, This vestry was convened Thursday evening, July 27th, 1882, by the Rev. T. O'Connell, and has continued to meet from time to time since for the purpose of ascertaining as nearly as possible the truth or falsity of certain statements which first appeared in The Fremont Daily Herald of July 22, 1882, charging the Rev. T. O'Connell, rector of St. James' church, Fremont, Nebraska, with being intoxicated or under the influence of spirituous liquors on several occasions in the Episcopal parsonage, in said city, being at the time occupied jointly by the Rev. T. O'Connell and W. V. Appleton and wife; and whereas, the said Appleton, with being intoxicated or under the influence of spirituous liquors on several occasions in the parsonage, and whereas, we have carefully investigated said charges, and after hearing all the evidence obtainable relating thereto, and to Mr. O'Connell's previous character and reputation before coming to Fremont, we conclude as follows, and Mr. Appleton admits that he left the choir and church not so much on Mr. O'Connell's account as because he thought himself and Mrs. Appleton had been

badly treated by the ladies of St. James' parish. Our final conclusion is that the bare facts, stripped of all malice and exaggeration, do not in any degree exonerate the charges as made by Mr. Appleton. It is therefore resolved, That we sustain and support the Rev. T. O'Connell in the discharge of his duties as rector of St. James' parish, Fremont, and that we extend to him an earnest and hearty sympathy in the whole matter.

There is such an institution in Nebraska as the state reform school, and Dr. (T) Collins, a gentleman who is a deal more of a pettifogger than a physician holds the position of superintendent with a salary paid by the taxpayers of Nebraska. Now if there are any boys in the reform school, Mr. Collins ought to be there supervising the institution. If there are none, he ought to be retired. But Mr. Collins has seen fit to take the political stump and is advertised to speak at Central City on October 12th and at other points during the campaign.

During September 1,200 miles of railroads were constructed in the United States, and the nine months of the present year have seen 8,075 miles added to our railroad system. Iowa leads construction with 104 miles, which was due to the rapid completion of the Omaha connection of the Milwaukee & St. Paul road.

There has been some alarm manifested by the press over the statement that nearly nine-tenths of the boys who recently endeavored to enlist as apprentices in the navy were rejected on the ground that they were physically unfit for the service.

Unbidden guests are often welcomed when they are gone. Disease is an unbidden guest which Kidney-Wort almost invariably "shows the door." Here is a case in point: Mother has recovered, I wrote an Illinois girl to her Eastern relatives. "She took bitters for a long time but without any good. So when she heard of the virtues of Kidney-Wort she got a box and it completely cured her, so that she can do as much work as I." Since she got well every one about here is taking it.

FOR THE PERMANENT CURE OF CONSTIPATION. No one has a more prevalent ailment in this country as Constipation, and no remedy has ever equalled the celebrated KIDNEY-WORT as a cure. "Whatever the name, it cures the bowels, the stomach, the liver and the bladder."

REPORT OF BISHOP'S COMMISSION. FREMONT, Neb. Sept. 27, 1882. To His BE Rev. R. H. Clark, D. D., Bishop of the Diocese of Nebraska.

The undersigned, having been appointed by you, as a committee to investigate certain charges made against the Rev. T. O. Connell, did in accordance with the authority and powers vested in us by the said appointment, a copy of which is hereto attached, meet at the place designated therein, on the 21st day of September, 1882, and after a patient and careful investigation as to the truth of said charges by examination.

First, The written evidence taken before the vestry of St. James' Parish, Fremont, in their examination. Second, Of oral evidence presented by those making the charges. Third, Of all other evidence that we could procure on the subject. We are of opinion that the charges against the said Rev. T. O'Connell, of the excessive use of intoxicating liquors are unsubstantiated by said evidence, and in our opinion there are no grounds for presenting him for trial thereon under the provisions of article 20 of the canons of this diocese.
