British Grain Trade.

Special Dispatch to THE BEE.

LONDON, October 9.—The Mark Lane Express, in its review of the grain trade the past week, says: Wheat sowing commenced favorably. Flour ruled very dull. New oats was in favor of buyers. Foreign breadstuffs partially improved. American red winter wheat advanced 6d. Arrivals of flour in London were very heavy, both American and European arriving freely. Maize is becoming scarce, but with the movement of the new American crop there is every appearance of a decline of about 10s from the highest rate, namely 34s. Export shipping cargoes inanimate. There were eleven fresh arrivals, eight cargoes sold, eleven withdrawn and nine remain, including six of red winter wheat and one of California. Cargoes on passage met with better inquiry at 1s advance. Sales of English wheat the past week were 57,266 quarters at 39s 6d, against 60,864 quarters at 46s 9d for the corresponding period last year.
